The Daily Review has the largest
circulation, of any newspaper
published in the city of Wilmington.

The electric light is said to have been
found cheaper than candles for the
illumination of British ships.

A bank position in Paris which paid
a salary of only \$225 a year was re-
cently applied for by 6,000 persons.

The Philadelphians are discussing the
question whether or not the old liberty
bell shall be sent to the New Orleans
World's Exposition.

Edison is reported as saying that the
electric motor will be introduced on the
New York Elevated Roads just as soon
as Cyrus W. Field gives the word.

Mrs. Judge, of New York, has Sun-
day evening receptions at her elegant
home, at which the only guests are the
little cash girls from the large dry goods
stores.

The World thinks New York's vote
might have been stolen for Blaine by
Exins & Co. but for the firmness of the
Democrats and the strength of the
campaign.

Miss Pearl Tyler, who was married
in Richmond, Va., on Thursday, wore
on that occasion the same dress and
veil worn by her mother when married
to ex-President Tyler.

Cleveland's friends say that he will
never marry. He is one of the few
men who, having been once disappointed,
will not love again, but tread the
wine press of life alone.

Mr. Trevelyan has been "kicked up
stairs," as the English term a loss of
salary and a gain of official importance.
His salary in Ireland was \$22,500. He
receives \$10,000 in the Cabinet.

The New York Globe, a colored
organ of Blaine's, went down with the
Republican craft. It collapsed for the
want of a few hundred dollars and sold
out for a song.

It is a curious fact that money lenders
in New York are sending gold to
England to take advantage of the higher
rate of interest there. This advance-
ment was made by the Bank of Eng-
land to prevent shipments of gold to
America.

The New York Times reads Jay
Gould's dispatch to Cleveland between
the lines, thus: "I heartily congratulate
you upon the failure of my continuous
efforts during the last three days to
count you out of the office to which
you have been elected."

Logan is the worst defeated man of
the party. He has lost the Vice-Presi-
dency, and in grasping for that shadow
he has lost the substance of a seat in
the Senate. The Illinois Legislature
is Democratic, and that Logan's elec-
tion is entirely out of the question.

It is computed that 30,000 Democrats
in New York voted for Blaine and about
the same number of Republicans voted
for Cleveland. But the difference is
cleverly stated by Col. McClure when
he says that the best element of the
Republicans deserted Blaine for Cleve-
land, and the worst Democratic ele-
ments deserted Cleveland for Blaine.

Cincinnati is to have a crematory in
the neighborhood of the city costing
\$25,000. The matter is said to be in
the hands of responsible men, and the
Commercial Gazette indulges in high
praise of the sanitary and other anti-
cipated advantages of the system. It de-
clares that the crematory is to be built
in response to a popular demand.

Lieutenant Ludovisi, of the Italian
army, who slapped and insulted a
brother officer, and shot him dead in
the duel that ensued, has been tried by
court-martial for the former offence
and condemned to two years' military
seclusion and forfeiture of his commis-
sion. The court-martial took no cog-
nizance of the duel.

Gold is coming to this country at a
very rapid rate just now. Over eight
millions have arrived since October 1,
and it is now anticipated that the
amount will reach nearly twenty mil-
lions by the close of the year. When
foreign nations want American wheat,
cotton and petroleum they are going to
buy and pay for these articles, no mat-
ter what party be in power.

"Perched upon a bust of Pallas," or
better yet, on some handy shelf, the
sensible housekeeper has her bottle of
Dr. Bull's Cough Syrup, and when the
child has a distressing cough, or a touch
of croup, she cares the little one in no
time.

THE DAILY REVIEW.

VOL. VIII. WILMINGTON, N. C., WEDNESDAY, NOVEMBER 19, 1884. NO. 276

Tennessee had a close shave. The
Democratic majority is small for
Governor and Republican Railway
Commissioners were elected. This is
said to mean that the people can't
want any Railroad Commissioners at
all.

Death of Mrs. Binford.
We regret to learn of the death of
Mrs. Frances Harriet Binford, eldest
daughter of Mr. Thos. H. Hardin,
formerly of this city, but now resident
at Hickory, in this State, the sad event
having occurred at Pickensville, Ala., in
the 29th year of her age. She had been
sick ever since last July with typhoid
fever and was most tenderly cared for
by kind friends and good physicians but
her young life was doomed. Her father
was with her at the last and there
were hopes at one time of his being able
to bring her home with him, but the
disease took a sudden and unfavorable
turn and the end came all too soon.
Mrs. Binford was from an early age a
communicant of the Episcopal Church,
and her last hours were calm, peaceful
and serene, looking to the sure refuge
on which she had grounded all of her
hopes. She was a native of this city,
and there are many here who will sin-
cerely grieve at the news of her early
death.

Mt. Holly, N. C.

One of the loveliest streams among
the many in North Carolina is the
Catawba, and one of the loveliest
localities in all the borders of
the good old State is Mt. Holly,
in Gaston county, on the Western
banks of that stream, distant about
ten miles from Charlotte, on the West-
ern Extension of the Carolina Central
Railroad. The town of Mt. Holly has
recently been established by a party of
capitalists who had been impressed
with the splendid possibilities it afford-
ed as a site upon which a thriving man-
ufacturing and commercial town could
be built. It is in the famed Piedmont
section of the State, in a country of un-
surpassed loveliness, and possessing
every desirable quality to invite capital,
labor and an earnest and intelligent
population. The country is undulating,
the atmosphere dry, bracing and
exhilarating, the water pure and lim-
pid, the climate healthful and the soil
only needs careful and thorough culti-
vation to make it a perfect garden. It
is naturally rich and is underlaid by a
heavy clay sub-soil so that every ele-
ment of applied fertility will be retained.
The Western Extension of the
Carolina Central Railroad passes direct-
ly through the centre of the town, so
that those living upon either side of the
track will be sure of equal accommo-
dations.

Mt. Holly is nearly in the centre of
quite an important manufacturing popu-
lation, there being no less than eight
cotton manufacturing establishments—
some of them employing more than
200 hands—in active operation in the
vicinity. The most remote of these
factories is but seven miles distant,
while nearly all of them are much near-
er, and all will make the depot at Mt.
Holly the point of shipment. The force
in these factories will be increased and
there is an abundance of water power
for several others, the building of which
is contemplated and will without doubt
soon be put into effect. Further man-
ufacturing enterprises are fully war-
ranted by the unexampled prosperity
and success which have attended those
already in operation. The factories now
in active operation are the "Hooper
Manufacturing Company" and the
"Tuckaseegee Manufacturing Com-
pany," on the Catawba; the "Mt.
Holly Warp Mill," on Dutchman's
Creek, owned and operated by Messrs
Rhyme & Co.; "Wilson's Mills," Messrs
Hall & Co., (two mills); McAden's
Mill and Gaither's Mill, the last five
being located on the South Fork of the
Catawba River. These mills are nearly
all engaged in the manufacture of
cotton warps, although the Hooper
mills are largely interested in the man-
ufacture of plaids. All of these mills
are in active operation and all of them
are being conducted with good and
reliable profit to the owners. This is
so notably the fact that some of the
manufacturers are making active prepa-
rations to materially increase the
producing capacity of their mills at an
early day.

These factories have necessarily
caused villages to spring up in their
respective localities in order to make
homes for the operatives. The demands
for food, furniture, wearing apparel
and many other things necessary and
incident to home life have created
business for the merchant and for
artisans of different kinds, so that the
population, prosperity and aggregate
wealth is constantly on the increase.
All of these will be largely interested
in the growth of Mt. Holly, as it is by
far the most convenient and inexpen-
sive shipping point for the manufactur-
ed products as well as for the goods
and merchandise which must be
brought to the section for the suste-
nance and comfort of its industrious in-
habitants.

The scenery in the vicinity of Mt.
Holly is of unrivaled beauty and
grandeur. The Catawba River, in its
serpentine meanderings from its head
waters at the foot of the Blue Ridge to
where it becomes absorbed in the Wa-
terce on its way to the Ashe and
thence to the ocean at Charleston, S. C.,
is one of the most beautiful and pictures-
que streams upon which the eye of man
ever rested. Its abrupt banks are
bordered by the willow, white birch
and other trees indigenous to the moist
grounds on the margin of water courses.
The town itself is on an elevated
plateau with a slightly upward inclina-
tion for something more than a mile
when it becomes merged with the
grand forests of oak, hickory, ash and
pine with which the country abounds.
In the Western distance grand hills rise
higher and higher, their rich verdure

presenting to the enraptured eye a scene
of surpassing beauty.

The entire property embraced in
what is now Mt. Holly was formerly
the property of the famed Confederate,
General D. H. Hill, and comprises a
large portion of what he proudly called
his "Model Farm." A remarkable
feature in the history of the property is
that there has never been a mortgage
deed upon any portion of it, every con-
veyance from the time of the original
grants to the present time having been
a dull in fee simple.

Mt. Holly is tastefully laid out in
streets and avenues and subdivided into
lots for building and mercantile pur-
poses. The lots for business purposes
are 100x155 feet, while those intended
for residences are 100x200 feet in size.
These lots have recently been put upon
the market for sale, Mr. Joe H. Hart
having been appointed the agent to dis-
pose of them, and on the night of the
17th inst., a special train contain-
ing quite a number who had become inter-
ested in the purchase of lands left Wil-
mington by train on the Carolina Central
Railroad, for Mt. Holly. Several
others, with the same object in view,
joined the part at Polkton, Wadesboro
and other points along the route, so that
when the train arrived at its destination
on the morning of the 18th inst., there
was quite a crowd. The first object
upon arrival was to view the land and
its surroundings, and the forenoon was
passed in walking around the place and
scanning its advantages as a place in
which to invest capital and
create a home. This scrutiny
was kept up for about three
hours and a half or until noon
when all hands returned to the car,
which had been switched off the main
track for their accommodation. In a
few moments a substantial and elegant
lunch was prepared by those who had
the management of the excursion, to
which ample justice was done by the
now really hungry and somewhat tired
tourists. The sale of lots commenced
soon after the lunch had been disposed
of and quite a number were sold dur-
ing the afternoon, before the arrival
of the train which was to take the party
on its return home. Many of the citi-
zens of the vicinity—a noble
hearted, intelligent, kindly and
extremely pleasant people—were
among those interested in the
progress of the sale, and they cheer-
fully and frankly gave us much import-
ant information, for which we were
truly grateful. The day was as pleasant
as could be desired, the company cheer-
ful and the management did everything
necessary to make the time pass pleas-
antly and agreeably to all concerned; a
task in which they were eminently suc-
cessful. We are under especial obliga-
tions to them for the many kindly cour-
tesies and attentions shown us, and we
wish them every success in their laud-
able enterprise, and that the embryonic
town of Mt. Holly may soon become a
place of busy trade and profit. Any
information regarding this new town
may be obtained of Mr. Joe H. Hart,
agent of the Mt. Holly Improvement
Company, whose headquarters are in
Wilmington, N. C.

The Illuminations.
It would be an utter impossibility for
the procession to-morrow night to march
past the house of every good and true
Democrat in the city. It will be, how-
ever, possible for every Democrat to
illuminate his residence, and this can
be effected at a very little cost. It is
hoped, and it is the express wish of the
Executive Committee, that all houses
will be illuminated in honor of the
grand victory which has been achieved,
whether they be on the line of march of
the procession or not.

Waccamaw Association.
The Waccamaw Association (Bap-
tist) adjourned its harmonious session
at New Hope Church, Columbus coun-
ty, on the 15th inst. The next meeting
of the Association will be with Beulah
Church, Brunswick county. The
thanks of the Association were unani-
mously given to Prof. Manly of Fur-
man University of South Carolina for
instructive addresses upon the object
of Foreign Missions and Education.
Delegates to the State Convention were
not chosen.

City Court.
J. W. Sutton, colored, was brought
before the Mayor this morning charged
with carrying a concealed weapon. He
was required to give bonds in the sum
of \$50 for his appearance at the next
term of the Criminal Court, in default
of which he was committed.

Two parties, charged with failure to
pay license tax, were fined \$25 each.

zens of each Ward are requested to

Pursuant to notice the Democratic
citizens of Pender county met at Point
Caswell on the 15th inst., for the purpose
of organization and to make arrange-
ments for the Grand Jubilee to be held
in Wilmington on the 20th inst. Capt. R.
P. Paddison was called to the chair and
Mr. E. A. Hawes was requested to act
as Secretary.

A committee of arrangements was
appointed who made the following
report, which was adopted.

the Pender delegation, not arriving by

Point Caswell at the steamer's wharf to
join in the parade.

The parade at night will be with the
Wilmington procession, in the order
arranged by the Chief Marshals.

On motion, the Review and Star
were requested to publish the proceed-
ings of the meeting.

R. P. PADDISON, Chief Marshal.

The Majority.
The official canvass of the Electoral
vote was made at Raleigh yesterday
with the following result:

Democratic vote for Electors at
Large.....112,021
Republican.....124,397

Democratic majority.....17,627

We must not forget to mention that
three votes were cast for Ben Butler,
and one for St. John, the prohibition
candidate. We do not care so much
about the latter, but we should like to
know the men who voted for Butler.

They would be a curiosity.

What is that which is lengthened by
being cut? A ditch, St. Jacobs Oil
cures cuts.

We observe quite a fine display of
new Revolvers for very reasonable
prices, at Jacob's Hardware Depot.
