IT LEADS ALL.

No other blood-purifying medicine is made, or has ever been prepared, which so completely meets the wants of physicians and the general public as

Ayer's Sarsaparilla.

It leads the list as a truly scientific preparation for all blood diseases. If there is a lurking taint of Scrofula about you, SCROFULA, AYER'S SARSAPARILLA will diagnose it and expel it from your system. For constitutional or scrofulous Catarrh, AYER'S SARSAPARILLA is the true remedy. It has cured numerous cases. It will stop the nauseous catarrhal discharges, and remove the sickening odor of the breath, which are indications of scrofulous origin.

"Hutto, Tex., Sept. 28, 1882. At the age of two years one of my children was terribly afflicted with ulcers running sores on its face and neck. At the same time its eyes were swollen, much inflamed, and very sore. Physicians told us that a powerful medicinal alterative medicine must be employed. They united in recommending AYER'S SARSAPARILLA. A few doses produced a perceptible improvement, which, by an adherence to your directions, was continued to a complete and permanent cure. No evidence has since appeared of the existence of any scrofulous tendencies, and no treatment of any disorder was ever attended by more prompt or effectual results. Yours truly, R. F. JOHNSON."

The Daily Review.

The Daily Review has the largest bona fide circulation of any newspaper published in the city of Wilmington.

THURSDAY SEPTEMBER 4, 1884.

The Land of the Skies.

EDITORIAL REVIEW: My last communication was from Morganton. Last Monday week I left that town en route for Asheville, stopping only one day at the town of Marion, where I found a number of former Wilmingtonians, consisting of Capt. W. J. Calais and family. Capt. Calais is proprietor of the only hotel in the town, and it is a most delightful resort for Summer visitors. Like nearly all the towns on the W. N. C. R. R. Marion too is going ahead, improving every year. Crops through this entire section to Asheville are suffering for rain, and in many places rain will do no good now. Along the line between Marion and Asheville are several pieces of resort, which are well fitted at present with tourists.

THE GRAND MOUNTAIN SECTION.
 From Henry's Station you begin to ascend the mountain heights and from that point to the main Swannanoa tunnel the scenery beggars all description. It is one of the grandest pieces of engineering in the United States, beyond all doubt, and it is said to be the finest piece of engineering skill ever known in any country. As you ascend the mountains you notice the railroad track crossing itself several times above you, and in fact, as you look at it you are puzzled to know which way you are going. As you approach Round Knob, where is a large, handsomely built hotel, you first get sight of the grandest fountain it has ever been my good fortune to see. This fountain throws a stream two hundred and eighty feet high and about three inches in diameter, and as the sunlight strikes through the spray a beautiful rainbow is formed as perfect as when one spans the heavens. Round Knob Hotel is supplied with water from attic to basement from this stream. The hotel is built on the side of the mountain, on which is known as Round Knob, and presents a beautiful sight as you approach and leave it. In the ascent of the mountain the traveller has several beautiful views of the Round Knob Hotel and the lovely fountain below it in the valley. The hotel is crowded to its utmost capacity all the Summer and well it may be, for it is one of the most romantic spots in Western North Carolina and Col. A. B. Andrews and Major J. W. Wilson, the owners of the property, have done much to enhance the pleasure of tourists. The hotel is splendidly kept. The fare is unexceptionable. The entire road bed from Salisbury to Asheville is in beautiful running order and particularly from Morganton to Asheville, it is smooth and shows that Col. Andrews and Major Wilson are wide awake men, and too much praise cannot be accorded to these gentlemen for their skillful management of this difficult mountain section of their road and the entire line.

THE BLACK MOUNTAIN HOTEL.
 As you descend the Swannanoa Mountain from the main tunnel, about 8 miles lands you at the large and commodious new hotel above mentioned which is also filled constantly with visitors. Here we met Col. Kenan and family, Attorney General of the State, who pronounced this one of the most charming places in the mountains. The fare is unsurpassed by any place in the mountains, and is good enough to please the most fastidious. At this point you leave the railroad to visit the Black Mountains, Mitchell's Peak and other noted spurs of the Black Mountain range.

ASHEVILLE.
 It has been many years since the writer visited this lovely place, which was on the first survey of the W. N. C. R. R., as a civil engineer, in 1856 and 1857. The town now has a population of about 6,000, and has increased since 1881 from about 2,300, and is steadily increasing. Every hotel is full with tourists and seekers of summer resorts, and a very large majority of the private dwellings are filled with either boarders or friends visiting the town. The view from Beau-catcher Mountain, overlooking the town, is certainly a grand sight, and those from Richmond Hill and Connelly's View are also lovely. The Haywood White Sulphur, Waynesville, Hendersonville and the Warm Springs are all filled with visitors. The latter place, however, has only about 375 visitors, with accommodations for 600. It has just passed into new hands and I hear will be greatly improved by the next summer season. The view as you go to the Warm Springs along the banks of the beautiful French Broad river, which is closely hemmed in by the mountains, is grand indeed.

POLITICAL OUTLOOK.
 The Democratic fortunes are all ablaze in Western North Carolina. Never before in any previous campaign has so much interest been manifested in Western North Carolina and Major Stedman is making a reputation for himself which few men who have canvassed the State have done. From every quarter I hear the most complimentary notices of his canvass. He has undoubtedly gotten the advantage of his opponent, and his canvass will largely increase the Democratic vote of the West. These old mountaineers think he is a trump, and the way he ingratiates himself among them is astonishing. They already talk of him as the next Governor of North Carolina, after Scales.

STATE NEWS.

Morganton Mountaineer: We are reliably informed that Col. G. N. Folk, who was two years ago the Liberal candidate for Supreme Court Judge, after seeing how York behaved at Le-noir, wrote Gen. Scales a letter condemning the course pursued by York, and saying that he would not support York at the polls.

News and Observer: A correspondent writes us from East Bend, N. C., as follows: "Last week I attended the golden wedding of Henry P. Martin, Esq., of our township. He was born 11th November, 1814. His wife's maiden name was Elizabeth Hauser. She was born 5th June, 1817. They were married 28th August, 1834, giving them 50 years of married life. Nearly all their children were present. They have 28 grandchildren. I only saw two persons who were at the wedding 50 years ago. These were Adam Hauser, Esq., and myself.

Columbus Times: From a gentleman living in the lower section of the county, we learn that the crops of corn, sweet potatoes and rice are unusually good, and that the acreage planted is greater than formerly. He tells of one gentleman who planted his mill pond in rice, and it is thought that the yield will be about 1,000 bushels. —Mr. Frank Wooten, of this county, who has for some time been in Wilmington, employed in the Auditor's office of the W. & W. and W. C. & A. Railroads, writes that he will leave for Wake Forest College in a few days, where he expects to remain until June next. We understand that he has the ministry in view.

Charlotte Observer: The report of Dr. F. Scarr, keeper of the city cemeteries, for the month of August, shows that during the 31 days of that month there were only ten deaths in Charlotte, four whites and six colored. There were twelve interments in the cemeteries, but two of these were bodies brought here from elsewhere for burial. —The two candidates for Governor had a lively time at Lincolnton and it was a sad day for Dr. York. We have heard several men say that York was badly used up. Judge Schenck heard the discussion and he says candidly and truly speaking, he never before knew a man to be so thoroughly and completely frazzed out as was Dr. York. Gen. Scales' tribute to the Confederate soldiers and his denunciation of York's attempt to defame them, was, Judge Schenck says, the finest thing he ever heard fall from the lips of any speaker. Scales electrified the crowd. He fairly surpassed himself and flayed York unmercifully. In his tribute to the Confederate soldiers, Gen. Scales turned to Dr. York and said: "These noble heroes will live in poetry and song and their memories will be cherished in the hearts of the people long after your rotten carcass has been forgotten in your dishonored grave." The crowd cheered and York winced. There is no doubt about it, York is badly hacked. He is not by any means a match for General Scales, and each day he gets the worst of it. The crowd was quiet at Lincolnton and the Democrats were wild with delight at the severe handling York received.

Asheville Advance: At about 11 o'clock last night, the cry of fire was heard on the street, and in a few minutes hundreds of people had gathered around the tobacco factory of McCarty & Hull, the scene of conflagration. The fire had gained too much headway for any chance of saving the contents of the building, but the brave efforts of the companies succeeded in quenching the fire, before any damage or danger to other property. The proprietors of the factory are at a loss to account for the origin of the fire as there had been no fire in the building that day, but a small quantity in the licorice department which was carefully looked after before closing for the day. Messrs. McCarty & Hull's loss will probably reach \$10,000, partially covered by insurance.

THE REGISTER

THE POLITICAL CAMPAIGN UPON which the people of North Carolina are just preparing to enter will, beyond all question, be one of great excitement as well as one of vital importance to them. It will be no child's play.

All that is needed to insure Democratic success and continued prosperity to the State is a plain, truthful statement of what are now the facts of history, or are daily becoming so. The reasons for Democratic victory, and the even stronger reasons for Republican defeat, are abundant, and it is the purpose of

THE REGISTER to do its full part in laying them before the people.

As the best means in its power to this end, and in answer to appeals, THE REGISTER will be furnished at such low rates as to put it in the reach of every one during the present State and Presidential campaigns.

If we do our full duty, victory will surely be with us; but that duty will leave us no idle time. There must be every man at his work, work all the time. If good government and a people's prosperity are worth working for, let us all go to work, and at once.

THE REGISTER will be furnished to Clubs, until November 15, at the following rates: One copy, 5c; five copies, \$2; ten copies, \$3 75; twenty copies, \$7; fifty copies, \$15; one hundred copies, \$28.

In every case the paper will be sent until the returns of the election shall be received and published, and we invite the attention of Executive Committees of Counties and Townships, and of all others interested, to the Campaign REGISTER as a sure and cheap means of furnishing information to the people.

DOCUMENT NO 1.—1884.

DEMOCRACY VS. REPUBLICANISM.

HANDBOOK OF NORTH CAROLINA POLITICS FOR 1884.

The Platforms, The Parties, and The Issues Thoroughly Discussed.

The influence of "Document No. 1," issued by the Democratic State Executive Committee in 1882, was generally recognized as decisive in that year's campaign.

A similar Handbook has been prepared for this year's use, and will be issued immediately after the session of the Chicago Democratic Convention.

The Handbook will be a well printed pamphlet of about 150 pages, 8vo, and will contain the fullest information on matters involved in this year's election.

Document No. 1, for 1884, will be supplied at TEN DOLLARS PER HUNDRED, on the actual cash cost of type-setting, paper and press work.

In order that the size of the edition may be determined, prompt orders are requested.

THE SUN.

NEW YORK, 1884.

About sixty million copies of THE SUN have one out of our establishment during the past twelve months.

If you were to paste end to end all the columns of THE SUNS printed and sold last year you would get a continuous strip of interesting information, common sense wisdom, sound doctrine, and sane wit, long enough to reach from Earth to Home square to the top of Mount Copernicus in the moon, then back to Pritchard House square, and then three-quarters of the way back to the moon again.

But THE SUN is written for the inhabitants of the earth; this same strip of intelligence would girdle the globe twenty seven or twenty-eight times.

If every buyer of a copy of THE SUN during the past year has spent only one hour over it, and if his wife or his grandfathers has spent another hour, this newspaper in 1883 has afforded the human race thirteen thousand years of steady reading, night and day.

It is only by little calculations like these that you can form any idea of the circulation of the most popular of American newspapers, or of its influence on the opinions and actions of American men and women.

THE SUN is, and will continue to be, a newspaper which tells the truth without fear of consequences, which gets at the facts no matter how much the process costs, which presents the news of all the world without waste of words and in the most readable shape, which is working with all its heart for the cause of honest government, and which therefore believes that the Republican party must go, and must go in this coming year of our Lord, 1884.

If you know THE SUN, you like it already, and you will read it with accustomed diligence, and profit during what is sure to be the most interesting year in its history. If you do not yet know THE SUN, it is high time to get into the sunshine.
