Secret of Success. Stock raisers well-known for success, as Mr. J. H. Goldsmith, Walnut Grove Stock Farm, N. Y. and Mr. Jas. C. Deyos, Jackson, Mich., and hundreds of others, testify to the wonderful curative qualities of St. Jacobs Oil, for all kinds of horse ailments.

THE DAILY REVIEW.

VOL. VIII. WILMINGTON, N. C., FRIDAY, SEPTEMBER 12, 1884. NO. 218

Upon the occasion of the anniversary of the battle of Sedan Emperor William sent Prince Bismarck the order "Pour le merite," surrounded by oak leaves, together with an autograph letter expressing the deepest appreciation of his services.

Mr. H. C. Hunt, of Albany, a member of the Grand Army and a well-known Republican, has written a letter to a friend, also a member of the Grand Army of the Republic, in which he rejects the Republican nominees and declares that he will vote for Cleveland.

Junius S. Morgan, the London banker, who is said to be engaged to Mrs. Alice Mason, of Boston, the divorced wife of the late Charles Sumner, is expected to arrive in New York by steamer next Monday, and will go to Hartford, where his sister, Mrs. James Goodwin, and other relatives live.

The Chinese troops are uniformed in the hues of the rainbow, besides black and white. Imagine 100 laundrymen in scarlet blouses and royal purple trousers drawn up in line, adjoining them a company in pure white, then a company in bright green, then one in light blue, and you have a Chinese regiment. When they march they lift up their feet like cats in the snow.

In his admirable speech in New York at the great meeting last week, Gen. Patrick A. Collins said: "I am here as an American. Any one reading my front name might suppose I was Irish, but I am not. I happened to be born in Ireland. It is a circumstance for which I am not at all responsible, and for which I make no apology. But I took an oath of allegiance to the United States of America, and by the grace of God I will keep that oath and remain a true American."

The cost of electric light for the illumination of cities compared with gas has been computed by Hartford, Conn., where arc lights have been in use for about a year. The report states that each electric light in use displaces six and one-half street burners, besides giving at the same time at least ten times as much light. The gas lamps cost \$35 per burner per annum, kept burning 326 nights in the year, while for the electric lights sixty-five cents a night is paid. The electric light being equal to six and one-half gas burners, a saving of \$15.60 per lamp per year is effected by the use of electricity, besides the cost of lighting and extinguishing the gas lamps.

Worth, of Paris, has decided in favor of hoops, but they come in use slowly. In this country everybody has decided that Dr. Bull's Cough Syrup is the best remedy for coughs and colds, and its coming fast into general use.

A great many of our young men have been disappointed in consequence of the rain which prevented them from witnessing the regatta.

It was dark and very rainy last night, but Guy Wright's band was out, just as if it had been a bright and pleasant moonlight evening.

We have seldom heard it rain harder and faster than it did between the hours of 10 and 11 o'clock last night. That it rained in torrents would hardly seem to adequately describe it, for it seemed to come down in sheets.

We understand that there is a standing offer in this city of \$250 on Cleveland's election. If any of our Republican friends want any particulars they can be accommodated on enquiring at this office.

We invite the attention of our citizens to the fact that first quality shirts are being made to order at one dollar at the Wilmington Shirt Factory.

Now is the time to give Smith's Worm Oil.

We ought not to complain of the heat, when the people of the North are sweltering with the thermometer far up among the nineties. The heat there during the past week has been intolerable and many have been prostrated and killed by its extreme intensity. It can hardly be disputed that Wilmington is one of the coolest cities on the Atlantic Coast.

Personal.

Mr. George M. Carr, of the Goldsboro Messenger, is in the city to-day and gave us the pleasure of a call.

Mr. John R. Paddison, of Point Caswell, who has been in the city to-day. He states that his section of Pender was visited by copious and much-needed showers yesterday.

Mr. E. A. Hawes and wife, of Black River, who have been absent for two months past at the Red Sulphur Springs, in Virginia, arrived here this morning, on the return home, both, we are pleased to learn, much improved in health.

A Suggestion.

Mothers should not overlook the fact that there is a culture in good company and good conversation which nothing else can supply for their children. In every neighborhood there are families from which much can be gained in the way of social relations. If only two or three families unite in a weekly reading club, it is better than to sit alone by one's own fireside seven evenings in each week. By this means all could have pleasure, the young people could join in musical practice, and vie with each other in literary work, and older minds might strengthen their powers in discussion.

Capt. E. D. Browning.

We learn from the Weldon News that our genial friend, Capt. Dolly Browning, for so many years past a conductor on the Wilmington & Weldon R. R., has been renominated for the position of Treasurer of Halifax county. The News, commenting on this fact, says:

It is with pleasure that we endorse the nomination by the Committee of Capt. E. D. Browning as candidate for Treasurer. Capt. Browning has held the office for nearly two years and we have yet to hear the first complaint of his official conduct. Though before nominated by the Republicans for the office, he never has been a Republican nor Liberal, but remained true to the Democratic party. He never has voted any but the Democratic ticket, and never will. He gives strength to the ticket and his vote will be gratifying to him and his friends, of whom their name is legion. The Democratic county ticket is now complete, and one and all can vote for it with satisfaction.

Rally, Democrats!

The Young Men's Club will meet in the City Court Room to-night, and Col. Staples will probably address them. The Cornet Concert Club is expected to be present and furnish some good music for the occasion. An invitation is extended to our citizens generally to be present and we hope that there may be a full turnout, not only to listen to the distinguished speaker, but to encourage by their presence the efforts of the club, to whom the Democratic party of the city and county are deeply indebted for their generous service in the past. The weather, at the time of this writing, does not look very favorable, but let principle and patriotism show you the way while protecting prudence shields you from the storm by the aid of umbrellas, water proofs and rubber boots. The storm we hope will subside, in which case we know there will be a large assemblage, but, if it should not, why—go there anyhow!

Stedman in the West.

The News and Observer says: Major Stedman reports that he has been received with the warmest cordiality by the people of the transmontane country at every point and that Democracy is booming from Asheville to Murphy. On the other hand the people of the west say that they have seldom heard so eloquent and forcible a speaker as Major Stedman and that in this his first campaign he has vanquished his opponent at every appointment of the joint canvass dealing telling blows daily for sound Democracy and the right.

And the Asheville Citizen says: Maj. Stedman returned here Sunday from his tour through the Western counties with Judge Faircloth. He spoke in eleven counties, and expresses himself delighted with his reception, and with the good crowds that have greeted him and his opponent; but above all he expresses himself highly gratified to find so few Republicans in the Western counties. At some places he did not find a half-dozen persons opposed to Democracy. The Major is in excellent health and spirits and says he feels as if he had been on a bridal tour—so greatly elated does he feel over Democratic prospects in Western North Carolina.

POMPEY SNEED.

Reported Death of the Noted Outlaw—Shot while Resisting Arrest at Goldsboro.

A report reached the city last night that Pompey Sneed had been shot at Goldsboro yesterday while resisting arrest. In the investigation of the matter this morning we interrogated a gentleman who came down on the train from Goldsboro last night, from whom we learned that Sneed was seen and identified on the streets of Goldsboro yesterday forenoon, and that his capture was attempted, but that he escaped, although several shots were fired at him without effect. He was in the company of Julius Carlton, a notorious man of Goldsboro, whose capture the police also desired. The couple took to the woods, taking a general direction towards a house where Carlton's sister lived, about a mile and a half from the city. An armed posse was immediately sent in pursuit of the fugitives and when they arrived in sight of the house named, they saw Pompey seated upon a log. The officer in charge of the posse directed his force to surround the house and capture Carlton, feeling confident that the latter was within, while he would take care of Sneed. The instructions were put in execution and resulted in the capture of Carlton, who was taken immediately to Goldsboro by his captors, leaving the officer alone to contend with Sneed. In the meantime the latter advanced towards Pompey, who, as soon as he saw the former approaching took to his heels. The officer started in pursuit, ordering Sneed to surrender, but as the latter gave no sign of submission, but seemed intent on escape, and as he was getting over a fence, the former fired, some of the shot taking effect in the legs of Pompey, so that he could not run. He then faced his pursuer and when ordered again to surrender, declared that he "would die first." Sneed was armed with two or three pistols, and when the officer told him that if he did not surrender in one minute he would be shot, he started to draw a pistol, saying, "The man who gets the first shot takes the meat," upon which the officer fired, the contents of his piece lodging in the breast of the outlaw. Sneed stood glaring at the officer for a moment and then fell to the ground. The officer, being alone, immediately returned to Goldsboro and reported the matter, when a force was sent out to bring the body in, and had not returned when our informant left on the train. The latter was not a witness to any of the above narrated proceedings, but got his information from a source which he considered entirely reliable, and we have given the statement substantially as it was given to us. Further information will probably be received here during the day.

The Big Fish.

Capt. S. W. Nobles, agent of New Hanover county for the State Exposition, was engaged yesterday in packing the two large fish contributed by Messrs W. E. Davis & Son, for shipment to Raleigh. The larger of the two (tarpin, or king shad) required a box seven feet long by two and a half feet wide, while the smaller fish was accommodated in a box three feet long and two feet wide. Messrs Davis & Son have been at considerable expense in having these remarkable fish prepared properly for the Exposition, and take a just and commendable pride in their efforts towards making the New Hanover exhibit a credit and honor to the State and especially to this section.

For Raleigh.

As the Wilmington Light Infantry will go to Raleigh, to be there at the opening of the State Exposition, it is to be hoped that they will be able to attend with full ranks. It will be difficult for some of the members to leave on account of their business employments, but we trust that employers whenever they can, without manifest injury to their interests, will allow their employes who are members of the company to go. If this should be done, the Infantry would appear at Raleigh with full ranks and reflect credit upon the city as well as upon the State military organization.

Dr. Gilbert and Whitaker, at Fremont, yesterday successfully expelled from the seven-years-old daughter of Mr. Wm. Aycock, of Georgia, a tape worm which measured 20 feet in length. The child was sent to Fremont for treatment and is now doing well, is quite lively and active and as a matter of course is greatly rejoiced.

Cornelius Harnett Council No. 231, Royal Arcanum, meets to-night at 8 o'clock.

It has been so stormy to-day that no reported business has been done on the Change nor by brokers.

Another large consignment of Sash, Doors & Blinds at Factory prices, just received at JACOB'S Hardware Depot.

Rev. Dr. Smedes will preach at Lebanon Chapel, Wrightsville Sound, on next Sunday morning, at 11 o'clock.

The apples which are brought to Wilmington this season are remarkably large, nice and fair. They look tempting, and are offered at quite reasonable prices.

Some of the streets and crossings have been badly washed by the rains of the last two days, and appearances now indicate that they will be in a worse condition before they can be repaired.

Rainfall.

The total amount of rainfall for the 48 hours ended at 3 p. m. to-day foot up 7.44 inches, of which 5.63 inches fell between 7 a. m. and 3 p. m. to-day.
