The Daily Review.

JOSH. T. JAMES, Editor & Prop'r. WILMINGTON, N. C.

MONDAY, MAY 21, 1888.

Entered at the Postoffice at Wilmington, N.C. as second-class matter.

Edwin Gould, Jay Gould's second son, has, it is said, purchased a seat in the New York Stock Exchange for \$20,000 and will, in a few days, go before the governing committee for examination as to his qualifications. Drug Store. Young "Eddie" Gould, as he is familiarly called, is about 22 years old, but has already earned for himself a reputation as a shrewd operator. It was said of him last summer that while his father was giving out bull points on the market this youth was "coppering" them by selling the market short, and that by so doing he made a considerable sum of money on his own account. Edwin Gould is tall and slender, with very dark hair and keen black eyes. His complexion is dark and he wears a small jet black mustache. His elder brother, George J., has been a member of the Exchange since 1885.

The New York Sun says: "Many of the delegates to the Methodist Convention say that life in a New York hotel is tedious to them, and that the rush of 'Fronts' and the clanging of gongs have greatly wearied them. In some instances the nervous temperament of the delegates has been somewhat impaired. These are the men whose days are spent in quiet villages, where life is as placid as the neighboring ponds Between their quiet and peaceful homes and the smashing and clashing and bauging and rushing of some of New York's great hotels there is a vast difference. They have also commented on the fact that about half of New York, particularly in the vicinity of Madison square, doesn't begin to get its eyes open before midnight, and that the situation is much after the fashion of the young man who at 3 o'clock in the morning inquired of his friends where they intended spending the rest of the evening."

Pierre Lorillard, in a recent inter view on the general subject of bet ting, announced that he was in hear ty sympathy with the officers of the American Jockey Club in their determination to rid the turf, or at least Jerome Park, of bookmaking as a system of betting. "The bookmakers," he said, "as a class, rob the public and owners, inasmuch as they take a million dollars a year from them in the way of profits. They are but middle men, and as such are not wanted. To insure their schemes they bribe jockeys and trainers, and steal stable secrets by employing the most corrupt of men to inveigle and bribe boys into telling what they know of work done and trials run. They make flots to run false races, and to run horses for no other purpose than to inter fere with and prevent horses winning which they (the bookmakers) may have laid heavily against. Pools are really the only equitable system. The public can make their own odds. Of course it will prevent plunging to any great extent. It is doubtful if anybody will ever be able to win \$50,000 on a race in the auction on mutuals. It is the best for the turf that they should not."

The Electric Age, in its forthcomng issue, will say: "Contrary to the general impression that there is on ly an electrical railroad here and there, an examination of electrical railroad statistics shows that there are already 130 miles of road in operation on this continent. Of this number, 21 miles are in operation in Pennsylvania, 16 miles in New York, 10 in Ohio, and 83 miles im New Jersey, Maryland, Colorado, Michigan, Missouri, California, Alabama, Virginia, Kansas, Delaware, Rhode Is land and Ontario combined. Almost all of this building has been done in the past year. There are in course of construction, or contracted for, Pennsylvania, Nebraska, Kentucky and Minnesota. On these various roads, constructed and constructing in 62 different towns and cities, the Van Doepoele system is used, or to be used, in 17 cases, the Daft system in 15 cases, the Sprague system in 7 cases, and the Bentley-Knight, the Heart, the Henry, the Julien, and other systems in the remaining cases. The last named system is to be used on the projected New York and Harlem Fourth Avenue Electrical Bailroad, while the Daft system'is in use at Los Angeles, where the first electrical railroad was opened for

A Horrible Inheritance

The transmission of the fearful effects of contagious blood poison is certainly the most horrible inheritance which any man can leave to his innocent posterity. . The curse contained in the Scriptural declaration: "The sins of the fathers shall be visited upon the children unto the third and fourth generation," can be certainly mitigated, and in the majority of cases, prevented, by the use of the antidote to the contagious blood poison which Nature herself furnishes, and which is to be found in its native purity and infallible efficacy in the remedy known all over the world as Swift's Specific - commonly called "S. S. S." As illustrative of this fact we give the following evidence—they are test cases, taken at random from hundreds of ethers of similar character:

Mr. J. H. Brown, of Hornellsville, N. Y., wates: Three years I suffered with this horwible disease. Swift's Specific cured me com-

Prof. Edwin Baar, 234 E. Twenty-second street, New York, writes: Swift's Specific cured me of a fearful case of Blood Poison. Dr. B. F. Wingfield, of the Soldier's Home, Richmond, Va., writes: Swift's Specific cured me of a severe case of Blood Poison.

D. W. K. Briggs, Brooklyn, N. Y. : I was a perfect wreck from Blood Poison. Specific restored health and hope, and I am well to-

C. W. Langhill, Savannah, Ga.: I have suffered a long time with Blood Poison. I tried Swift's Specific and am now a perfectly well man.

A. W. Buell, of Power's Hotel, Rochester, N. Y., writes: It is the best blood remedy on earth. I cured myself with it. I recommended it to a friend of mine, a well know business

man, and it made him well. Mr. F. L. Stanton, editor of the Smithville, Ga., News, writes that a friend of his was afflicted with a severe case of Blood Poison, and that two bottles of S. S. S. effected a complete cure. He tried every other remedy

Mr. J. R. Kellogg, Stamford, Conn., writes, December 16, 1887: Your S. S. S. is doing for me what ought to have been done long ago. It has done me more good in one week than all the medicines I have ever taken. Would ! had gotten it before! But "all's well that ends well." It will make a new man of me, and I thank God that I have found it at last! Treatise on Blood and Skin Diseases malled THE SWIFT SPECIFIC CO., Drawer 3, Atlanta, Ga.
