 rates, or 10 cents per week.
 Advertising rates low and liberal.
 Subscribers will please report any and
 all failures to receive their paper regularly.

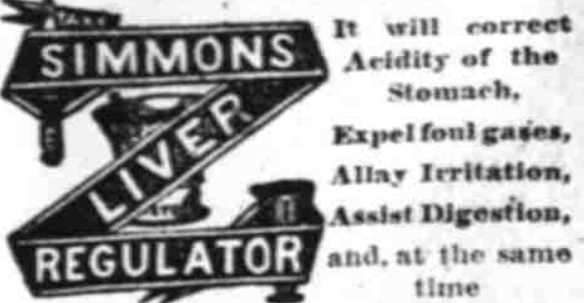

THE DAILY REVIEW.

VOL. XII. WILMINGTON, N. C., SATURDAY, JANUARY 21, 1888 NO. 17

DYSPEPSIA.

That misery experienced when we suddenly become aware that we possess a disordered stomach, called dyspepsia, is the result of the regurgitation of food, and every trace of it must be removed, every fibre of the system, and a new system of diet and regimen must be adopted. Dyspepsia is a disease of the stomach and bowels, and is caused by indigestion, and is attended by a variety of symptoms, such as: Headache, loss of appetite, flatulence, and a general feeling of uneasiness. It is a disease that is very common, and is attended by a variety of symptoms, such as: Headache, loss of appetite, flatulence, and a general feeling of uneasiness. It is a disease that is very common, and is attended by a variety of symptoms, such as: Headache, loss of appetite, flatulence, and a general feeling of uneasiness.

The underlying cause is in the LIVER.
 and one thing more is equally certain, no one will remain a dyspeptic who will

It will correct Acidity of the Stomach, Expel foul gases, Alleviate Irritation, Assist Digestion, and, at the same time

Start the Liver to working, when all other troubles soon disappear.

"My wife was a confirmed dyspeptic. Some three years ago by the advice of Dr. S. J. Simmons, of Augusta, she was induced to try Simmons' Liver Regulator. I feel grateful for the relief it has given her, and may all who read this and are afflicted in any way, whether chronic or otherwise, use Simmons' Liver Regulator and I feel confident health will be restored to all who will be advised."—Wm. M. KASST, Fort Valley, Ga.

See that you get the Genuine, with red Z on front of Wrapper, PREPARED ONLY BY J. H. ZEILIN & CO., Philadelphia, Pa. nov 25 10 1887 dkwly cl sat

Chambersburg, Pa. has a fire company that has been organized 108 years.

Nearly 8,000 people attended the letter carriers' ball in Baltimore the other evening.

According to the chairman of the board of health, overcrowded and ill-ventilated public school rooms in Boston are the rule rather than the exception.

Chill papers are almost unanimous in the opinion that the characteristics of the cholera which has been raging there is of the deadliest type known to science.

A reception has been given in Indianapolis to two citizens named Mehroff, who are twin brothers, and were born in Westphalia 75 years ago. When quite young they came to this country, and have lived together all their lives.

Two young women of Leavenworth went with carriages after the same fellow to take him to a leap year party, and arriving about the same time tore each other nearly all to pieces fighting over which should have the honor of his company.

A German is reported to have invented a paper that resists the action of both fire and water. Asbestos, aluminum sulphate, chloride of zinc and resin soap are the ingredients. Paper is now used in the shape of compressed blocks for the building of the sides of chimneys.

Several of the colored pupils in the Boston evening schools are described as more than 50 years old, and one man is nearly sixty, but they are "patiently and earnestly striving to gain the knowledge of which they were deprived in their younger days."

A Marshall, Mich., man who had been cut and bruised over the eye applied a piece of raw beefsteak to reduce the inflammation. When he sought to remove it, it was found, according to a local paper, that the tissue of the beef had grown into the cut and united itself to the flesh so firmly that it was necessary to have a doctor cut it away.

Following the famous Guinness precedent, the greatest ale brewing firm in the world announces its intention of turning Bass & Co. into a public limited liability company with two classes of shares, of which all the ordinary ones will be retained by the present firm and their friends, but 4½ debentures of £100 each will be offered to the public at an issue price of £108. Subscriptions will be offered in a few days. Probably there will be one of the greatest rushes seen in London in a great many years, the bulk of the original buying being purely speculative.

50 dozen all wool flannel shirts, in all shades and colors, for men and boys, from 75 cents and upwards, at the Wilmington Shirt Factory, No. 37 Market street, J. Elsbach, Prop.

The London correspondent of the New York Times says: "The long respite which the Crown Prince is enjoying has so excited the hopes of everybody in and out of Germany that a relapse would now be doubly painful and distressing. Yet I am assured that really nothing but a miracle can avert fatal consequences. Though these may be delayed for a long time, it is equally true that they may come any day. His magnificent physique and splendid manliness of mind are making a grand fight against the malady, holding it still at bay, but the experts in their hearts do not believe that he can recover."

"It is only a question of time," and a short time, too, as to when your rheumatism will yield to Hood's Sarsaparilla. Try it.

Best shoes for boys at French & Sons.
 Day's length 10 hours and 10 minutes.

Sunset to-morrow afternoon at 17 minutes past 5 o'clock.

Finest shoes for ladies wear in the city at French & Sons.

The receipts of cotton at this port to-day foot up 317 bales.

There were no interments in Bellevue Cemetery this week.

There was one interment—an adult—in Oakdale Cemetery this week.

There was a fine display of dressed poultry in the market this morning.

Ladies will find a nice line of good reliable scissors at Jacobi's Hd. Depot.

Ital. barque *Vittoria* sailed from Gargati, Italy, for this port Jan. 11th.

Schr. *C. C. Lester*, Robinson, cleared at Baltimore for this port Jan. 19th.

The Register of Deeds issued two marriage licenses this week, both for colored couples.

There were three interments in Pine Forest Cemetery this week, two adults and one child.

Cold and rain is the prediction for to-day in Turner's Almanac and it is astonishing how near to the fact its predictions generally are.

There will be services at St. John's Church to-morrow at 7:30 a. m. and 11 a. m. by the rector, Rev. Dr. Carmichael. There will be no service at night.

Rev. J. W. Primrose, pastor of the Second Presbyterian Church, will preach to-morrow morning the first of a series of sermons on "Bible Conversion."

New Hanover County Superior Court will convene at the Court House in this city on Monday next. Jurors for the term, however, have been notified that their attendance will not be required until Tuesday next.

There is a big rush at Heinsberger's now, owing to the fact that he is offering a large line of handsomely bound books at 25 cents each and also gilt-edged volumes of standard authors at 45 cents each. They are selling rapidly.

The congregation of Grace M. E. Church will worship to-morrow morning in the Temple of Israel. There will be no services there at night in consequence of the Bible Society's mass meeting at the First Presbyterian Church.

Indications.
 For North Carolina, colder, fair weather, followed by snow and light to fresh winds, becoming Northerly.

Terpsichorean.
 Prof. A. Bellezza, the accomplished teacher of dancing, who was so popular here last year, has returned to the city and will open a class for instruction in dancing at Germania Hall next Tuesday. The professor and his brother gave us the pleasure of a call this forenoon.

Religious Item.
 On account of the union service which is to be held at the First Presbyterian Church to-morrow night, the communion service at Fifth Street M. E. Church will be held at 4 o'clock to-morrow afternoon, at which the pastor will be assisted by Rev. W. S. Creasy, of Grace M. E. Church.

Cotton.
 The receipts of cotton at this port for the week ended Jan. 21st, 1888, foot up 2,337 bales, as against 4,203 bales for the corresponding week last year; a decrease of 1,866 bales. The receipts for the crop year to date foot up 154,693 bales, as against 123,934 bales for the corresponding period last year; an increase of 30,759 bales.

City Court.
 Fannie Fisher, colored, was before Mayor Fowler this morning charged with disorderly conduct. The evidence was not sufficient to convict and she was discharged.

Geo. Murray, colored, was proven guilty of selling liquor on Sunday last, in consequence of which he was bound over to the next term of the Criminal Court in the sum of \$100.

The Books.
 It has been suggested that, in consequence of the remarkably low price at which books are offered for sale in this city, now would be a good time for the liberally disposed to help in building up the library of the Wilmington Light Infantry. There are now about 250 volumes in the library. When the new armory is built it is intended that one of the rooms shall be devoted exclusively to library purposes.

Personal.
 Mr. Burt Davis, press agent for Wilson & Rankin's Minstrels, is in the city to-day.
 Rev. Dr. Pritchard is still laboring at the protracted meeting in Fayetteville and with good results. The *Observer* says that "Dr. Pritchard is preaching this week to large congregations. His sermons are eloquent, powerful, touching and effective, yet simple and plain without. He is a noble man."

Painful Accident.
 We regret to learn that Capt. E. D. Browing, who has been confined to his house for sometime with a severe attack of rheumatism, met with a serious accident yesterday which will compel him to keep his room for some time yet. His attendants had occasion to move him, as his condition was helpless, and either by carelessness or awkwardness, and owing to his great weight, they let him drop to the floor, whereby his thigh was broken.

Church Festival.
 For the purpose of raising funds to aid in the completion of their new and handsome edifice on Fourth street, the ladies of the congregation of Grace M. E. Church purpose to hold a "Festival of the Months" on the 9th, 10th and 11th of February next. It will be a pretty and unique affair. Each of the months will be represented by a booth, with attendants in appropriate costume, and wares displayed for sale peculiar to the seasons represented. The most careful and elaborate preparations will be made to make it perfect in every particular, and as the time is short the ladies will need all the help that a generous public can afford.

School shoes for children, best in the city, at Geo. R. French & Sons.

Union Mass Meeting.
 Rev. Thomas H. Low, superintendent of the American Bible Society for North and South Carolina, arrived in the city to-day for the purpose of awakening an interest in the work of the distribution of the Bible. He will address a mass meeting to-morrow night at the First Presbyterian Church upon this all-important subject, and addresses will also be made by Rev. Robert Strange, rector of St. James' Church, and by Rev. W. S. Creasy, of Grace M. E. Church.

The American Bible Society has been the means of distributing nearly 41,000,000 copies of the Bible. It is the channel through which the Bible work of nearly every Christian denomination is carried on, both at home and abroad.
 See the "Artful," the best rat trap known, at Jacobi's Hd. Depot.

The Sound Railroad.
 The subscribers to the stock of the Sound railroad held a meeting this forenoon, but without transacting any business it adjourned to meet again at 5 o'clock this afternoon, which was too late for a report of the proceedings in our columns. We are assured, however, by a gentleman who is in a position to know, that the road will be built and that work upon it will be commenced immediately.

From California.
 A prominent colored citizen of this place, C. H. Ward, is in receipt of a letter from Rev. C. C. Petty, colored, who is general manager of an association for providing homes for the colored race in California. With the letter is a certificate from a number of that race who have migrated to the Pacific Coast from this State, which makes their settlement almost a Paradise. One of the inducements offered to immigrants is 160 acres of land free of cost but none but the best class of colored emigrants is wanted.

Exports Foreign.
 Not. barque *Argo* Arentsen, cleared to-day for Fleetwood, Eng., with 550 casks spirits turpentine and 4,916 barrels rosin, valued at \$15,388, shipped by Messrs. Williams & Murchison. Ger. brig *Clara*, Voss, cleared for Stettin with 3,312 barrels rosin, valued at \$3,457, shipped by Messrs. E. Peschall & Westermann. Schr. *C. B. Paine*, Hillyard, cleared for Port-au-Prince, Hayti, with 191,386 feet lumber, valued at \$2,476.49, shipped by Messrs. S. & W. H. Northrop. Schr. *Hattie Turner*, Gilmore, cleared for St. Pierre, Mart., with 253,208 feet lumber, valued at \$4,456.65, shipped by Mr. E. Kidder's Son; making a total of exports foreign amounting to \$25,778.14.

Old Clothing.
 It is a well known fact, that an old stock of shelf worn clothing is dear at any price. Any clothing merchant would be glad to be able to realize fifty cents on the dollar on such a stock. Don't touch such goods. At S. H. FISHLATE'S you will find new and fresh goods at all seasons of the year. He is constantly receiving new goods by every steamer. His business is of such an extent that it is impossible for him to accumulate an old stock, and all persons desirous of obtaining stylish, well-fitting and tailor-made suits, ready-made or to order, should visit his immense establishment. No moth eaten or Cheap John goods there. Any article purchased at Fishplate's perfect satisfaction guaranteed or money cheerfully refunded.

Engineering Skill.
 In building the new iron bridge across the railroad at Fourth street, it became necessary to move the water main of the Clarendon Water Works, which crosses the railroad at the bridge, a distance of five feet to the Westward and to lower it about two feet. How this could be done without closing the main for the time being and thus shutting off the supply of water from the city, has been a matter of much wonder to those not familiar with the advances that have been made in engineering skill within the last decade. It was accomplished, however, yesterday, without accident, hindrance or one moment's cessation of the water supply to the city. Mr. J. C. Chase was superintendent of the removal of the main, and the successful result is a compliment to his engineering skill.

Mlle Rhea.
 There was a large and fashionable audience at the Opera House last night to greet Mlle Rhea and her talented company in the society comedy drama entitled "Fairy Fingers." The play was well suited to her powers as an actress and she made the best of it, winning the plaudits of the appreciative audience, which were not given as mere acts of gallantry. She is a charming actress, and is as lovable and interesting in social life as she is attractive and versatile behind the footlights. The support was good throughout and the acting of the very difficult role of *Richard de Kerbrian*, by Mr. Edward Bell, was superb. "Fairy Fingers" is a French production, depicting life in Paris, and none but an accomplished French woman like Mlle Rhea

could do justice to the role of *Horleuse*. The play to-night will be "Frou Frou," with which the engagement of Mlle Rhea in this city will close.

Rock Crystal Spectacles and Eyeglasses.
 Advice to old and young: In selecting spectacles you should be cautious not to take more magnifying power than has been lost to the eye as in the same proportion that you pass that point of increase, will cause you further injury to the eye. Using glasses of stronger power than is necessary is the daily cause of premature old age to the sight. You can get the best at Heinsberger's.

NEW ADVERTISEMENTS.

Free Lunch.
 ANOTHER BIG LUNCH WILL BE SPREAD to-night at the MERCHANTS' EXCHANGE DINING ROOMS.
 Admittance free. To commence at 7:30 o'clock.
 Jan 21
