The Chinese of New York have their own way of showing the workings of the American spirit. They organized themselves a year ago into an "Oriental body politic," presided over by a judge who holds his office one year. draws \$500 a year and takes to himself \$1 500 in court fees. The judge for the past year was Ah Chow. Last week primaries were held for the annual election and Judge Ah Chow was defeated. He is said to have assimilated to bimself so much of the true spirit of the American officeholder that a reform was demanded. Ah Chow is understood to be a Blaine man.

We have an inquiry, says the News and Observer, as to whether the alleged civil rights act, stated to have been passed by the Ohio legislature in 1882, was passed by a Democratic legislature.

Turning to the Tribune Almanac. page 63, we find that the legislature elected in Ohio in 1879 stood-Senate. Republicans, 22; Democrats, 15: House -Republicans 69: Democrats, 45; Republican majority on joint ballot, 31. The legislature elected in October, 1881, stood-Senate, Republicans, 22; Democrats, 11; House-Republicans, 70 Democrats, 35; Republican majority on joint ballot, 46. The next legislature was elected in October, 1883. That legislature was Democratic on joint ballot. It could not have passed the alleged civil rights bill of 1882.
