

THE DAILY REVIEW.

VOL. XII WILMINGTON, N. C., MONDAY, MARCH 12 1888 NO. 61

The largest cotton mill in the world is said to be located at Kramholm, in Russia. The establishment contains 340,000 spindles and 2,200 looms, disposes of a force of 6,300 horse power, and gives employment to 7,000 hands.

If the liver and kidneys are sluggish and inactive, Hood's Sarsaparilla will rouse them to prompt and regular action. Take it now.

Best shoes for boys at French & Sons.

The receipts of cotton at this port to-day foot up 21 bales.

School shoes for children, best in the city, at Geo. R. French & Sons.
Nor. barque *Frida*, Rasmussen, from this port arrived at Belfast on Saturday.

Nor barque *Aytha*, Rohr, from this port, arrived at Dover on the 10th inst.

Messrs W. R. Smith and Robert Moore have been appointed by the Mayor as substitute policemen.

Nor barque *Hegenmet*, Ingenmundser, from this port for Liverpool, was at Queenstown on the 10th inst.

Steamships *Benefactor* and *Gulf Stream* both sailed for New York yesterday, the former conveying the latter.

And didn't it rain yesterday? For an hour or so the downpour was steady and terrific. And yet the streets are almost dry to-day.

Ger barque *Lidia Peschau*, Zepher, cleared to-day for Stettin with 3,064 barrels rosin valued at \$3,350, shipped by Messrs E. Peschau & Westermann.

The work of laying cross-ties on the Seacoast Railway was begun this morning and is being pushed rapidly forward. The first cargo of steel rails is expected here, early next week.

Personal.

Mr. Chas. D. Russell, of Savannah, arrived in the city Saturday night from New York where he has been on a short visit. He will leave to-night on his return to Savannah.

Mr. Berry Gleaves is in the city on a short visit.

Mr. Geo. A. Ramsey, of Burgaw, was here yesterday and Saturday.

Death of a Cape Fear Lady.

We are very sorry to hear of the death of an esteemed lady, a native of this section, Mrs. Mary E. F. Fulton, the beloved wife of Mr. R. M. Fulton. The deceased lady was a daughter of the late J. W. St. George and the sister of Mr. J. E. St. George, of the Southern Express office of this city. She was a strict member of the M. E. Church.

Rock Crystal Spectacles and Eyeglasses.

Advice to old and young: In selecting spectacles you should be cautious not to take more magnifying power than has been lost to the eye as in the same proportion that you pass that point of increase, will cause you further injury to the eye. Using glasses of stronger power than is necessary is the daily cause of premature old age to the sight. You can get the best at Heinsberger's.

"Whom the Gods Love Die Young."

We regret very much to learn of the death in this city, early this morning, of Miss Annie, eldest daughter of Mr. and Mrs. Wm. A. Willson. She was a charming, amiable and accomplished young lady, on the very threshold of life and the sad news of her death has carried grief and sorrow to many a loving heart. The funeral services will take place at 3:30 o'clock to-morrow afternoon, at Fifth Street M. E. Church.

Ask those who have tried and they will tell you that the Boy Clipper Plow is the best made. Sold only at Jacob's, who is the factory agent.

Weather Report.
The following order was issued by the Chief Signal Officer at Washington City yesterday but owing to the Western Union wires being down north of this city it was not received until this morning:

Hoist cold wave Signal. The temperature will fall about fifteen degrees by 10 A. M. Monday.

GREENLY.

The storm which passed over this section yesterday was closely followed by a high barometer from the northwest, which caused great and sudden changes both in the atmospheric pressure and the temperature. The barometer fell between .30 and .40 inches by 2 P. M. but rose about .20 inches from that time to 10 P. M. The temperature early yesterday morning was 59 degrees and this morning at about the same time it had fallen to 32 degrees, making a fall of twenty-seven degrees. The highest velocity of the wind reached in this city was twenty-four miles an hour. Southport reported a maximum velocity of forty miles an hour. The rainfall yesterday was 1.45 inches.

A Distinction and a Difference.

A friend has handed us a copy of the *Richmond Christian Advocate* in which Rev. J. J. Lafferty describes a trip on the Atlantic Coast Line fast mail to Florida. It is funny, very funny. The writer complains very much of the lies told him by a Pullman car man somewhere to the North of Richmond, to induce him to take an upper bunk instead of a lower one, and goes on to say: We now propose to give the history of the fast mail Southernward. It did well till about the middle of North Carolina. At Weldon engines are put on to burn pine wood. The resinous smoke set the poor consumptives going to Florida to coughing. It was pitiful. Gusts of the pitchy soot at times would fill the car, smutting the face and choking the windpipe. The tender could hold only a supply of this dry wood for a short run. The stops to "wood-up" were frequent. It took much longer to throw sticks of wood than to supply the engine with coal. The "fast" fell off to a slow and poor concern.

Poor Bro. Lafferty! How he must have suffered, with all of the windows up and doors open on a cold, frosty night (for how else could the soot and smoke have entered the Pullman car?) and the great and frequent annoyance of stopping to "wood up" so frequently! It is evident that some of the railroads have deteriorated very much of late and we have no doubt whatever that the fault is to be laid entirely at the door of the Interstate Commerce law, which won't let the railroads deadhead the editors now. The last time we traveled on the fast mail between Richmond and this city we found that it moved along at a rather lively gait. It took but seven hours to make the trip, and the distance is about 250 miles. We did not find any particular annoyance in smoke or soot, partly perhaps because we didn't ride on the platform all of the way, and partly also, perhaps, because we didn't ride in a Pullman palace. The train made three stops, Wilson, Weldon and Magnolia. At the former place they took on wood and water and we got out to witness the process. It didn't take more than half a minute to load the tender with wood but it did take several minutes to get the tank full of water. No more wood was taken on until we got to Magnolia when the half minute process was repeated. This was our experience some months ago but then we were traveling on a dead head ticket, whereas Bro. Lafferty paid for his'n.

Another Precinct Heard From.

The *Monroe Enquirer* of last week says: It has been reported that the Carolina Central railroad shops are to be moved from Laurinburg to Monroe, but we are authorized to state that no definite action has been taken, as President Robinson is absent in Europe and will not return under sixty days. Col. W. H. Fitzgerald has bonded land for the shops to be located on; and if the town agrees to purchase the land, the probability is that Col. Robinson's return from Europe the shops will be moved to this place. As the location of the shops at Monroe would bring several hundred people here, all can see at once the necessity for a strong effort on the part of our town to secure them.

County Convention.
Hon. Jno. J. Fowler, Acting Chairman of the County Executive Committee, has issued the following call for a convention of the Democratic voters of New Hanover county, and the election of delegates thereto:

The Democrats of the different wards of the city of Wilmington and townships of New Hanover county are requested to meet, on Wednesday, the 21st day of March, 1888, for the purpose of selecting ward and township executive committeemen, and delegates to a county convention, to be held in the court house in the city of Wilmington, on Monday, 26th day of March, 1888, at 11 o'clock A. M. Said convention will select delegates to represent the county in the State, District and Congressional conventions. First ward will meet at Brooklyn Hall at 8 o'clock p. m. Second ward will meet at the county court house at 8 o'clock p. m. Third ward will meet at the City Hall (up stairs) at 8 o'clock p. m. Fourth ward will meet at the city court room at 8 o'clock p. m. Fifth ward will meet at the Wigwam, corner of Seventh and Castle streets, at 8 o'clock p. m.

Cape Fear township will meet at Castle Hayne at 12 o'clock m. Harnett township will meet at Macomber's store at 12 o'clock m. Masonboro township will meet at the usual voting places at 12 o'clock m.

Federal Point township will meet at the usual voting place at 12 o'clock m.

Each ward in the city of Wilmington will elect five delegates to the county convention and five executive committeemen. The township will elect three delegates and three executive committeemen. Two of the five from each ward will be elected to act as county and city executive committee, and one from each township to act on the county executive committee.

More Light.

The most essential thing to a buyer of clothing is plenty of light, so that he may see what he is buying. The immense stores of S. H. Fishplate are the best lighted by day or night, of any in the city. He keeps that class of goods that stand inspection with plenty of light. No Cheap John, shoddy, or moth-eaten goods in his establishment to palm off on the public. As regards Mr. Fishplate's prices and the quality of his goods, he guarantees to give you perfect satisfaction or cheerfully refund you your money. That is the kind of a house to trade with and we advise all of our readers in want of Custom or Ready Made Tailor Made Clothing or Furnishing Goods to patronize him and you will never regret it.

50 dozen all wool flannel shirts, in all shades and colors, for men and boys, from 75 cents and upwards, at the Wilmington Shirt Factory, No 27 Market street, J. Elsbach, Prop.

School Books and School Stationery you can buy cheapest at Heinsberger's.

DIED.

FULTON—On Saturday, March 10, 1888, MRS. MARY E. F. FULTON, wife of R. M. Fulton, age 24 years.

Interment at Brunswick (Ga) yesterday, at 4 o'clock.

WILLSON—In this city, at 6:40 a. m. March 12, 1888, ANNE, eldest daughter of Mr. and Mrs. Wm. A. Willson.

Funeral from Fifth Street M. E. Church Tuesday at 3:30 p. m. Friends and acquaintances invited to attend.

NEW ADVERTISEMENTS.

AMMONS' LIVER REGULATOR
TORDIP LIVER
These marked peculiarities: weariness and pains in the stomach, loss of appetite, indigestion, in the front of the head, dizziness, and yellowness of the skin, with occasional attacks of vomiting, of the stomach and bowels, and a general feeling of depression, with lassitude and a disposition to do nothing for to-morrow.

BILIOUSNESS,
If neglected, soon leads to serious complications. Ammons' Liver Regulator exerts a powerful influence over every kind of biliousness. It restores the liver to its normal condition, regulates the secretions of the digestive organs, and puts the system in a condition that they can do their duty. After taking this medicine no more "bilious" attacks.

ONLY GENUINE
Ammons' Liver Regulator is sold in red wrapper. Beware of cheap imitations. J. T. Zelin & Co., Philadelphia, Pa. Sole Importers for the South.

Figures are said to show that during the past fifteen years there have been 140,341 marriages in Chicago and 8,132 divorces. That's about one divorce to every thirteen marriages.

The barb-wire industry is in a fair way of being overdone. According to the Iron Age there are forty-four manufacturers in this country who own 2,191 machines. It is estimated that in 200 working days, running single turns, they will make 300,000 tons of barb wire, while the consumption ranges from 130,000 to 150,000 tons a year.

Congressman Henry Bacon is the only member of the committee on banking and currency who is opposed to the bill reviving the old subsidiary currency, the small silver coins of the war period. The vote of the committee in favor of the bill was 14 to 1. The dissenting member, Mr. Bacon, has written a vigorous minority protest.

A profitable market has been found for the poor despised American red oak, that has been considered of no value at all. American dealers are buying up all they can get hold of and shipping it to Liverpool. There the lumber is manufactured into fancy furniture and shipped back to New York, where it is sold to wealthy people as the real English oak, and at pretty stiff prices, too.

The Chemical National Bank of New York has the modest capital of \$5,000,000, but its surplus exceeds \$10,000,000. It pays a 25 per cent dividend on alternate months, having recently raised the rate from 15 per cent, so that it gives its stockholders \$450,000 a year income on their capital of \$900,000. Ten shares, at \$100, sold the other day in New York at \$1,200 per share, without the \$25 dividend of March 1.

The attempt of the Boston Globe to canvass the Presidential preferences of the Massachusetts legislators by circular does not amount to much. Out of the one hundred and ninety-four Republicans in both houses twenty-four respond, and thirteen declare for Blaine, three for Sherman and two for Hawley. Of the eighty-one Democratic members twenty-three responded—all for Cleveland. It will evidently not be difficult for Massachusetts Republicans to go to Chicago "without choice"—which was their custom in other days.

What looked like the largest, straightest, soundest and longest timber log ever floated down the Cumberland reached Nashville the other day. It belonged to a green-barked countryman, who gave good reasons why he must sell it immediately. It was such a fine log that, despite the owner's anxiety to sell, it fetched almost its apparent value. In due course of time it was taken out of the water, and proved to be a mammoth log with walnut bark and oak over it in the most artistic manner. The green countrymen had not been seen since.
