Twenty States, with 219 votes in the Electoral College; 18 more than necessary and a majority of 37.

Michela, the Italian inventor, has devised a machine by which signs corresponding to sounds can be telegraphed, which system of telegraphic shorthand is called stenotelegraphy.

Mr. Fred Grant hopes to make a fragrant living by selling roses this winter to New York florists from the greenhouses in Morristown, N. J., which he created when he thought he was rich.

The battle is fought and the victory won, and the people have very generously furnished Mr. Blaine another substitute. This time his skin and his soul are white. And his name is Cleveland.

Miss Fisher and Miss Hosmer, the latter bearing the decoration presented her by Queen Victoria for her services in the Zulu war, have arrived in Philadelphia to take charge of the training school for nurses at Blockley Almshouse.

Mrs. Julia Ward Howe, president of the Woman's Department of the New Orleans Exposition, invites contribution of valuable articles such as mechanical inventions, works of art, scientific specimens, books of photographs, westmeats, jellies, &c.

Rear Admiral C. H. Welles, United States Navy, is proposing to bring suit against the New York Central Sleeping Car Company to compel them to reimburse him \$69, stolen from him in one of their cars, while passing between Albany and Boston on the 18th of September.

It is stated that the coming semi-tropical fruit is the Japanese persimmon, known as the Panarascho. It has been recently introduced into Florida, where it flourishes finely. It is about as a Bartlett pear, of golden color, sweet, juicy and delicious. It bears transportation well.

A dealer in cod liver oil in Marseilles advertises that his fish are caught in a safe and quiet harbor, where marine monsters cannot enter to frighten them into diseases of the liver. "They live there," he says, "in peace and comfort, their livers are healthy, and this is why my cod liver oil is the best."

"For forms of government let fools contest." For ordinary life it is enough to know that Dr. Bull's Cough Syrup cures coughs and cold.

A large proportion of our business men with whom we have conversed today express themselves as decidedly in favor of having the coming celebration on the day instead of in the night time.

We hear of one man who decorated his place of business on Saturday and neglected to take in his flags when he closed up at night. The next morning he found that some one had taken them in for him and he has not seen them since.

THE DAILY REVIEW.

VOL. VIII. WILMINGTON, N. C., TUESDAY, NOVEMBER 11, 1884. NO. 269

LOCAL NEWS.

INDEX TO NEW ADVERTISEMENTS.
C W YATES—Something New
HEINSBERGER—Bookseller and Stationer.
MISS E KARRER—Another Large Invoice
F C MILLER—Friends and Fellow Citizens
JOE H HART, Agent—Excursion to Mt. Holly, N. C.

There was no City Court this morning.

The receipts of cotton at this port today foot up 1,305 bales.

The atmosphere was made hideous last night for a time by the howlings of a mob of young colored men.

"Any further news?" No! "Expect any?" No! "How do you think it will result?" Cleveland is elected!

It has been a balmy pleasant day for November, although the wind has held steady for the Northwest all day long.

Some of the colored people had a procession last night and paraded through the streets to the inspiring strains of music.

We learn that the losers in the election bets are paying up with the best grace possible. If you don't bet you won't lose.

Our friend of the Asheville Citizen appreciates some of our election squibs so highly that he publishes them in his columns as his own matter.

There are a good many thieves prowling about the streets and our citizens cannot be too careful in locking and securing their premises at night.

Business has resumed its normal condition again, although there is some suspense regarding New York. This, however, will be definitely settled today.

Nothing has been heard here, up to the hour of our going to press, of the official count in progress in New York to-day. It is not likely that the result will be made known before night.

Good materials properly proportioned which are the essential requisites in Ready mixed Paints can be best attained by using the N. Y. Enamel Paint sold at JACOB'S Depot.

We are glad to learn that Mr. W. T. Bray, whose serious sickness was mentioned on the 5th inst., has considerably improved in health and is now in a fair way of speedy recovery.

This is glorious weather, but we predict rain before many days. The atmosphere is too soft and balmy to remain so for a great while. Rain is sadly needed and we shall have it before the week ends.

Miss Ida L. Brantley has sent in to us an egg laid by a common barn-yard hen belonging to Mr. W. P. Anders, a REVIEW subscriber resident at Crony, which weighs three ounces, full weight. It is a regular Cleveland and Hendricks egg.

Remember that adversity overtakes every one during this life of ours upon this world of strife and also remember that by buying a suit of clothes made to order for twenty-five dollars. You save money and live in comfort you get it from Dyer.

Dr. F. C. Miller has removed into his new and handsome store, corner of Fourth and Nun streets, which has been handsomely fitted up and furnished with a new stock of drugs and fancy goods. Dr. Miller is a very clever gentleman and we are pleased to notice this evidence of material prosperity.

Step Ladders, all lengths, at Jacob's Depot.

The Festival.

Remember the festival at Germania Hall to-night. It is enough to know that it is gotten up under the auspices of the Ladies of St. Thomas' Congregation to insure a good time. The Italian band will be in attendance so that those who may desire will have an opportunity for dancing and we doubt not that there will be many who will indulge in the exhilarating pleasure.

Extra Police.

We think that some of the residents of the Eastern section of the city ought to have "incidental protection" in the shape of a few extra policemen. There is a decidedly turbulent and violent spirit manifested in that section by some of the colored people and especially by the colored women who let no opportunity pass to insult the white residents. It has gotten to be outrageous and unbearable.

Medical Examination.

We have received from Dr. Thomas F. Wood a small pamphlet entitled, "One aspect of the subject of Medical Examinations, as set forth in the work of the North Carolina Board of Medical Examiners." The work, although comparatively small, contains an immense amount of valuable information to the general as well as to the professional public. It gives the law creating the State Medical Society of the State, and discusses the weak points of the same with forceful and unanswerable logic and shows in what manner it might be very materially improved.

Smithville.

Our Democratic friends at Smithville had a rousing jollification last night, and that usually quiet burgh was alive with the beauty and manliness of gallant Brunswick. Bonfires illumined the streets and pyrotechnics on a grand scale were displayed. There was a general feeling of satisfaction, joy and pride at the result of the election and every one for the time was in the happiest frame of mind imaginable. There was no disturbance and the merriment, which was continued until a late hour, passed off to the entire satisfaction of all concerned. Hurrah for us!

We observe quite a fine display of new Revolvers for very reasonable prices, at Jacob's Hardware Depot.

Cheers for the Mother State.

The following congratulatory telegram, from two Wilmingtonians, Messrs. George C. Kelley and E. F. Story, now resident in Birmingham, Ala., will be read with much interest and pleasure by all whose eye it meets:

BIRMINGHAM, Ala., Nov. 11, 1884.
To Josh. T. James, Editor Review, Wilmington, N. C.:

Accept the congratulations of many North Carolinians, now residents of Alabama, for the glorious achievements of our Mother State for the State and National tickets. Three times three rousing cheers for Scales Cleveland and Reform!

GEORGE C. KELLEY.
E. F. STORY.

It is reported by those who are entirely competent to know, that the Cape Fear river has not been so low within the memory of the oldest inhabitant as it is now. In many places it is so low that it can be waded with ease and with but little inconvenience or difficulty.

The election being over, the approaching celebration has formed a principal portion of the conversation among our people to-day. This and the county canvass of returns in New York, which took place to-day, has furnished abundant topics upon which to converse.

THE

OF THE PEOPLE IS WATCHING THE ROGUES!

Onslow County.

We are indebted to Mr. John A. Marshall for the following copy of the official returns of Onslow county. The majorities only are given, except for the lower House of the Legislature, in which case the vote for each candidate is given by precinct.

For Democratic electors the majority was 789; State ticket 812; Judge of Supreme Court 769; W. J. Green (for Congress) 855; State Senate (Thompson) 779. The following is the vote by precinct for the House of Representatives:

- Williams' Store, H. E. King, Dem., 61; C. S. Hewett, Independent, 13;
- Turkey Creek, King 56, Hewett, 10;
- Rocky Run, King 32, Hewett, 13;
- Aman's Store, King, 87, Hewett, 35;
- Cross Roads, King, 107, Hewett 5;
- Angola, King, 29, Hewett, 0; Haw Branch, King, 70, Hewett, 12; Catharine Lake, King, 155, Hewett 11; Richards, King, 143, Hewett, 6; Jacksonville, King, 62, Hewett, 2; Gilman's, King, 62, Hewett, 2; Morton's, King, 86, Hewett, 9; Mill's, King, 26, Hewett, 25; Swansboro, King, 43, Hewett, 2; Linwood, King, 42, Hewett, 27; Wilkins', King, 56, Hewett 8; Total, King, 1,117, Hewett, 180, King's majority 937.

Meteors in November.

The earth, as she swings her ponderous bulk in her orbit, encounters on the 13th of November, meteor zone, and plunging headlong through the sparsely scattered cosmical atoms, and igniting those that impinge upon her atmosphere, she causes them to descend as falling stars. This gigantic hoop or meteor zone consists of a swarm of particles following Tempel's comet. The unfortunate visitor from the star depths venturing too near the planet Uranus, was captured by the giant orbs, forced to become a member of the system, and to travel henceforth within its boundaries. The event probably occurred in the second century of the Christian era. The perihelion of the November meteor zone is on earth's orbit, at the point she passes about the 13th of November, and the aphelion is beyond the orbit of Uranus. The particles of comet and the swarm of meteoroids have thus far scattered over but one-tenth of the zone, but in the course of time will fill the whole space. As the period of revolution is about 33 years, a grand display of fiery rain occurs only at intervals. The next one may be expected in 1899.

Observers, however, who watch patiently on the night of the 11th, 12th and 13th will be rewarded by seeing a few meteors radiating from the constellation Leo, which are true Leonides, the name given to the members of this meteoric zone, because they seem to start from this constellation. Such is the delightful uncertainty of meteoric astronomy, that the earth may capture a larger number of these little bodies than is anticipated. Therefore it is well to keep a careful lookout.

A lady has shown her benevolence by presenting three pairs of old kid gloves, a damaged back shell comb and a fractured bustle to the poor. A bottle of St. Jacobs Oil sent would have saved her reputation.

A Grand Demonstration.

The County Executive Committee met yesterday afternoon and have determined upon having a grand demonstration in this city on the night of the 30th inst., in celebration of the great and glorious victory achieved at the polls by the Democratic party. This is the day which was recommended by the REVIEW, which first voiced the sentiment for a demonstration.

Probably these gentlemen have done well in the matter of taking a decisive step in the desired direction and we are sure that they have acted purely from a desire to do what is best for the interests of the community. Still, we cannot approve the suggestion made that this demonstration be made at night as we take it that this means a parade and torch-light procession. We think that the day is better suited for the purpose than the night and the object being to secure a large attendance from the country by means of reduced rates on the railroads there is a much better prospect of obtaining these crowds in the day-time than at night. Besides, there are many, a great many, of our citizens who will not leave their families alone to participate in a demonstration at night. We speak adversely in this, as we have heard a great many expressions to-day to this effect. It might, perhaps, be better to let the festivities take place by day and by night.

There could be a procession during the day, say from 12 to 3 p. m. and fireworks at various points and speaking at night. With the proper exertions the parade could be made the grandest spectacle ever witnessed in Wilmington or in North Carolina. Let there be a general suspension of business so that all may unite in the jollity and happiness of the occasion. Let it be in the day so that the ladies—God bless every one of them—may witness the patriotic pageant. Let it be in the day time so that the children may be inspired with the patriotism of their fathers, and let it be in the day time so that it may be seen and known of all men. But whether it should be decided to celebrate in the day or night time let us make it so general that it will be a time never to be forgotten in the annals of our city and State.

We submit these remarks with the best of motives and for the best interest of the people. We do not wish to throw any obstacle in the way of this proposed celebration and yet we feel that our views are right and that we have voiced the sentiment of a large proportion of our people. However it may be decided, let it be decided at once and let us all go to work, heart and hand, and make the affair all that it should be.

At Burgaw.

The sterling Democracy of Pender county, in joy of the result of the recent election, will have a grand demonstration, jollification, celebration and torch light procession, at Burgaw tomorrow night, when they intend to paint the town red and have a high time generally. Everybody is invited and it is expected that there will be a large concourse of people in attendance. The preparations, although hastily made, will be on a grand scale. It will be a Cleveland and Hendricks, and Scales and Stedman celebration, not forgetting, however, to do honor to Wharton J. Green and to the gallant J. T. Bland who made a successful fight for Democratic principles in his canvass for the lower House of the State Legislature.

Business was very dull in the vicinity of the City Hall this morning.

PERSONAL.

We will be glad to receive communication from our friends on any and all subjects, general interest but the name of the writer must always be attached to the Editor.

Communications must be written on one side of the paper.

Personalities must be avoided.

And it is especially and particularly understood that the Editor does not always endorse the views of correspondents unless so sign in the editorial columns.

Mr. E. A. Pate, of Bladenboro, is in the city to-day.

We are sorry to hear that Mr. J. H. McGarity is quite sick at his residence in this city but trust to hear of his early improvement.

The Mt. Holly Improvement Company will run an excursion train from this city to Mt. Holly next Monday night, returning to the city on Wednesday morning. It will be under the charge of Mr. Joe H. Hart, the Company's agent, of whom all information on the subject may be had at McCasprich's cigar store.

NEW ADVERTISEMENTS.
