WILMINGTON, N. C.

FRIDAY, APRIL 13, 1888. Entered at the Postoffice at Wilmington, N.C. as second-class matter.

A company has been organized at Jucksonville, Fla., for developing the silk industry of that State on an extensive scale. The movement results from an exhibit made by one individual at the Sub-Tropical Exhibition. Three hundred acres are to be planted in mulberry trees near Jacksonville, New York capitalists having subscribed \$50,000 to the enerprise. The work of planting out the trees will begin in a few weeks. The factory for the reeling, spinning and weaving of the silk will be located in Jacksonville, and all the busi ness after the production of the raw silk will be carried on in that city.

Impecunious immigrants are now being stopped daily at Castle Garden and returned home at the expense of the steamship companies who bring them. A new schedule of questions has recently been intro duced in the landing department, the arriving immigrants being obliged to state on oath who has paid their passage, what is their present financial condition, whether they have ever been convicted of crime, have ever been in a prison or alms with disease or infirmity that hindered them earning a living. It is brought out here by the false representations of steamship runners on the other side, the runners promising them plenty of work on their arrival in New York. The commis sioners want to stop this.

In London there are comparatively few avenues of selfsupport open to women, and there are not nearly men enough to go around. The result is a scramble for husbands which is unpleasant if not immoral. A man is petted till he is spoiled. Girls are flung at his head till he is disgusted."

Reports of rich gold discoveries in Lower California have created much excitement in San Diego, and prospecting parties have been fitted out and gone to the scene. A number of experts have been in the Lower California gold fields, and have brought back to their employers quiet reports of rich discoveries. An expert who has been in the San Rafael Valley states that in travelling over the Sierra Madre Mountains he discovered a tract thirty miles in length and twenty miles wide, which formed one large body of mineral ground. There are hundreds of veins, he says, averaging from three to thirty feet in width, principally composed of free gold in white quartz, which is easily worked and assays from \$300 to \$2,200 per ton. The placer grounds are reported to cover thousands of acres, and are said to be rich in gold dust and nuggets. The mountains contain several natural reservoirs and several streams of water which have a fall of from 1,500 to 2,500 feet, making the locality available for hydraulic mining. Other discoveries have been made besides the one alluded to and in every case the supply of water is reported to be good, and all the conditions favorable for extensive mining operations.

Disease fast-ned its clutches upon her and for seven years she withstood its severests tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved.

ITS SCOPE.—THE AMERICAN MAGA-ZINE gives preference to national topics and scenes, and its literature and art are of the highest standard. At no other season is the body so much in need of, or so susceptible to the benefit to be derived from Hood's Sarsaparilla, as now. The impoverished condition of the blood, the weakening effects of the long, cold winter, the lost appetite, and that tired feeling, all make good spring medicine absolutely necessary. We can give so much for the money? Thousands say this in their letters. It is because after plates are made it costs far less proportionately to print 150,000 copies than 100,000. During its nearly fifty years' existence the

has absorbed twenty-four other agricultural reriodicals, and continues to be the recognized authority on agricultural matters the world over. With the old staff of editors who have made it a power in both hemispheres, reinforced with new writers. it will be more valuable during 1888 than ever. Each number now contains one hundred original illustrations and original articles on the Farm, Garden, Hearth and Household, from over fifty different writers. Price, \$1.50 a year; single No., 15c.

These magnificent works of art are neither old time chromos nor ordinary engravings, but exquisite pictures executed for us by Photoetching and Mezzograveure process, on heavy plate paper, 22x28 inches. # THE INCURABLE **GURED!**

Hopkinsville, Ky., Feb. 24, 1887. Gentlemen—Seven years ago a sore developed on my nose from a finger nail scratch I tried a few simple remedies, but the sore would not yield. I grew worse every year for seven years. Many thought I had a cancer. Over a year ago I commenced taking S. S., and two dozen bottles entirely cured me. When I began with Swift's Specific I was in very poor health, and could hardly drag about. After I had finished the course of S. S. S. I was strong and buoyant, and had a greed appetite. I regard it as a most had a good appetite. I regard it as a most valuable medicine for ladies in weak, deli-cate health. It is a household medicine Yours respectfully, MRS. R. W. WILSON.

SPARTANBURG, S. C., April 2, 1887.

Gentlemen—For twenty years I have had a sore on my left cheek. It had gradually been growing worse. The many physicians whom I had consulted were unable to do me any good. Last fall a year ago I began using S. S. S. At first it inflamed the sore, and it became more virulent than ever so. and it became more virulent than ever; so much so, indeed, that my family insisted that I should leave off the medicine. I per-sisted in using the S. S. S. At the end of two nonths the sore was entirely healed. Think ing that the evil was out of my constitution I left off the medicine; but in November, ten months after, a very slight breaking out appeared. I at once began again on S. S. S., and now that is also disappearing. I have every faith in S. S. S. It has done me more good than all the doctors and other medi-cines I ever took. Yours truly, A. R. SHANDS.

WINSTON, N. C., April 12, 1887. Gentlemen-Two or three years ago a caneer came on my face. It soon grew to be quite large. It wore on me, and my general health was very poor. Last September I began a course of S. S. S., which I have continued to the present time with the happies result. The cancer has entirely disappeared there being no evidence or symptom of a cancerous character left. My general health is good now, and my appetite better than it has been in years. I am 82 years old, and to-day I am working in the field planting corn. Yours truly. corn. Yours truly,

Gentlemen—I had a sore on my upper lip for eight years. Seven different doctors at-tempted in vain to heal it. One gave me a small vial for five dollars, which was a "certain cure." It is needless to say that it did me no good. About two years ago I became quite uneasy, as people thought I had a can-cer, and I took a course of eighteen bottles of S. S. S. The result has been a complete cure. The ulcer or cancer healed beautifully, leaving scarcely a perceptible scar. From that day I have been in excellent health, the Specific having purified my blood thoroughly, increased my appetite and perfected my digestion. In a word, I feel like a new woman, and, best of all, the eight year ulcer is gone entirely. Yours sincerely is gone entirely. Yours sincerely, MRS. W. P. CANNON.
