THE DAILY REVIEW

VOL XII WILMINGTON, N. C., THURSDAY, MARCH 22 1888 NO 70

CONSTIPATION

It is called the "Father of Diseases," because there is no medium through which disease so often attacks the system as by the absorption of poisonous gases in the retention of decayed and effete matter in the stomach and bowels. It is caused by a Torpid Liver, not enough bile being secreted from the blood to produce Nature's own cathartic, and is generally accompanied with such results as

**Loss of Appetite,
Sick Headache,
Bad Breath, etc.**

The treatment of Constipation does not consist merely in unloading the bowels. The medicine must not only act as a purgative, but be a tonic as well, and not produce after its use greater costiveness. To secure a regular habit of body without changing the diet or disorganizing the system

"My attention, after suffering with Constipation for two or three years, was called to Simmons' Liver Regulator, and, having tried almost everything else, concluded to try it. I first took a small dose, and afterwards reduced the dose to a teaspoonful, as per directions, after each meal. I found that it did me so much good that I continued it until I took two bottles. Since then I have not experienced any difficulty. I keep it in my house and would not be without it, but have used it so far, it has never failed me."—Geo. W. Saxe, Asst. Clerk Superior Court, Bibb Co., Ga.

San Francisco policemen say that they have never seen a drunken Chinaman.

Sir William Jenner, the English court physician, is often called to Windsor to see the Queen. His visits are never mentioned in the court circulars, but are always kept secret.

Miss Paddock, daughter of United States Senator Paddock, possesses dramatic ability and longs to make her debut on the stage. Her parents are trying to curb her youthful ardor.

Two of the members of the senior class at Hillsdale, Mich., are C. H. Jackson and George A. Jackson. The former is 53 years old and the father of the latter, who is 23 years old, and both expect to graduate in June.

Judge Finletter, of Philadelphia, has signed an order to compel Keely to submit to an inspection of the Keely motor, and to explain the theories of its working to Bennett C. Wilson, one of the stockholders of the concern, and such experts as may be named. About \$5,000,000 has been invested in the motor. The stockholders are getting tired.

The Italians in Abyssinia are making war with all the latest modern improvements required by an army of 25,000 in an enemy's country. Small balloons with incandescent electric lamps are to be used for night signaling, and big balloons will hover by day over the scene of operations, communicating to the army by flags the whereabouts and movements of the foe.

It was a positive epidemic at Chicago last week, no less than eleven men and women attempting suicide, and nine of them accomplishing their purpose. Of the latter five were men and four women, while one man and one woman failed in the attempt. The means of self-destruction selected were varied. One woman and two men chose hanging, three women rat-poison, one woman fire, two men shooting, one man chloral and one man vitriol. The causes range from the desperation of the convict to that of the lover.

Hon. Alexander H. H. Stuart, now in his eighty-third year, has written a most valuable historical paper, "A Narrative of Some of the Leading Incidents Connected with the First Organized Popular Movement in Virginia in 1855, to Reestablish Peaceful Relations Between the Northern and Southern States; and of the Subsequent efforts of 'The Committee of Nine' in 1859 to Secure the Restoration of Virginia to her Position in the Union on the Basis of Universal Suffrage and Universal Amnesty." It will be published, probably, under the auspices of the Virginia Historical Society.

Few people realize the number of northern people who make Florida a winter resort. It is estimated that during the present season 60,000 Northern tourists have been taken in—of course, in the Biblical sense; and that the thrifty Floridians have received \$3,000,000 from their visitors.

Some of our people are talking about expecting 50,000 strangers to visit this city next summer.

Spirits turpentine has advanced slightly. Sales were made here to-day at 36 cents per gallon.

Notwithstanding the great down-pour of rain yesterday the street are dry to-day and the dust is flying. Such is this climate and the nature of our soil.

During the progress of the thunder storm yesterday forenoon Miss Sophie Campbell's new house, on Fourth street, near Market, was struck by lightning, but no serious damage resulted.

The cautionary cold-wave signal was hoisted to-day in accordance with instructions from Washington City, and between 12 o'clock last night and 7 o'clock this morning the temperature fell about 20 degrees.

The wind bloweth where it listeth to-day. We suppose it would be called a blizzard up in the frozen regions of the North and West. Down here it is a zephyr—a little rough, perhaps, but a zephyr still. We don't mind it a bit—when we are not out in it.

Rock Crystal Spectacles and Eyeglasses
Advice to old and young: In selecting spectacles you should be cautious not to take more magnifying power than has been lost to the eye as in the same proportion that you pass that point of increase, will cause you further injury to the eye. Using glasses of stronger power than is necessary is the daily cause of premature old age to the sight. You can get the best at Heinsberger's.

Appreciating a Good Thing.
The Maxton Union says: "The X. M. C. A. of Maxton feels grateful to the Acme Manufacturing Company, of Wilmington, for a liberal donation of straw matting for their hall. It is one of those deeds of liberality that has always characterized the gentlemen that compose that youthful though rapidly increasing enterprise, which promises to be one of the largest industries of the South. It is already making rapid strides and is growing every day in popularity, and with such a man as Mr. Wm. Latimer at its head the business is bound to achieve eminent success. And we trust it may."

Democratic Primaries.

Elections were held in the county yesterday afternoon and in the city last night, for the election of delegates to the Democratic County Convention, which is to be held in this city on Monday next, the 26th inst., and also for members of the executive committees of each ward and township, with the following result:

The following resolution, offered by J. D. Bellamy, Jr., was unanimously adopted:

WHEREAS, The Democratic voters of the Third Ward have invariably favored and advocated the nomination of a full ticket for the various county offices at each election, thereby to preserve the organization of the party; therefore, be it

Resolved, That the Democratic voters of the Third Ward, in Convention assembled, do hereby reaffirm their former declaration in this respect, and do further request the delegates now appointed to the County Convention to use their best endeavors to secure the nomination of a full Democratic County Ticket to be voted for at the approaching election.

Executive Committee—J. W. Millis, Joel Farrow, P. Cumming, G. W. Gafford, Jordan Branch.

The meeting was a large and enthusiastic one, and at its conclusion three rousing cheers were given for Lieut. Gov. Charles M. Stedman.

CAPE FEAR TOWNSHIP.
The meeting was held at Castle Hayne, and the following gentlemen were elected delegates to attend the Democratic County Convention on Monday: C. C. Bordeaux, Joe. T. Kerr, S. H. Terry. Mr. Kerr was elected chairman of the township executive committee.

HARNETT TOWNSHIP.
A meeting of the Democratic voters of Harnett township was held yesterday at noon, at Macomber's Store. Capt. E. L. Pearce was chairman and Mr. James N. Macomber secretary.
The following named gentlemen were appointed delegates to the County Convention: Messrs. W. B. McKoy, E. W. Manning, George W. Harper, James N. Macomber, and E. L. Pearce.

The Early Birds.
Lester and Allen's "Early Birds" will hold the boards at the Opera House in this city on Saturday night. They play here but the one night. It is said to be a very pleasing entertainment and the endorsements given the company by the press are very good. The Boston Globe says of them in that city:

"An immense audience greeted Lester & Allen's 'Early Birds' at the Howard Atheneum last evening. In the minstrel first part the 'birds' were perched on the tree stumps in a pretty grove. Their plumage was handsome, and they all—even the blackbirds on the ends of the semicircle—were singers. A funny sketch, in which all the 'birds' appeared, closed the first part. The specialty acts introduced clever people, whose acts were loudly praised, encores being the rule. Pretty girls, gorgeous costumes, absurd situations and sayings carried the piece, and the audience liked the fun so well that they remained till the end."

Best shoes for boys at French & Sons.

City Court.

Bettie Pigford, colored, was before the Mayor this morning, charged with disorderly conduct, but the case against her was dismissed.

James Brown, Judge Spencer, Millie Collins and Josephine Pigford, all disorderly and all colored, cases dismissed.

Edward Dixon, disorderly, \$25 or 30 days. This was tried as a State case and the defendant being unable to pay the fine, was turned over to the Sheriff and by him committed to jail.

Mr. Dickens' Readings.

Mr. Dickens had a large house at his readings in Norfolk and he should have a large and cultivated audience here on Saturday afternoon. The Ledger says of his appearance in Norfolk:

The Academy of Music was exceedingly well filled last evening, when Mr. Charles Dickens, son of the eminent novelist, gave a series of readings from the works of his father, which were received with immense favor. Several chapters from David Copperfield were read in a masterly style of elocution, and the other selections also showed that the reader was master of his art, as was his father of the pen. The occasion was a delightful one, and his visit will long be remembered here.

The Trouble on Market Street.

Col. Hall, Chief of Police, has a plan which we think will meet the difficulty on Market street, in carrying off the water during a heavy rain. It is simply to construct two short sewers, one for the Northeast corner of Market and Second streets and the other for the Southeast corner of the same, that to converge and meet at a point a short distance West of the intersection of the streets and empty into the sewer which crosses there, coming from the old Jacobs spring, where the Atlantic engine house now is, and emptying into the river at the foot of Dock street. There is plenty of pipe now on hand to construct this sewer and it could be done at a slight cost.

Consumption of Beer Here.

It would be interesting to know just how much beer is consumed in this city. The Robert Portner Brewing Company is the only one which has an agency here now and they furnish much the largest part of all that is sold here. Some bottled ale is sold in the saloons, not their brands, but this is not much, as compared with the amount they furnish. The consumption of Portner's beer here amounts to 150 barrels per week. Each barrel holds about 32 gallons and therefore we may say that 4,800 gallons a week, or 20,000 gallons a month, or 250,000 gallons of beer a year, is consumed here. Beer seems to be gradually elbowing whiskey out of the field.

At the Tabernacle.

The meetings at the Tabernacle continue to be largely attended. The number present last night is estimated as not far short of 3,000 souls. Mr. Pearson's sermon on that occasion is thought by many to have been the most eloquent and effective he has yet preached. There were 15 professions of religion last night. This forenoon there was another congregation—large for a day service. Some 800 or 1,000 are thought to have been present.

Another Outrage.

We hear of another outrage perpetrated on a white child. This time it is little Louise, daughter of Mr. Jas. W. King, who while on her way to school this morning was run against and knocked down by several young scoundrels, all of whom are colored. As the little girl fell her head came in contact with a stone and a bad gash was cut in it. Some effective measures should be adopted to put an end, at once and forever, to this business.
