The New York Produce Exchange is excited over the discovery that the trunk lines are sending flour, grain Chicago to London and Antwerp at rates much under the rates to New York. Freight which was charged 35 cents per 100 pounds for carriage from Chicago to New York when consigned to New York parties, was carried for 19 cents when consigned I for lighterage in New York, so that

want stopped, for the reason that

under it the export business of New

York is falling off. The Louisiana Historical Society has been reorganized under very promising circumstances. The so-Hon. Charles Gayarre, the historian, for the writing of the history of the State from 1860 to the present day. New life has been given to the society, and the indications are that the work will soon be commenced. The society is by law custodian of a mass of valuable historical documents, which will be given to Mr. Gayarre for examination and use. The prime object of this move is to give Judge Gayarre, now in his 85th year, a means of earning a livelihood with his able and interesting pen, no po litical preferment being open to him, and he being in an impecunious con

The Southern Society of New York city has determined to build a handsome club house. The Tribune says: 'The amount of money to be spent on the building and fixtures was not finally decided upon. The feeling, however, among the members is that the total cost will be about \$100,000; half of which will be raised by bonds and half by a mortgage. Club features will be entirely excluded, the object being to establish a society something on the line of the New York Historical Society. The present membership numbers between four and five hundred, and it is expected that this will be more than doubled when a permanent home is secured. A number of men now living in the South, who make periodical trips to this city, have expressed a wish to join the Society when such a meeting place is provided, where they may meet old friends and acquaintances."

For the first time in the history of the country a State is about to elect two United States Senators, each of whom will be given a full six years' term. When the original States first elected Senators, each Legislature chose two men, but the Constitution provided that "immediately after they shall be assembled, in consequence of 'the first election, they shall be divided, as equally as may, into three classes, the term of one class expiring in two years, the second in four, and the third in six, so that one-third of the body should be chosen every second year. Thus New York elected Rufus King and Philip Schuyler, but Schuyler fell into the first class, so that his |term| expired in two years. In like manner, when Colorado came into the Union in 1877, Chaffee dropped into the first class, with only two years to serve, while Teller was allotted to the six years' class. Of course, after the terms for each State have thus been fixed at the outset, each successor to a Senator of any class is chombia Law students, at Yale, Wellesley, sen for six years. Even if a Legislature meets only once in two years, it can never happen that it will have to choose more than one Senator in the natural course of things (death or resignation excepted,) since the term of his colleague will not expire Sea Wonders exist in thousands until after the next Legislature has been chosen. Louisiana, however, are in need of profitable work that can be done by the ne . Constitution adopted in while living at home should at once send their difference to Hallett & Co., Portland, Maine, and 1879, gave the Legislature a four upwards wherever they live. You are started pens that the body chosen last month must choose not only a Senator for the term beginning in March 1889, but also one for the term be ginning in March, 1891. Mr. Gibson. whose term expires next year, easily secured the cancus nomination for re-election, but there seems likely to be a hard contest over the oth- Pain and Inflam-

It is a Curious Fact

That the body is now more susceptible to benefit from medicine than at any other season. Hence the importance of taking Hood's Sarsapar-illa now, when it will do you the most good. It is really wonderful for purifying and enriching the blood, creating an appetite, and giv-ing a healthy tone to the whole sys-tem. Be sure to get Hood's Sarsa-parilla which is peculiar to itself.

A Woman's Discovery. "Another wonderful discovery has been made and that two by a lady in this county. Disease fast-ned its clutches upen her and for seven years she withstood its severests tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discretary of the property of the pro Consumption and was so much relieved aculously cured. The Little Prince and the Grenadiers.

An old soldier contributes to the Potsdam (Germany) Zeitung" this story: "One morning in May, 1859, then serving in the 1st Regiment to steamship companies. Of this 19 of Foot Guards, was marching with cents 3 were paid by the railroads my comrades along the road between Sans Souci and the Orangegebaude toward the village of Eiche. ad it. VON GRAEF TROCHER CO., Free carriage to New York. This is diserimination which the New Yorkers palace into the road when the crown prince and his family appeared in sight; little Prince Wilhelm in a panier on a donkey led by a nurse, the crown prince and princess arm in arm about twenty yards behind him. When the erown prince perceived us, he called out Liebanau, let your company halt a moment.' Then he stepped up to ciety proposes to contract with the the donkey, lifted the little prince out of his panier and came toward 'Good morning, kinder,' said the crown prince to us, and we shouted back in unison: "Good morning, your royal highness.' want just to show you my little son, and he made the little prince shake hands with his tiny fist with every grenadier. The crown princess stood by smiling, watching the scene. When we had all been shaken hands with the crown prince again wished us 'Good morning,' and continued his walk; we went on in capital spirits to our field duties. Second Lieutenant Von Liebanau. who was then in command of our toct. 22d. company, is now well known as court chamberlain to Prince Wilhelm. Only a man, who in his soldier days had been an actor in a scene like that, can feel how a bond is formed thereby between prince and people which nothing but death can break."

March April

At no other season is the body so much in need of, or so susceptible to the benefit to be derived from Hood's Sarsaparilla, as now. The impoverished condition of the blood, the weakening effects of the long, cold winter, the lost appetite, and that tired feeling, all make a good spring medicine absolutely necessary. Try Hood's Sarsaparilla and you will be convinced that it is the ideal spring medicine.

The transmission of the fearful effects of contagious blood poison is certainly the most horrible inheritance which any nran can leave to his innocent posterity. The curse contained in the Scriptural declaration: "The sins of the fathers shall be visited upon the children unto the third and fourth generation," can be certainly mitigated, and in the majority of cases, prevented, by the use of the antidote to the contagious blood poison which Nature herself furnishes, and which is to be found in its native purity and infallible efficacy in the remedy known all over the world as Swift's Specific - commonly called "S. S. S." As illustrative of this fact we give the following evidence—they are test cases, taken at random from hundreds of others of similar character:
