THE PROSPECTS.

In looking over the political field we see everything bright and cheering for Democratic prospects, notwithstanding the doletul mouths of the croakers. The total e ectoral vote will be 401 votes and necessary to a choice 201 votes. In our estimate the Democrats can hardly fail of having considerably more than that number. We think we are entirely safe in claiming Alabama, 10 votes; Arkansas, 7 votes; Californ'a, 8 votes: Delaware, 3 votes; Florida, 4 votes; Georgia, 12 votes; Indiana, 15 votes; Kentucky, 13 votes; Louisiana, 8 votes; Mary'and, 8 votes; Mississippi, 9 votes; Illinois, 16 votes; Nevada, 3 votes; New Jersey, 9 votes; New York, 37 votes; North Carolina, 11 votes: South Carolina, 9 votes; Tennessee, 12 votes; Texas, 13 votes; Virginia, 12 votes; and West Virginia, votes; making a total of 234 votes, or 23 more than are absolutely necessary. Of the above States all gave Demo-

eratic majorities in 1880, save California and Indiana, which gave Democratic pluralities; New Jersey, which gave a Republican plurality, and New York, which gave a Republican majority. In the election of 1882 both New Jersey and New York gave Democratic majorities, the latter to the tune of nearly 200,000. It is claimed by the croakers that the overwhelming majority in New York that year was largely due to the votes French Window Glass. of dissatisfied Republicans, a fact which we cheerfully admit. It is a source of gratification and a sure harbinger of victory for us to know that tise. There is nothing like it, we assure CO'S READY PREPARED PAINT. the same deep-seated dissatisfaction you .- Louisville Post. exists in the Republican ranks at the resent time, and that Cleveland will ook as many Republican votes at the approaching election as he did in 1882 is certain beyond the shadow of a doubt. The indications are to his receiving more votes from that source than he did when he was elected Governor. But the croakers say that Tammany is opposed to Cleveland. is dissatisfied and with him, as a matter of course, some of his adherents; but there are a great many in that organization who have avowed their intention to work and vote for Cleveland and are proving their sincerity by their acts and

A friend and a sterling Democrat has suggested that of the States we have claimed for Cleveland, it is possible, on account of the great number of Northerners who have migrated thither, of cape Fear to the Quarantine anchorage; that Florida with its four votes may sickness on board during the passage or on be carried for Blaine. Of this we have main rigging on the port side, as soon as pos- no fears, and the Republicans have not even laid a claim to that State. Of the number we have mentioned there is but one State of which we have any doubt. and that is California, where Blaine is popular on account of his position on Chinese question. Concethe eight votes of Cali-Quarantine must be made to Dr. Thomas F. fornia to the Republicans and there remains 216 votes in the Electoral College for Cleveland, which is 15 votes more than would be absolutely needed.

> The REVIEW is a Democratic paper. It earnestly believes in the justness, beneficence and patriotism of Demo. cratic principles as applied to the needs of our people, and hence it will work zealously and faithfully with the might at its command to maintain and advance the best interests of the Democratic party. While the REVIEW is not unmindful of the struggle now just which the Republicans are making in order to retain their hold of power, it sees nothing to excite alarm or desponand, many of them senseless, rumors pervading the political atmosphere with which the REVIEW will have nothing to do, because they are of no value as showing the true situation of affairs, can do no possible good and might

> possibly do much harm. We have claimed the States named for the Democracy after a careful scrutiny of the political outlook, basing our calculations partly upon results conceded by the Republicans, partly upon the untaitering devotion to the party of several of the States named, partly from the results of the last elections and partly from reliable information glean ed from responsible sources. We have every faith in the result and expect to cast a vote for the next President of these United States in the person of GROVER CLEVELAND, of New York.

Late German papers dwell upon a new and novel feature in the emigration movement which the Berlin Tageblatt calls the "exportation of a gennine aristocracy." The National Zietung shows that the movement has been originated by the extensive club "Nobilitas." which desires to obtain an outlet for superfluous society men. The club has been in treaty with the government of Chile to provide "secure positions" for a number of younger of positions of the color of the color

sons of noole families. A dozen of these have already been forwarded at its expense to Liverpool, whence, according to the reports, the Chilian government agrees to take charge of their transportation to South America. It is expected that these high-bred youths will be advanced to high posts in the army of Chile. It is said that the gov ernment has promised them considerable tracts of land upon which in time of peace they can live in the traditional style of the German Junker. Altogether, if these plans are carried out, they will know few of the pains of emigra-

A company has been formed establish a New England colony in the Highlands of Florida, at Belleview, in Marion county. It is desired to form a model town which shall combine natural, social and religious advantages with freedom from intemperance and pauperism. The deeds to lands will be given with the provisos that no intoxicating liquors shall be sold and that no dwelling shall be built at an expense of less than \$500. A school of twenty-five pupils is now in operation, a good hotel is being built and a church edifice and an academy are to follow.

The latest caper in society is to stamp or seal a letter where wax is used by the use of the thumb. It is said that the lines on the ball of the thumb are indicative of character, and make a pretty graven surface on the wax, besides conveying the loved one a personal impression that carries with it something of the identity of the sender.

They were sitting on the sofa in the front parlor and he was holding her litle hand in his own. Suddenly a thought seemed to strike her and she asked sweetly. "Adolphus, are you a bolter'?" Just then the old gentleman's footstep sounded on top stair and as he wildly grabbed his hat Adolphus answered: "Yes, darling-good bye." -Boston Post.

A young merchant, who had a few housand dollars to spare, called upon a college friend who was a broker in Wall street "What do you advise me to do?" he asked. "I'll tell you, Fred," replied the broker, confidentially; there's a tailor's shop in a basement round the corner. Now, you skip down there, get your pockets sewed up and leave Wall street as fast as 'you can."
