### A FAIR PROTECTIVE TARIFF.

The National Democratic Platform Indorsed by Grover Cleveland.

"We believe that LABOR is best rewarded where it is freest and most enlightened. It should therefore be FOS-TERED and cherished."

"The Democratic party insists that it is the duty of this Government to PR TEG r with equal fidelity and dential election in the last twenty years, vigilance the rights of its citizens, nanaturalized, at home and

'We demand in behalf of the Democracy freedom for AMERICAN facturers and workingmen in New Jer-LABOR by reducing taxes to the end that these United States may compete with unhirdered powers for the primacy among nations in all the, arts of peace and truits of liberty."

"The great issue of reform and change in administration is submitted to the people in calm confidence that the popular voice will pronounce in tavo of new men and new and more tavorable conditions for the growth of

"In making reduction in taxes it is not proposed to injure any DOMESTIC INDUSTRIES, but rather to PR MOTE THEIR HEALTHY GROWTH. From the foundation of this Government taxes collected at the Custom House have been the chief source of Federal revenue. Such they must continue to be. Moreover, many industries have come changed. It is modified somewhat; to rely upon legislature for successful continuance so that any change of law must be at every step regardful of the labor and capital thus involved; the process of reform must be subject in the execution to this plain dictate of justice. All taxation shall be limited to the requirements of donbtful Republican States in the economical government. The necessary Northwest, because we have never reduction in taxation can and must be effected WITHOUT DEPRIVING AMERICAN LABOR OF THE ABILITY TO COMPETE SUCCESS-LOWER RATES OF DUTY THAN WILL BE AMPLE TO COVER ANY in both Wisconsin and Illinois. It CONSEQUENCE OF THE HIGHER necticut and Indiana, and yet carry the RATE OF WAGES PREVAILING IN THIS COUNTRY."-Platform Unanimously Adopted by the National Convention of the Democracy at Chicago.

THE POLITICAL SITUATION It seems to be reasonably sure that Blaine has given up all hope of carrying the State of New York, says the News and Courier: Speakers will be kept in the field, and the canvass will not be allowed to lag. This, it is expected, will compel the Democracy to continue their work in the State. Mean. while, the Republicans will make arrangements to apply to Indiana and New Jersey the tactics which enabled them to escape defeat in Ohio. Their hope is to secure Indiana and New Jersey by a judicious admixture of moral and physical intimidation. The deputy marshals will apply the argument of the club and pistol, and portentous talk ahout the tariff will be timidated.

depended on to alarm those mannfacturers and mechanics who are supposed to be willing to let well enough alone.

This plan of campaign is shrewdly d vised. The Democracy cannot afford to diminish their work in New York, and it suited them exactly to confine as far as possible, the decisive conflict to that State. They will now have to hold their ground in New York without the certainty that the vote of New fork will secure Cleveland's election. At the same time they must encounter the Republicans on the field of Indiana and New Jersey, where the Republi cans, if their campaign appliances are the same, can work more effectively of them do? than on the broader ground which was occupied at the October elections.

This year it will take 201 electoral votes to elect the President, this num ber being'a majority of the whole number of votes in the Electoral College. The Southern States have 153 electoral votes. New York has 36, New Jersey 9. Connecticut 6. These States together have 204 electoral votes. The Democracy count confidently on the Southern vote. New York is indisputably for Cleveland. If the Republicans capture either New Jersey or Connect icut and obtain the electoral votes of all the Northern and Western States, excepting New York and either Connecticut or New Jersey, Blaine will have a majority of the electoral votes without New York. The Democrats, however, expect to carry Indiana, and Indiana's fifteen votes will compensate for the loss of both New Jew Jersey and Connecticut.

uation. The Southern States, with New York and New Jersey, have 198 electoral votes. Nevada has 3. It is reported that there is a reasonable pletely restored from severe illness by prospect that Nevada votes will be given to Cleveland. This would make 201 votes, or exactly a majority. With- N. C, says, "It is one of the best medout the vote of Connecticut. Califor- icines known."

BLACK AND COLORED SILES, nia has 8 electoral votes, and is likely to be found in the Democratic column. Le is not sale, however, to depend on this, as most of the telegraphic news which reaches the Pacific Coast is compiled and distributed by Republicans, and is consistently unfavorable

to the Democratic cause. This lessens

Assuming that the Southern States will give a solid vote for the Democratic candidate for President, the all important States now are New Jersey, Connecticut and Indiana. At the pres. eat time, Indiana is considered certain to give a respectable Democratic majority on Tuesday week. But it is hard to tell what effect will be produced in the next ten days by Republican manipulation and what number of purchaseable votes will be in the market on election day. New Jersey is unquestionably a Democratic State. It has gone Democratic at every Presiexcepting in 1872, when Horace Greeley was the Democratic candidate, Blaine hopes, however, to trighten the manusey by his description of the awful consequences of Democratic success.

Connecticut we have always consid- and the pear cure of California. ered a far more doubtful State than New Jersey, and we shall be much surprised if the Republicans fail to make an active campaign there.

There is nothing discouraging in the political situation. It cannot be supindustry, the extension of trade, the employment and due reward of Labor and of capital and the general weitare of the whole coun ry."

political situation. It cannot be supposed that the Democratic leaders will slacken their efforts because New York appears to be won. They have, on the appears to be won. They have, on the contrary, every incentive to redouble their exertions in the States which Blaine has singled out for attack. It is no more necessary now than it was heretofore to keep those States in line. The plan of battle is not in any wise but merely by the need of preparing for a harder and more stubborn contest in New Jersey, Connecticut and Indiana,

be than had been expected. We have said nothing about the donbtful Republican States in the their electoral votes. Nevertheless, there is still a bright prospect that INCREASED COST OF PRODUC- might very well happen that the Dem-TION WHICH MAY EXIST IN ocrats should lose New Jersey, Conelection by the electoral votes of other States in the West. It will not surprise us in the least if Ohio's electoral votes be given to Cleveland. Many Republicans voted for Mr. Robinson, the unimpeachable candidate of the party for Secretary of State, who will not, under any circumstances, vote for Blaine. And it will be remembered that, at the election in November, in Ohio, there can be no United States deputy marshals at the polls. These officers and the United States supervisors can only be appointed for elections for Congressmen. They cannot be appointed where the election is for Presidential electors or other State officers. Ohio will be free, in other words, from the influences which counted so heavily against the Democracy at the October election, and the Republicans will not
