The Daily Review.

JOSH, T. JAMES, Editor & Prop WILMINGTON, N. C.

SATURDAY, DECEMB'R 27, 1884 Entered at the Postoffice at Wilmington, N. C. as second-class matter.

"Bismarck Stone" is the name of an enormous piece of amber exhibited in the Royal Geological Museum at Berlin, whither it was sent by a company birthday (April 1) at a depth of 60 fees below the surface. The piece is a unique one, not exactly for its size, but for toms, its shape and its remarkably fine color, the absence of any defect, and its singular clearness of sound. Its weight is 3,830 grammes, length 25, width 19 and thinkness 10 centimetres. The value of the find may be inferred from the fact that another piece in the museum, larger to be sure, but infinitely inferior

in quality, was bought of King Fred-

erick William III in 1803, for the sum

of 10,000 thalers

The Washington Republican, controlled by Secretary Chandler, publishes a letter written by Mr. Chandler to the New York Tribune, relative to the latter's report of an interview with Chalrman Jones, of the Republican National Committee in which Mr. Jones charged the Administration with lukewarmness in the recent Presidensays that President Arthur telegraphed pupil in triumph .- New York World. Blaine his congratulations and promise of help; that Secrethry Teller spoke in voted for Blaine and Logan, but could torney-General Brewster had engaged the hot weather lasted .- Lowell Citizen. to speak twice in Philadelphia, but the meetings were postponed; that 'Frank Hatton, of the postoffice department dead, could not speak. The article concludes with a furious threat that the Blaine Republican organs will do well to call off their rootic and off their rootic and constipation, some office of the Company in New Orders, or New York Exchange in organs will do well to call off their rootic and constipation, with edge of the Company in New Orders, of all ages, grandly successful. To cants the tried every thing without avail until to \$5 easily carned every evening. The sexes, of all ages, grandly successful. To cants to \$5 easily carned every evening full address. POSTAL NOTES, Express the Blaine Republican organs will do which made me feel like a new how want work may test the business, we take this unparableled offer: To all who are not well satisfied we will send \$1 to pay for lady gets up. No valise. Tableau.—

San Francisco Journal good of their party and their own good, unless they wish to invite the publication of campaign secrets.

The current number of Bradstreet's furnishes statistical tables of the men out of employment at the present time as compared with the number employed in the census year. 1880, when, it is believed, there were no persons unem. ployed who were able and willing to work. The returns having been obtained by the officers and employees of the commercial agency are presumed to be very nearly accurate. The whole number of manufacturing operatives out of work by reason of the shutting any stone. down ef establishments, strikes, &c., is 316,000, or 13 per cent. of the whole number thus employed in 1880. which was 2.452,749. It is believed that the number may be swelled to 350,000 by taking account of the smaller industries which may have been overlooked. But on the other hand a certain portion, probably 10 dies. per cent,, are out of employment only temporarily, for the purpose of making | St ... repairs of machinery, taking account used Brown's Iron Bitters in our Address, Golden Specific Co. of stock, &c. Of the leading industries the iron trade shows a loss in the number of operatives at work of 20 per cent., the clothing trade 27 per cent., it.' cotton goods 124 per cent., woollen goods 16 per cent., boots and shoes 14 per cent., tobacco manufacturing 17 per cent., silk 16 per cent., glass 19 per cent. The Southern States show the smallest percentage of unemployed la bor and the least reduction in wages.

The air is full of rumors about a telegraphers' strike, but there appears no definite head to the matter. There is a good deal of soreness left over from the fight of 1883, when the men yielded nominally after a month's idleness and the Western Union gave many of the important things demanded after a little delay; it is apparent that there will now be something amounting to a re duction of pay. The company has begun by cutting off the pay in large offices for extra work, claiming that business had fallen off so that the men could do it all in the regular hours and that it must either take this course or discharge a number of operators, and it remains to be seen how the change works. The extra work has been considerable, and many operators made a considerable income from it. The as sociation of operators called the Brotherhood was dissolved at the end o the strike of 1883 by agreement with the company, but has been reorganized under another name, and is now said to be very powerful. This society will of course, direct the affairs of the men in the event of any trouble. There is plenty of threatening, and it seems to about the probable outcome. It is not probable, however, that a general strike will be undertaken in the present aspect of business. One report says that a strike will soon begin at New that a strike will soon begin at the strike will soon be soon to strike will soon begin at the strike will soon begin at increase, but nohody can tell much that a strike will soon begin at New mend it."

Orleans because the Exposition makes a great demand for work there, and the place is so isolated that the comwill generally keep it this winter, if they are wise.

"Words fail to express my gratitude," says Mr. Selby Carter, of Nash-ville, Tenn., "for the benefits derived fsom Ayer's Sarsaparilla.
