SOME STARTLING FACTS.

The Discovery of the Cause of Most Un. timely Deaths that Come upon the Community.

The official returns of the City of New York show that nearly three-fourths of all decids are from onsumption. When we stop to calmly think over this fact, it is really awful. And yet every case without exception started from small beginnings. A cough in the morning; tickling in the the cat; . thick phlegmy discharge; chilliness at night; moult breathing; a tightness across the chest; these and many more symptoms indicate the pres mee of that terrible disease which, unless checked. means certain death with long and painful suffer-

In view of such aerious and ever-present facts the suggestions and advice of the most endnent physicians are of the greatest value.

. Dr. John Gandher, one of the most eminent phyicians in London, says : "Science, common sense, Holy Scriptures and all experience testify to the sents derived from the use of pure whiskey."

Dr. D. H. Barker says : "I have used and exam-ined Duffy's Pure Malt Whiskey, and find it the best I over tried."

Dr. & M. Buckwalter says: "Duffy's Pure Malt Whiskey is, without doubt, the invalid's drink when stimulants are indicated, and I find all chronic cases require stimulants, and a large per cent of the acute ones also."

These truths, from the lips of the leading scientific men of the day, and confirmed by the experience of men and women well known in the community should serve as a guide for all who feel the approach of consumption no matter by what path it may come. We do not hesitate to assert that any man or women who will use Duffy's Pure Malt Whiskey according to directions can defy consumption and prolong life with all its blessings.

as second-class matter. BUSINESS AND POLITICS.

We want the business men of the country says the News and Observer. to see distinctly their interest in the political movements of the day.

Now, the Washington correspondent of the New York Commercial Bulletin, atter enquiry, finds that the Republican leaders in Congress are pretty unanimous that the Secretary of the Treasury should buy bonds with the surplus in the Treas-

The Presikent said in his message that he had bought bonds for the sinking fund, but doubted his authority to do so, because the clause on which the alleged authority was based had been tacked on to an appropriation bill and was evidently meant for a temporary purpose and was not intended to apply in this general way. He distinctly urged that Congress should not put such a power, such a duty, such a responsibility on him-declaring that it ought not to be imposed or couferred on any man. Now what does it all mean? Here is the Government with say \$100, 000,000 of money taken from the pockets of the toiling millions and the Republican leaders say, pay it over to the bondholders giving them whose principal is \$1,000 not due for twenty years yet. \$1,250 at 8 per

cent interest in twenty years would be worth to the people about \$5,000 -and this is to be paid for a 4 per cent bond of which the principal of \$1,000 is payable in 1907.

As soon as the government sets DEEP sea Wonders exist in thousands of forms, but are surpassed by the marvels of invention. Those who \$1,500 for the pleasure of taking up a \$1,000 bond twenty years before it cent compound interest would amount to \$6,000. And this is business! This is the way the Republi

can leaders propose to deal with the people. It is good for the bondholder-but bad for the masses. The surplus in the Treasury ought

to be returned to the people, and no more ought to be collected until the bonds can be paid dollar for dollar. The Secretary of the Treasury is already in trouble with his surplus. and in order to keep it out of the Treasury has deposited \$44,738,000 in certain banks. Last weak he added \$2,500,000 to his deposits in these banks. It is the only thing he can do to prevent a panic and a crash but what shall be said of the folly of the crime of taking \$44,000,000 of the hard earnings of the people merely to deposit it in banks! And this is only the beginning. Before spring the amount so deposited will foot up \$75,000,000. The government has already bought virtually all the bonds for the sinking fund for the year ending June 30, 1888.-The excess of moncy taken in during December over what was needed was fifteen millions, and the same thing is to happen right

straight along until Congress acts. Is it not time for the business men to bestir themselves? Is it not plain to see how the material welfare of the people, how trade and business sre to be affected by this course? It must end disastrously unless soon

checked.

No country can stand such interference with its legitimate business operations and with the free movement of its circulating mediums.

Advice to Mothers.

MRS. WINSLOW'S SOOTHING SYRUP should always be used when children are cutting feeth. It relieves the little sufferer at once; it produces nat ural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the howels, and is the best known remedy for diarrhea, whether arising from teething or other causes.
