The Daily Review.

LITTLE ROSE.

I sent a little maiden To pluck for me a rose, The sweetest and the fairest That in the garden grows-A blush rose proud and tender, Upon its stem so slender, Swaying in dreamy splendor Where yellow sunshine glows.

Back came the little maiden, With drooping, downcast head And slow, reluctant tootsteps, And this to me ske said: 'I find no sweet blush roses In all the garden closes; There are no Summer roses,

It must be they are dead." Then bent I to the maiden And touched her shining bair-Dear heart, in all the garden Was nothing hail so fair! "Nay!" said I, "let the roses Die in the garden closes, Whenever fate disposes,

If I this rose may wear!"

A Wonderful Resurrection.

-Lippincott's.

In the London Lancet of September 6 is recorded a case of resurrection atter apparent death by hanging, so remarkable as to be worthy of notice and discussion outside of purely professional

The case is reported by Dr. Ernest W. White, senjor assistant medical officer to Kent Lunatic Asylum, at Charthan, near Canterbury. The patient was a woman 53 years old, inflicted with that form of insanity known as melancholia. She had tried to kill herself before admission into the asylum, and made several attempts to take her life after being received into Until I tried two bottles of your Hop | the institution. Finally she succeeded in escaping the watchfulness of the attendants who had frustrated her pre-

quite dead. Animation was so completely suspended that there was no symptom which enabled the medical men present to distinguish her condition from that of real death. This is the remarkable feature of the case. So District of the Methodist E. Church, far as the doctors could see, the woman | South: was dead. The skin was ashy pale, the Bladen Circuit at Antioch. Oct. 4-5. surface temperature very low, the lips Whiteville Circuit, Oct. 7-8. were livid, and the eyes dilated and insensible to the action of light; there was no pulse at the wrist or temples; no definite heart beat could be detected even by the stethoscope; respiration had absolutely ceased, and unconsciousness was complete. Even the appli Clinton Circuit at Clinton, Newton Grove Mission, Oc. cation of galvanism failed to contract the muscles. If the woman had been a criminal who had suffered the extreme penalty of the law, the physicians would doubtless have been justified by the symptoms in pronouncing her dead; yet she is alive to-day, and not only well physically, but fast recovering from all mental derangement! Dr. White and his assistants wisely

refused to actupon appearances. They gave their patient the benefit or the doubt in their minds, although that doubt was very slight. Resort was had to artificial respiration according to what is known in medicine as the Silvester method. The movements were performed slowly-only ten times a minute-but about ten minutes after attempt at natural respiration was All points between Hamlet and Ralnoted, and very weak pulsations of the heart were preceived by the aid of the stethoscope. Ten minutes is a long time to wait for the first signs of returning life, and it is to be feared that in many cases of apparent death, especially by drowning, the measures necessary for resuscitation are not continued long enough to rekindle the smouldering spark of life that remains in the body. There can hardly be too much patience or perseverance. In this case artificial respiration was steadily maintained for two hours before the natural breathing was sufficiently established to dispense with assistance in this way. If it had been abandoned earlier, the woman would probably have died, notwithstanding her partial restoration to sensibility.

We need not follow the treatment in detail. The patient became imperfectly conscious about eleven hours after the act of strangulation, and in the course of a fortnight was in good bodily health.

General delivery open from 7 A. M. to 6 P. M., and on Sundays from 8.30 to 9.30 A. M.

Carriers' delivery open on Sunday from 8.30 to 9.30 A. M. She lost her melancholy illusions and became cheerful, looking back at her attempt at sucide with horror. For

simulation of death suggests a possibility that physicians may sometimes themselves be deceived as to the fact of death, especially careless practitioners or those of comparatively limited in-formation. We have already referred to the lesson which it teaches of the Dr. Dodd's Nervine No. 2. need of steadfast and hopeful perse-TILL CURE NERVOUS, PHYSICAL Verance in efforts to restore those who bave apparently lost their lives by strangulation or drowning. It would appear that artificial respiration is more useful and effective when the movements are performed slowly than when they exceed ten a minute. This is an important point for those to remember who are called upon to render first aid to the injured. Finally, this remarkable occurrence may well lead to speculation as to the many stories which have been published of the restoration to life of men who have apparently suf fered death by hanging on the gallows.

It is probable that fully seven minutes had elapsed between the moment of the act of suspension and the time when the woman was cut down. Who can say that similar measures might not have brought about al resuscitation if she had remained hanging twice Whose debility, exhausted as long? And might not a strong man possess the potential ability to recover. with like assistance, from the effects of strangulation lasting half an hour? Who can now assert, with confidence, that a convict with neck unbroken cut as follows—7 to 10 a.m., 3 to 9 p. m. with like assistance, from the effects of down after hanging thirty minutes, and turned over to friends having all the resources of modern medical science at command, might not be called back to existence in this world?

Such an event is improbable enough, we know; but we do not see how it can los as, o

be pronounced physically impossible, in view of the fact to which we drawn

Platform of the Democratic Party of North Carolina.

We again congratulate the people of North Carolina on the career of peace prosperity and good government on which she entered after the inauguration of a Democratic State administration, and which has been unbroken for so many years since; upon the just and impartial enforcement of the laws; upon the efficiency of our common school system, and the great progress made in popular education; and upon the general improvement and enterprise manifested in every part of the State. And we again challenge a comparison be tween this state of things and the crimes, outrages and scandals which attended Republican ascendancy in our borders; and we pledge ourselves to ize the Company to use this certificate, with face exert, in the future, as we have done in the past, our best efforts to promote the isements." the past, our best efforts to promote the material interests of all sections of the State.

Affirming our adherence to Democratic principles as heretofore enunciated in the platforms of the party, it is

Resolved, That we regard a free and fair expression of the public will at the ballot-box as the only sure means of preserving our free American institutions. and that the corrupt and corrupting use of federal patronage, in influencing and controlling elections is dangerous to the liberties of the State and the Union.

Resolved, That we are in layor of the unconditional and immediate abolition of the whole internal revenue system, as an intolerable burden, a standing menace to the freedom of elections, and a source of great annoyance and cor-

ruption in its practical operation.

Resolved, That no government has a right to burden its people with taxes beyond the amount required to pay its necessary expenses and gradually extinguish its public debt. And that whenever the revenues, however deour Senators and Representatives in Congress to exert themselves in favor of such legislation as will secure this

rived, exceed this amount, they should be reduced so as to avoid a surplus in the treasury. We therefore urge upon Resolved, That with respect to the tariff we reaffirm the life-long and fundamental principles of the party declared in the National Democratic platforms and that the details of the method by which the constitutional revenue tariff shall be gradually reached, are Fourth Round for the Wilmington subjects which the party's representa-listrict of the Methodist E. Church, tives at the Federal capitol must be trusted to adjust; but in our opinion the duties on foreign importation should be levied for the production of public revenue, and the discriminations in its only to the office of the Company in New Or adjustment should be such as would place the highest rates on luxuries and the lowest on the necessaries of life, distribute as equally as possible the NEW ORLEANS NATIONAL BANK, burdens of taxation and confer the greatest good to the greatest number of

the American people. Resolved, That the course of the Democratie party in furtherance of popular education, by efficient public schools in all sections, and the establishment of graded and normal schools in the larger towns and accessible centers, is a sufficient guarantee that we favor the education of all classes of our people and we will promote and improve the present educational advantages so far as it can be done without burdening the Boston Post. people by excessive taxation.

AND WHEREAS, There is now more than a hundred millions of dollars in the treasury of the United States, wrung from the pockets of the people by unjust taxation on the part of the

Republican party, therefore, Resolved, That we will accept such listribution of said surplus revenues of the government for educational purposes as may be made by the Congress of the United States; provided always, has the same shall be disbursed by State agents and not accompanied by objectionable features and embarrassing conditions.

Resolved, That it is due to the white people of our eastern counties, who have so cheerfully borne their share of our common burdens, that the present, or some other equally effective system of county government, shall

be maintained. Resolved, That in view of the exist-ing and increasing harmony and kind-ly feeling between the two races in this State and a similar condition of things which we believe to exist generally in other Southern States, we deprecate the attempt of the Republican party in its recent platform at Chicago to force civil rights as a living issue, and we denounce it as a fire-brand and a hypocritical expression of interest in the black race, a wanton insult to the whites of the South, and tending to stir up strife between the now friendly
