Some one who has been looking up the records of the 2,619 female graduates of American colleges says that 908 are married, 940 are teachers, 132 are in other occupations, and 539 are not engaged in remunerative work.

Thirty-six of the State Judges of Iowa have replied to a circular which Governor Larrabee sent out last summer asking about the workings of the prohibitory law. Only four oppose the law, and two of these advocate high license. Many of the judges would like to have the present law amended so as to reach the case of illegal sales by pharmacists. The testimony is quite general that the law has lessened crime and consequently the work of the Courts.

A very unusual though unimportant event occurred at Calcutta on January 9—namely, the holding of thirteen trumps in a hand of whist the pack being played by a Judge and three physicians in the United Service Club when the phenomenon occurred, and all made due record of it. According to Pole, the chances of the thirteen trumps coming in one hand is only one in 158,750,000,000.

The committee for the erection of a monument to Max Selnecker, author of "Die Wacht am Rhein," met at Stuttgart recently under the presidency of the Prince of Saxe-Weimar. Over 30,000 marks have been contributed, much of it coming from Germans in Austria, Bosnia, Switzerland, the United States, Australia and other countries. An appeal for a design expressing the sentiment of the song has been addressed to German artists. The town of Tuttlingen, where the monument is to be erected, will provide a site by making another channel for a small arm of the Danube running through it, at an expense of 30,000 marks.

The peculiar purifying and building up powers of Hood's Sarsaparilla make it the very best medicine to take at this season.

JOHN W. RIELEY—Attention Hibernians.

Best shoes for boys at French & Sons. Lookout for dusty and dry weather now.

The receipts of cotton at this port to-day foot up 17 bales.

See the "Artful," the best rat trap known, at Jacobi's Hdw. Depot.

A great many took advantage of the pleasant weather to-day and drove to the sound.

Our young friend, Mr. G. C. Hewlett, has opened a family grocery store on Non street, between Third and Fourth.

The wind has got around towards the Southwest and the genial sunshine speaks of pleasant Spring weather near at hand.

The recent heavy rains have fattened the oysters wonderfully and they are better now than they have been at any time this season.

Ask those who have tried and they will tell you that the Boy Clipper Plow is the best made. Sold only at Jacobi's, who is the factory agent.

The explosion of a lamp last night in old Aunt Milly's cookshop, at the foot of Market street, caused some considerable damage for a while. No alarm given out and but slight damage.

Br bark *Celurea*, Whittington, cleared late yesterday afternoon for New Castle-on-Tyne with 3,037 barrels of rosin, valued at \$3,898, shipped by Messrs. Paterson, Downing & Co.

Ear v this morning, between 3 and 4 o'clock, fire was discovered in the cabin of a wood-flat lying near Market street. The flames were suppressed with a few buckets of water and no general alarm was turned in.

The attendance at the Opera House last night was very large, but it was not the largest audience ever seen there. It was in 1859, we think, that Edvard Everett spoke the eulogy on that occasion the audience was undoubtedly the largest that has ever been seen there.

Rock Crystal Spectacles and Eyeglasses. Advice to old and young: In selecting spectacles you should be cautious not to take more magnifying power than has been lost to the eye as in the same proportion that you pass that point of increase, will cause you further injury to the eye. Using glasses of stronger power than is necessary is the daily cause of premature old age to the sight. You can get the best at Heinsberger's.

Five Mails Short. There is no mail from the North yet. We were informed yesterday that they would get here last night, but this was an error. The roads were opened yesterday and the mails will get here to-night. There are five New York mails due now and they will probably all get here in a bunch to-night, which means unusual big work for the Post Office people.

An Eye Seriously Injured. We are sorry to hear that the little daughter of Mr. John Meier, on Eighth between Market and Princess streets, met with a serious accident yesterday afternoon. While playing she fell on a bucket and cut her eye so severely that for a time it was feared that the sight had been destroyed, but we are glad to know that the injury is not so serious as was at first feared and that the latest reports are to the effect that the sight will be saved.

More Improvements. Considerable alterations and improvements are to be made to Mr. C. W. Yates' book store on Market street. It will be made several feet wider, by taking in a part of the passage way on the East, and will be extended on a level the full depth of the building. It is to be cooled in native woods and new store fixtures will be put in. A large force is to be put at the work to-night and it is hoped, by working night and day to have it completed in two weeks. In the meantime Mr. Yates will remove to 25 Market street.

The C. F. & Y. V. Survey.

The Fayetteville *Observer* tells us that Maj. R. P. Atkinson with a full corps of engineers will commence the survey of the route between Fayetteville and Wilmington about the 20th inst. The line will run by Idaho, near Buckhorn, Clay Fork and Gravel Hill, and will cross Black River, somewhere near either Point Caswell or Beatty's Bridge, and thence to Point Peter. The survey may, however, change the route somewhat.

Fast Running. The *Weldon News* says that on the up train on the W. & W. R. R. one night recently several parties were betting on the speed at which the train was running and one bet was made by a lady to the amount of two hundred dollars that the train was running sixty miles an hour. On inquiry it was found that the train was running a mile in fifty-eight seconds. The lady won the bet. Capt. Morris was the engineer, and he knows how to run.

Mr. Smith's New Stores, &c. Ground was broken yesterday for the new building to be erected by Mr. Andrew Smith on Princess street, near Front. The structure will be of brick, three stories high, and with four handsome stores on the ground floor.

For a long time this property has remained absolutely vacant. For a few years after the war it was used as the circus ground. Dan Castello's circus, about the best that has ever been South (not excepting Barnum's big show) used to pitch its tents there.

Just at the rear end of the lot here is a good old brick house, with a tiled roof, the only one of its class and description in the city, which was pulled down to make room for the new building. This was the kitchen to the large brick residence of the late Maj. John Walker, which stood on the site of the buildings now occupied by Messrs. P. L. Bridgers & Co., Morris Bear & Bros., and A. L. derman, Flanner & Co., and fronting on Front street. There was a hill there at the time, higher than a man's head, which was cut down to the level of the street when the present handsome business structures in that locality were erected. Maj. Walker's residence was destroyed in the big fire of 1843, but the kitchen escaped. It was erected some time during the last century, probably before the Revolution.

Seacoast Railway Dots. We took a ride this forenoon with Mr. W. H. Chadburn, Jr., Chief Engineer of the Seacoast Railway, to the scene of operations near the city. The work is progressing rapidly. About two hundred hands are at work. The grading has been completed for two miles and is now at a point where it strikes what is known as the old Martindale grade, constructed by Dr. Thos. B. Carr, nearly twenty years ago, which runs out of Castle street. About two miles of this grade will be utilized, which makes four miles of grading already completed. The road runs along Tenth street and comes into Ann, from which it runs through the old Kidder brickyard property, where the first culvert is now being constructed by a force under Mr. McKeithan, who has charge of the grading. A few hundred yards beyond this point it comes into the Martin grade. This makes four miles completed out of the entire nine to be graded. The distance from the W. & W. R. R. depot to the water at Wrightsville at Capt. Manning's place is nine miles and from the mainland to the hammock it is about 5,000 yards—say one mile, which makes the entire length of the road ten miles. At the sound seven spans of the trestle work have been completed and the pile driver there is still hard at work. There is another pile driver at the hammocks which will be at work in a day or two, and the two gangs of workmen will meet in the sound.

It is probable that there will be two depots for passengers in the city limits, one at the W. & W. R. R. depot and the other at Market and Tenth streets, but this is as yet somewhat unsettled. It is not likely that the train will stop anywhere between the city and the sound and the talk now is to make the run in 30 minutes. Mr. Chadburn thinks that there is no doubt now that the road will be open and running a schedule by the first day of June.

IN MEMORIAM.

The Exercises at the Opera House Last Night in Memory of the Dead Emperor.

The Opera House was filled to overflowing last night by those who had assembled there to participate in the memorial exercises in honor of the Emperor William of Germany.

The United States flag and a portrait of King William were draped in mourning, besides other suitable stage decorations which added to the solemnity of the occasion.

The exercises were opened by a dirge by the Germania Cornet Band. This was followed by an anthem by the choir of St. Paul's Evangelical Lutheran church.

Hon. Eduard Peschau, Imperial German Consul, delivered the introductory address in German.

A solo, "Hear us, O Father," was then given by Mrs. Dr. B. Kahnweiler.

Rev. Dr. S. Mendelssohn followed by an address in German.

"Ueber den Stern ist Ruh" was sung by Miss Minnie Schwarz, after the conclusion of the Rev. Dr. Mendelssohn's discourse.

Mr. J. A. Bonitz, as Chairman of the Committee on Resolutions, presented the following, which were adopted:

WHEREAS, It has pleased God to call to Him, after a life blessed and glorious for the whole of Germany, the German Emperor, William I., King of Prussia, we the German and American citizens of Wilmington, North Carolina, and citizens of German descent, without distinction of religion or political affiliation, have come together to show our deep feeling of grief over the loss of that noble man and hero who has brought Germany to her present grandeur of power and glory.

Resolved, That in common with all Germans on this and the other side of the ocean, we can but feel unspeakable sorrow and the heavy loss which the whole German nation has sustained, in which every German heart indulges, on account of the death of Emperor William, the great chieftain who has so wisely guided the German people to glorious achievements and to many triumphs in war, and to national greatness in peace, thereby placing the German Fatherland foremost in the great councils of the nations, a position which she rightly and justly enjoys, and maintains to the peace and happiness of Europe.

Resolved, That we sympathize with overflowing heart with the Imperial family in their deep sorrow, and that a copy of these resolutions be sent through the Imperial German Consul, resident in this city, to his Highness Prince Bismarck, Chancellor of the German Empire.

J. A. BONITZ,
F. W. L. PESCHAU,
F. W. KERCHNER,
S. MENDELSSOHN,
Committee.

Mrs. D. B. Kahnweiler followed with another solo: "All Ye that Grieve."

Col. A. M. Waddell then paid a glowing tribute to the late ex-imperial Emperor of Germany.

After music by the Germania Cornet Band, Col. Wm. L. DeRosset addressed the assemblage in a few well-chosen remarks.

"Nearer My God to Thee" was then announced, in which the Germania Band and the audience participated.

Rev. F. W. E. Peschau, then delivered the closing address.

The Germania Cornet Band was present in full uniform and performed its part of the exercises, with much credit.

The Wilmington Light Infantry was also present, the company turning out in full force to do honor to the occasion.

The exercises were closed with the benediction by the Rev. F. W. E. Peschau, and the vast concourse of people left the Opera House.

St. Patrick's Day. To-morrow being St. Patrick's Day it will be celebrated by the Hibernian Benevolent Association in this city. There will be no festivities as the day falls in Lent. The members will meet at their hall on Third street and march thence in regalia to St. Thomas' Church, where an address will be delivered by Rev. Father Moore. Mr. John W. Reiley is Marshal of the Day.

Quarterly Meetings. First round of Quarterly Meetings for the Wilmington District of the Methodist E. Church, South: Garver's Creek, at Shiloh, March 18 and 19.

Supreme Court.

In this Court on Wednesday appeals from this district were disposed of as follows:

Mace vs. Commissioners of Carteret, argued by W. R. Allen and C. R. Thomas, Jr., for the plaintiff and Clement Manly for the defendant.

State vs. Freeman, from New Hanover, argued by Attorney-General for the State, and Thos. W. Strange for the defendant.

State vs. Green, from New Hanover, certiorari issued to be returned for argument at the end of the docket.

State vs. Howe, from New Hanover, argued by Attorney-General for the State, and John D. Bellamy, Jr., for the defendant.

More Light. The most essential thing to a buyer of clothing is plenty of light, so that he may see what he is buying. The immense stores of S. H. Fiebblate are the best lighted, by day or night, of any in the city. He keeps that class of goods that stand inspection with plenty of light. No Cheap John, shoddy, or moth-eaten goods in his establishment to palm off on the public. As regards Mr. Fiebblate's prices and the quality of his goods, he guarantees to give you perfect satisfaction or cheerfully refund you your money. That is the kind of a house to trade with and we advise all of our readers in want of Custom or Ready Made Tailor Made Clothing or Furnishing Goods to patronize him and you will never regret it.

NOTICED IN YESTERDAY AFTERNOON'S ISSUE OF THE DAILY REVIEW a statement to the effect that good beef is scarce in this market. THIS WAS CORRECT. It is always a difficult matter to get hold of real good beef cattle at this season. It is my business, however, to purvey to the wants in this line of my friends and patrons, and hence I have used extraordinary exertions to supply these wants. I received yesterday a fine drove of LARGE, FAT CATTLE, which were brought here by my special order. These cattle are from Sampson county, and is as pretty stall-fed beef as you will find in a day's journey by rail. They weigh from 900 to 1,300 pounds each, and are young and in splendid condition. They will be found on my stalls to-morrow and Saturday and every day hereafter. Orders received in advance and prompt delivery guaranteed.

Respectfully, J. F. GARRELL.
