CONSTIPATION

Is called the "Father of Diseases," because there is no medium through which disease so often attacks the system as by the absorption of poisonous gases in the retention of decayed and effete matter in the stomach and bowels. It is caused by a Torpid Liver, not enough bile being excreted from the blood to produce Nature's own cathartic, and is generally accompanied with such results as—

Loss of Appetite, Sick Headache, Bad Breath, etc.

The treatment of Constipation does not consist merely in unloading the bowels. The medicine must not only act as a purgative, but be a tonic as well, and not produce after its use greater costiveness. To procure a regular habit of body without changing the diet or disorganizing the system

"My attention, after suffering with Constipation for two or three years, was called to Simmons' Liver Regulator, and having tried almost everything else, concluded to try it. I first took a wineglassful and afterwards reduced the dose to a teaspoonful, as per directions, after each meal. I found that it had done me so much good that I continued it until I took two bottles. Since then I have not experienced any difficulty. I keep it in my house and would not be without it. It cured me, and I am now as well as ever."—Geo. W. Stone, Ass't Clerk Superior Court, Bibb Co., Ga.

The fund for developing the Niagara falls now amounts to very near \$100,000.

A memorial to Helen Hunt Jackson will be the Ramona Indian Girls' school at Santa Fe, N. M. The building will cost \$30,000 and will accommodate 150 pupils.

Parisian dandies have tired of the gold knobbed canes, crutch canes and canes with ducks' beaks that have been the rage, and are carrying a thick stick with the claw of a rayfish for a handle.

A lady in Virginia has a hive of bees that go to a neighboring distillery and get tipsy. This is a sad revelation for the moralist who is fond of holding up the bee as a bright and shining model of thrift, sobriety and industry.

By the gift of the wife of President Diaz, of Mexico, an endowed creche, or day home for infants, whose mothers can leave their children when going from home for their work until nightfall, has been established in the capital.

English etiquette has decided that unmarried ladies should never use a crest on anything—note paper, servants' buttons, brushes or any other article. It is usually found that the people best entitled to crests and coats of arms make the least use and display of them.

An important feature of the Swiss alcohol act recently passed, giving the government control of all alcoholic drinks sold in that country, is that 10 per cent. of the net revenue which the cantons will gain from the alcohol tax is to be spent in unloading to the people the effects of alcohol.

A correspondent recently saw in the library of Mrs. Augusta Evans Wilson the original manuscript of her novel, "Vashti." It was entirely in her hand-writing and was as clear and neat as a freshly printed page. This is the manuscript for which Mrs. Wilson received \$15,000, and it is kept carefully preserved in a case of heavy leather.

The Jew is found in every part of the world; in Europe, from Norway to Gibraltar; in Africa, from Algiers to the Cape of Good Hope; in Asia, from Cochin to the Caucasus, from Siam to Peking. He has peopled Australia and has given proofs of his powers of acclimatization under the tropics, where people of European origin have constantly failed to perpetuate themselves.

Recent experiments with the Nordenfledt submerged torpedo boat were highly successful. At night she approached a boat that was expecting her to within 400 yards, the agreed distance, without being noticed. Then she dived and rose within 100 yards of the ship with a report like a whale and, then disappeared. She was regarded as a great success.

Finest shoes for ladies wear in the city at French & Sons.

The talk of Gen. Sheridan as the candidate of the red shirt crowd need not disturb the serenity of those who believe that Grover Cleveland will be his own successor, "one of whom we are which." There is no man living who can beat Cleveland and the more popular the man who is run against him the more thoroughly will this fact be evidenced.

A large number of ladies, members of St. James' Church, met yesterday afternoon in the Sunday School room and organized a branch of the "Woman's Auxiliary" for missionary work. The ladies will meet again next week to formulate some plan for raising funds for the good work.

It is quite the correct thing now for young gentlemen to drive young ladies to the Sound in a double team not "four in hand" but four in the vehicle. An old and crusty bachelor suggests that this is done because it is leap year and the young men are afraid to trust themselves alone with their best girls in a drive over the pike.

Rock Crystal Spectacles and Eyeglasses. Advice to old and young: In selecting spectacles you should be cautious not to take more magnifying power than has been lost to the eye as that point of increase, will cause you further injury to the eye. Using glasses of stronger power than is necessary is the daily cause of premature old age to the sight. You can get the best at Heinsberger's.

Indications. For North Carolina, fair weather followed by colder, with light South westerly winds, becoming variable.

A Little Girl at Prayers. A little girl whom we know says her prayers regularly every night. She has also been in the habit of reciting the quarrel of the "two bootblacks," and the other night when she started to repeat her little prayer she forgot herself for a moment and began to recite the bootblack story, but had said not more than a line or two when she remembered herself and said "Oh, no! that ain't it," and then repeated her nightly prayer.

The "Feast of Months." As we entered the City Hall last night we were filled with amazement to know that such a vast amount of work had been performed in so short a time. In the morning all was confusion and chaos; in some instances even the frames for the different tables were not completed, but at night, owing to the industry, dexterity and skill of busy and willing hands, every table was completed and presented a novel, unique and truly attractive appearance. There were twelve tables, each representing one of the months of the year by appropriate decorations and symbols. In entering the Hall by the Western door and turning short to the left one almost felt chilly by the appearance of the table representing frigid January with its mimic icicles pendant from the eaves of the roof. Here one can see an excellent portrait of the beloved and lamented Dr. L. S. Burkhead, who was much beloved by the congregation of Grace M. E. Church. The chilly feeling vanishes, however, when one sees the cordial greeting of "A Happy New Year." This table is presided over by Mrs. C. M. Williams, assisted by an able staff of fair ladies. The next in order is February, appropriately trimmed and decorated, and presided over by Mrs. Thomas Thornton, with an able corps of assistants. The next is March, appropriately surmounted by a horn signifying that it is a breezy, blowing month, and with other symbols of its rude and boisterous character. At this table is a fine art display, mainly contributed by Messrs. Devoe & Co., of New York, through their salesman, Mr. W. H. Shaw. The presiding genius of this table is Mrs. S. A. Currie, with able and accomplished lady assistants. Continuing our course around the Hall we find April next in order, surmounted by a huge umbrella, tastefully trimmed, and the table presided over by Mrs. A. B. Lynch, assisted by an efficient corps of young ladies. The next is May, teeming with the beauty of many blossoms, and presided over by Mrs. C. C. Covington and her lady assistants. There comes June with its rich garlands of roses, and containing an elegant display of the handiwork of the ladies which was offered for sale to visitors by the presiding genius, Mrs. H. P. West, and her fair assistants. The next in order as we proceed around the Hall is July, hot, scorching, blazing July—Independence month—appropriately decorated with flags and surmounted by an American eagle. This table is presided over by Mrs. Edgar Parmelee, assisted by a number of fair young ladies. Then we came to the restaurant, tastefully arranged and bountifully supplied, and with a bevy of fair young ladies, under the direction of Miss Lizzie West, to wait upon customers. August is represented by a yacht under sail, with a cargo of tropical fruits with a reef in her mainsail, appropriately decorated, and gallantly manned by a crew of young lads under the command of Mrs. H. M. Bowden, assisted by Mrs. H. M. Foard and Mrs. W. J. Kirkham as first and second mates respectively. The next in order is another restaurant presided over by Mrs. M. McLeod, and assisted by several ladies. The tables for September are bountifully supplied with tempting fruits and are presided over by Mrs. W. H. Shaw and her lady assistants. October—sere October—with its tempting display of cakes and fruit, is the next in order. The presiding genius of this table is Mrs. Mary Bowden, assisted by a number of fair young ladies. Then comes November with its Thanksgiving memories and suggestions of merry times. The table is presided over by Mrs. T. C. Craft and her able assistants. Then comes December with its Christmas Tree laden with presents from Santa Clause. This table is presided over by Mrs. C. W. Yates and her lady assistants. This closes the number of tables representing the months, but there is a cigar stand with a full supply of the "weed" for sale to smokers. This stand is presided over by Mr. R. Hawes, who is assisted by several young ladies.

If asked which is the most attractive table in the Hall, we could not tell, for each has a beauty that is possessed by none of the others. It is a place of beauty. The tables

are most artistically and tastefully arranged and the ladies in attendance are charming. The entire management of decorations and arrangements is due to the skill and taste of Mrs. W. W. Hodges, and it reflects honor upon her. There was a large attendance of ladies and gentlemen and old and young. The receipts last night—with two tables to hear from—amounted to \$372. They will probably exceed \$300. The festival will be repeated to-night, at which time there will be an exhibition drill by the Wilmington Light Infantry.

You will find at Heinsberger's an elegant assortment, just received, of fine wire masks for ladies and gentlemen and some other articles needed for masquerade balls.

Messrs. R. E. Heide, L. Hansen and W. P. Oldham were appointed a committee on rental and repairs.

Rev. D. C. Kelly was elected chaplain, and the secretary was instructed to notify Rev. Samuel H. Hall, D. D., corresponding secretary of the American Seaman's Friend Society of New York, and to express the thanks of this Society for a continuance of their donation toward his support during the coming year.

After considerable discussion as to how best to meet the objects of the Society in benefiting the sailor in his moral and social condition, the following resolution was unanimously adopted:

Resolved, That we request the co-operation of the press and of the pastors and members of the different churches in this city with this Society in the effort to elevate the social and moral condition of the seamen and in the suppression of the temptations which are thrown out to ensnare them.

Hung Himself! At the residence of Mrs. J. K. Brown, of Mulberry street between Front and Second, the English sparrows have taken possession of the cornice around the piazza on the second story and are building their nests, in the construction of which they carry up all manner of strips and strings. One of them this morning, in flying out of the crevice, managed to get a piece of string around his neck and thus involuntarily hanged himself.

Audit and Finance.

The Board of Audit and Finance met yesterday afternoon in adjourned session.

Bills for current expenses amounting to \$48,881.94 were audited and approved; sinking fund, \$856.37; refunded taxes \$4.51.

The ordinance adopted by the Board of Aldermen providing that no deduction be made in the pay of any member of the police force on account of sickness or disability, a physician's certificate being furnished certifying to such sickness or disability, and such sickness or disability does not continue more than thirty days, came up for concurrence.

Mr. Hewitt moved that the Board concur. Mr. Maunder seconded the motion.

The chairman said that he would approve it if a proviso was inserted in the ordinance that the city shall not be required to pay for a substitute for a policeman incapacitated by sickness. He was opposed to paying two men for performing one man's duty. He was not disposed to take one penny from a policeman's pay when sick, but this measure was opening a loop-hole through which all kinds of abuses would creep in. City expenses were overrunning the appropriations in all the departments. He insisted that the substitute clause be inserted in the ordinance.

Mr. Maunder approved of Mr. Jones' suggestion and the ordinance after being amended by adding a
