A new stock company, to be known as the New York and New Jersey Power Company, has been recently organized with \$3, 000,000 capital, to manufacture, sell and rent boilers and power machinery, and to supply heat and refrige- it had upon the tide, but that it had 12th District, James M. Several engines have been cript. performing actual work continually for several weeks. The results of observation show that about one half of the coal needed for steam generation is sufficient to give the same power with ammonia. It is claimed by the inventor that all engines, stationary, marine and locomotive, can be adapted to the new power.

The report of the committee on temperance in the Methodist Conference at Newburg, N. Y., caused one of the most exciting scenes ever witnessed in a Conference. The committee report strongly favored the third party. Its first resolution was in favor of repealing all leg slative action respecting licenses and denounced high license as a fraud. Another resolution bound every member of the Conference to vote only the Prohibition ticket. Another called upon the Legislature to enact a local option bill. A dozen members were on their feet at once. Prof. Crooks, of Drew Seminary, denounced the resolution as a bid for the free and anrestricted sale of liquor. J. Rheyth Thompson, of New York, said he would permit no Conference to tell him how he should vote. The scene was a wild one. Members stood on the floor and applauded the remarks of the speakers. Much feeling was manifested, and finally the report was commit ted for further consideration. On the 15th of July next a series of public services will begin at Marietta, Ohio, in commemoration of the establishment of the first civil government of the Northwest Territory a hundred years before. On the 7th of April, 1788, a band of surveyors and others from New England, under the leadership of Gen. Putnam, landed at the present site of Marietta to prepare the way for the colonists that were to establish themselves there under the auspices of the Ohio company. These colonists were composed of soldiers of the Revolution, to whom the Conti- you cannot enjoy good health. nental Congress had granted lands in the then wild region of the North. west Territory, part of which had originally been claimed to Virginia, but was ceded by her to the Federal Government, and became thenceforward public domain. That part of the Territory known as the Western Reserve was claimed by Connec ticut, and Massachusetts and New York also had set up claims under several grants, but they all united in transferring to the Federal Government whatever rights they may have had, and under the ordinance of 1787, a civil government was established for the Territory northwest of the Ohio river, and Gen. Ar thur St. Clair appointed the first Governor in July, 1788. In December of the same year a settlement was made on the present site of Cin-

HOPKINSVILLE, KY., Feb. 24, 1887. Gentlemen-Seven years ago a sore devel-oped on my nose from a finger nail scratch. I tried a few simple remedies, but the sore would not yield. I grew worse every year for seven years. Many thought I had a can-cer. Over a year ago I commenced taking S. S., and two dozen bottles entirely cured me. When I began with Swift's Specific I was in very poor health, and could hardly drag about. After I had finished the course of S. S. S. I was strong and buoyant, and had a good appetite. I regard it as a most had a good appetite. I regard it as a most valuable medicine for ladies in weak, dell-cate health. It is a household medicine with me. Yours respectfully. Mns. R. W. WILSON.

SPARTANBURG, S. C., April 2, 1887.

Gentlemen-For twenty years I have had a sore on my left cheek. It had gradually been growing worse. The many physicians whom I had consulted were unable to do me any good. Last fall a year ago I began using S. S. S. At first it inflamed the sore, using S. S. S. At first it inflamed the sore, and it became more virulent than ever; so much so, indeed, that my family insisted that I should leave off the medicine. I per-sisted in using the S. S. At the end of two months the sore was entirely healed. Think-ing that the evil was out of my constitution, I left off the medicine; but in November, ten months after, a very slight breaking out appeared. I at once began again on S. S. S., and now that is also disappearing. I have every faith in S. S. S. It has done me more good than all the doctors and other medi-cines I ever took. Yours truly, A. R. SHANDS. WINSTON N. C. April 12, 1887.

A. R. SHANDS. WINSTON, N. C., April 12, 1987. Gentlemen—Two or three years ago a can-cer came on my face. It soon grew to be quite large. It wore on me, and my general health was very poor. Last September I began a course of S. S. S., which I have con-tinued to the present time with the happlest result. The cancer has entirely disappeared, there being no evidence or symptom of a cancerous character left. My general health is good now, and my appetite better than it has been in years. I am 82 years old, and to day I am working in the field planting corn. Yours truly, JONAS LIMEBACH. Gentlemen—I had a sore on my upper lip corn. Yours truly, JONAS LIMEBACH. Gentlemen—I had a sore on my upper lip for eight years. Seven different doctors at-tempted in vain to heal it. One gave me a small vial for five dollars, which was a "cer-tain cure." It is needless to say that it did me no good. About two years ago I became quite uneasy, as people thought I had a can-cer, and I took a course of eighteen bottles of S. S. S. The result has been a complete cure. The ulcer or cancer healed beautiful-ly, leaving scarcely a perceptible scar. From cure. The dicer of cancer healed beautiful-ly, leaving scarcely a perceptible scar. From that day I have been in excellent health, the Specific having purified my blood thorough-ly, increased my appetite and perfected my digestion. In a word, I feel like a new woman, and, best of all, the eight year ulcer is gone entirely. Yours sincerely, Mrs. W. P. Cannon. Trenton, Todd Co., Ky., Feb. 25, 1887.
