Entered at the Postoffice at Wilmington, N.C. as second-class matter.

New York society is agreeably excited over the belief that the President and Mrs. Cleveland will come there and attend the unique and ultra - fashionable entertainment styled "Fashing Thursday in Ve nice," which is to cover a period of two days in the Metropolitan Opera House, Mrs. Chauncey M. Depew, chairman of the Committee of Arrangements, has sent a personal invitation to the President and his wife, and it is understood that a special train will bring the distinguished guests to New York City on April 10th. 'The managers of "Fashing Thursday" promise that it will be the most elegant entertainment vet given in New York. Some idea of the degree of elegance may be gleaned from the statement that about \$100,000 is to be expended by the individual participants for costumes, stage furniture and personal son left you last night I thought adormnent.

The Washington correspondent of the New York Herald says: "It is not improbable that PresidentCleveland may, at an early day, send a special message to Congress asking the passage of a bill to form a commission whose duty it shall be to revise and codify the present pensions laws. This commission will consist of five gentlemen, and none of them shall be members of either branch of Congress. They will be ready to report the result of their labors in December next. This, in brief, is an outline of a proposition that has been made to the President and in which he has evinced the liveliest interest. For some time past he has felt that the inequalities in the penaway; that certain pensions ought to be increased and certain others decreased, according to the merit of the pensioner. It has been represented to him that such a revision of the law would redound greatly to the credit of his Administration, and those who have interested themselves in the matter believe that the suggestion will be speedily acted

If the coming of Spring is all that has been waited for by Russia before developing her Balkan policy its disclosure cannot be far off. Perhaps a first stèp in this development may be traced in the reported request made of other powers to withdraw their diplomatic representatives from Bulgaria because the principality has refused to reply to Turkey's note declaring that Prince Ferdinand's assumption of power is illegal. But Russia has several times before made requests on this subject which the other powers found them. selves unable to grant. In one recent instance she wished England t . join in declaring that Prince Ferdinand must "go," but England very judiciously declined to do so until the powers should first agree who was to come in Ferdinand's place. Illegality is bad enough, but anarchy may be worse. Bulgaria, on her part, has now found questions to ask, one of them being why Turkey is putting troops in the town of Mustapha Pasha. This latter is directly on the border of Eastern Roumelia, and the presence of Turkish troops there seems to point to more activity in the Balkan problem with the opening of Spring.

The New York Herald reports that on Tuesday last the Sugar Trust declared a dividend of 21 per cent, for the first five months of its existence. This is a dividend upon a certificate capital of \$45,000,000, and as this certificate capital represents an actual investment of about \$15,000,000, the dividend declared indicates an annual rate of at least 18 per cent, upon the last named sum. The advance in the price of refined sugar since the Trust was formed shows that the Trust's profits surely have not been less than the \$1,125,-000 divided on Tuesday. On October 1st the quoted price of cut loaf and crushed sugars was 6 7-16 cents, and it is now 73-an advance of 15-16 cents. The quoted price of granulated is i of a cent higher than it was on that date. And while the Trust is getting higher prices for its product, it has actually reduced the price of its raw material, for the prices of fair refining and centrifugal sugars are lower now than they were when the Trust began its work. An extra profit of one cent. a pound on three-quarters of the sugar consumed in this country is more than \$23,000,000 a year. Probably the Trust will increase its dividends by and by, after Congress shall have

adjourned.

Our farmers will rejoice to learn that it has at last been decided that bees do not injure grapes, that neg-lectedcolds do unspeakable injury, and that no better remedy can be secured than Dr. Bull's Cough Syrup.

Of course we don't want anybody to go to war on our account, but if the nations of Enrope are determined to have it out in that way with each other, we would like to call their attention to the fact that we have a large and carefully selected stock of bread-stuffs on hand, which we will take great pleasure in selling at our own prices. It is a Curious Fact

That the body is now more suscepti ble to benefit from medicine than at any other season. Hence the importance of taking Hood's Sarsaparilla now, when it will do you the most good. It is really wonderful for purifying and enriching the blood, creating an appetite, and giving a healthy tone to the whole syssion laws ought to be smoothed tem. Be sure to get Hood's Sarsaparilla, which is peculiar to itself.

March April May

At no other season is the body so much in need of, or so susceptible to the benefit to be derived from Hood's Sarsaparilla, as now. The impoverished condition of the blood, the weakening effects of the long, cold winter, the lost appetite, and that tired feeling, all make a good spring medicine absolutely necessary. Try Hood's Sarsaparilla and you will be convinced that it is the ideal spring medicine.

SCROFULA

BONE GURED!

LITHONIA, Ga., August 11, 1887. The Swift Specific Co., Atlanta, Ga.:

Gentlemen—I have been afflicted with ulceration of the legs ever since I was a child, the disease undoubtedly being hereditary, as my mother suffered from scrofulous symptoms. As I advanced to manhood my affliction increased until the malady became harrassing and painful beyond the power of words to describe. My right leg particularly became fearfully involved, the left leg being less pain fully affected. Finally, about fourteen years ago, the ulcers on my right leg had eaten through the flesh into the bone. In order to save my life the doctors determined to amputate my leg below the knee. The operation was successfully performed by Dr. H. V. M. Miller, of Atlanta, and Dr. W. P. Bond, of Lithonia. But the loss of my leg gave me only temporary re-lief. The poison was still in my system and soon began to show itself again. In a short time after large ulce rs appeared on my left leg, covering it from the knee to the instep. Frequently while at work I could be tracked by the blood wilch oozed from the huge ulcers, and the sores and rottening holes were so offensive that my fellow-workmen could not stand the stench and would move

away from me.

Last winter I was persuaded to try S. S. S.
As a last effort I consented to do so, and As a last effort I consented to do so, and about seven months ago I began taking the specific. I soon began to feel the good effects of the medicine, the offensive running began to grow less and less and finally ceased, the ulcers healed, my flesh became firm and solid, and to day, after using twenty one bottles, I am as hale and stout a man of my age as there is in Ge orgia. I am seventy one years old, but feel now younger and stronger than I did when I was twenty-five. I weigh about 170 pounds. Nothing is to be seen of the terrible disease, or to remind me of the torture I suffered for so many years, except the sears of the perfectly healed ulcers.

I want the world to know of the almost miragulous cure effected on me by \$8.8. miraculous cure effected on me by S. S. S. and I call upon those who wish to know the particulars directly from me to write, and I will consider it a pleasure as well as a tinty to answer their letters. I refer to Dr. W. P. Bond, of Lithonia, as to the truth of my statement.

Very gratefully yours,

B. Drake.
