

ROYAL
BAKING
POWDER
Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low cost, short weight adulterated or phosphate powders. Sold only in cans. **ROYAL BAKING POWDER CO.**, 106 Wall St., N. Y.

The Daily Review.
MONDAY, JUNE 18, 1888.

A Card from Engineer Beery.

MR. EDITOR:—Give credit to whom credit is due, which I was glad to see that you did in your valuable paper in Saturday's issue in regard to the fire last Thursday night and which I will always hope that you will continue to do as you have always done heretofore.

In reply to what "Justice" says it is true that I saw the fire when it first started and it was no more than my duty to have the engine and reel in readiness in case of an emergency but however we did not leave the house until the alarm came in. "Justice" forgot to say that the Atlantic Company heard the alarm and also down street and that they had their reel in readiness but for some cause their driver was not at his duty when the alarm was sounded.

I want it particularly understood that it is false when "Justice" says that the water was turned on the Adrian hose before the pipe was put in its place. My engine arrived on the scene just in time for me to get off and have the water turned on when the hose was laid, which I did, and the Atlantic reel at that time had just stopped at the corner of Front and Princess streets, while I claim that it took that company at least two minutes for them to lay their hose in the place where they had to put them and in all of that time the Adrian was throwing water through their hose, which was not shut off until I had my engine driven up to the plug to have it connected.

The Adrian engine has also the honor of throwing the first stream of water, and also of throwing the first two streams of water, which was the only engine that threw two streams that night on the fire.

"Justice" says also the Atlantic company did the most effective work at the fire. I cannot comprehend on what grounds "Justice" takes his stand-point. Everybody knows that one of the Adrian company's best members got very severely hurt and probably injured for life, while doing fireman's duty that night, and by whom and how did it happen? If I am not mistaken it was by being knocked off the roof of the building by the Atlantic company's stream. In my estimation and in that also of a great many others it was done out of pure carelessness, and yet "Justice" claims that the Atlantic company did the best and most effective work, as he expresses it through the columns of the Review. I think that they did do the most effective work. That night's work will be long remembered by some of the members of the Howard Relief Fire Engine Company.

Engineer H. R. F. E. Co.

Sucklen's Arnica Salve.

For sale by Wm. H. Green.

LOCAL NEWS.

There were three church excursions from the city this morning, one to Carolina Beach, one farther down the river and one to the Sound.

The word "hammock" as applied to the place of terminus of the Seaside Railway is incorrect. It is "hammock" or "hommock" but the first name as more generally used.

A meeting of young men is to be held this evening at Volders Hall, to organize a Young Men's Democratic Association.

The steamer *Sylvan Grove* will give a moonlight excursion, the first of the season, to Carolina Beach tomorrow night.

Several places in the business portion of this city which have been in a very bad condition in a sanitary point of view, for years, are now in an excellent condition. These places have been eye sores for years.

Another lot of those celebrated Oil Stoves just received at Jacobi's Edw. Depot. It will pay you to use one.

Another one of those popular dime excursions will be given on the *Passport* to-morrow night.

Yesterday's rain was a good scavenger. It has washed the filth out of the alley-ways.

Stokley's Hotel at Wrightsville is now open for the season. The best of everything on the seashore can be had there. It is a well kept house and has attained an enviable reputation. See ad. in this issue.

The Firemen's Committee, having in charge the matter of arranging for the proposed firemen's tournament to be held in this city in July, will hold a meeting at the Hook & Ladder Hall, on Dock street, at 8:30 o'clock this evening.

The annual statement of the National Life and Maturity Association, of Washington, D. C., is published in this issue. It is a splendid showing. The total assets are \$302,771.33, and the liabilities are naught. The company is well-managed, and is steadily gaining ground everywhere in North Carolina.

Mr. Thos. W. Strange, a delegate to the St. Louis Convention, has returned to the city. He will leave here again next Monday, for Washington City, as he is one of the committee appointed to wait on President Cleveland on the 26th to formally notify him of his nomination.

Die Kaiser-Feier.
Our German fellow citizens, who had at first proposed to hold Memorial Exercises in memory of the late Emperor of Germany, Frederick III, have postponed the exercises until Wednesday night. They will be held in Luther Memorial Building at 8 p. m., Wednesday, June 20th.

A Fracture of the Thigh.
We regret very much to hear of the painful accident sustained by Mr. H. Dudley Burkholder, a mail agent on the road between this city and Washington. It was on Saturday last on the train about 9 miles north of Richmond. The mail train ran into a freight and Mr. Burkholder jumped from the car. His right leg was broken above the knee. He was brought on to this city and is here now and we are glad to say that he is as comfortable to-day as one in his situation can well be.

To Hang on Wednesday.
On Wednesday next Stephen Free man, the convicted rapist, is to be hung, unless Executive clemency should intervene at the last moment. To hang this man will, we think, be a grave error. Public sentiment is worth something, even in the face of a judicial ruling, and public sentiment here is to the effect that this man should not be hung for this crime, even if he is really guilty, of which there are serious doubts. This sentiment is based upon the previous history and character of the woman, as developed at the trial. It is still hoped, even at this late hour, that the sentence may be commuted to imprisonment for life.

Our Toast.
We rise here to propose the health of a gentleman whom the people of Wilmington will always delight to honor; one who is a native of the place and who is bound to our good old town with bands of steel, reaching from the city to the sea; who is foremost in every good word and work whereby the place of his nativity is to be benefited; who needs no incentive other than love for his native soil to forward every worthy scheme for the advancement of the interests of Wilmington; who now sees the hope of years fulfilled in the completion of an enterprise to whose success he has so largely contributed. Need it be said that we refer to Mr. William Latimer, President of the Wilmington & Seacoast Railway? Long may he live to enjoy the fruit of his labors and the esteem and respect of the people of his native town.

Improvements at the Beach.
On Saturday last, for the first time this season, we (the Editor) paid a visit to Carolina Beach. It was really with difficulty that we recognized it, so many and so great have been the changes since last season. Passengers land now directly at the hotel, instead of at the pavilion, as formerly. This building (the hotel) has been enlarged and greatly improved. It is open, front and rear, and the health-giving breezes of the ocean have full play in every part. In front is a broad piazza a hundred feet in length, where one can sit in coolness and comfort and look out at the great Atlantic, whose waves wash its shores within a few score feet of where he sits. This hotel is the coolest, coziest and most comfortable spot we have yet to find on the North Carolina coast.

Among the many changes which have been made at the Beach are

bath houses, for gentlemen on one side and for ladies on the other; a building which is devoted entirely to the use of ladies and children, free of charge, and to which none of the male sex are admitted; a large pavilion for dancing and picnic parties, cottages, private rooms for gentlemen, and last, but by no means least, a plentiful supply of good cool, fresh water, obtained from a distance of 50 feet under ground, and which is carried through pipes into every building on the place.

Corner Market and Front

Hedrick's

FOR THE SPRING AND Summer trade I am offering the most attractive stock of

DRY GOODS

to be found in this city. Selected expressly for city retail trade, by the most experienced buyer, who, with an eye single to the needs of his customers, who are proverbially the most tasteful ladies in the city, and at the same time to meet the views of the most economical in prices, has in the most triumphant manner succeeded in making the Store on the Corner the "Talk of the Town," where can be found a magnificent stock of Spring and Summer Dress Goods, in all the leading and most desirable styles, among which are many excellent bargains in the various new shades of Albatross, Nun's Veiling, Printed Challis, Beiges, French and American Satines, Gingham, Lawns and Printed India Linens. Our stock of

WHITE Goods

surpasses that of any former season in variety, cheapness and elegance. We have beautifully embroidered Skirts on Batiste and India Linen with Flouncings, Edgings and Yoking to match. Embroidered Marseilles Robes in Patterns for Ladies and Children, plain White Lawns, India Linens, Linon d'Irlande and Batistelaire at prices from Five Cents per yard to the finest imported. Plaid and Striped Lawns, Nainsook and Mull, Eern and White French Pique. One hundred handsome Embroidered Robes in boxes, bought a job and will be sold at half value.

We have almost succeeded in painting Wilmington white with white dresses; we greatly desire to whiten the rest of the Country. In the sale of White Goods we have no competitor. It would be profitable to those wishing to purchase goods in that line to entrust their orders with us or write for samples. Our other great specialty,

Housekeeping Goods,

is in full stock, and is as it ever has been, a puzzle and wonderment to our neighbors. Where does he buy his goods? How can he sell at the prices? How is it that all our customers go to HEDRICK'S to buy all of their Table Linens, Towels and Napkins? Reader, listen; the secret is this. We buy this line of goods direct from the importer. We know what the people want, and we know how to buy them, hence we are enabled to sell a pure Linen Damask at 50 cents per yard, as good as can be had elsewhere for 75 cents; a White pure Linen Damask at \$1.00, as good as any man can show at \$1.40, with all other goods in this line, such as Napkins, Doilies, Towels, etc., at proportionately low prices. We offer a full line of Domestic Goods at prices to suit all classes.

Space becoming short, much that we would like to tell in this must be deferred to a future advertisement. Suffice it to say that we keep the largest stock of

Handkerchiefs

in all qualities to be found in any retail store in the South. We keep a first class stock of Gent's Furnishing Goods, Laundered and Unlaundered Shirts, Collars and Cuffs, Balbriggan and Lisle Underwear, Ties and Scarfs in all the new styles. Half-Hose in every quality, to be sold at marvellously low prices.

We invite attention to our stock of Imported and Domestic Woolen Suitings for Gents and Boys which we can have made to order by a first class Tailor at the most reasonable prices. Inasmuch as we are here for the People's good, the People will be welcomed at our counters, where they will receive the most cordial and polite attention.

Respectfully,

John J. Hedrick.

1,500 ACRES OF LAND IN THE one leaf pine region. For sale on easy terms in lots to suit purchasers. Four acres for \$25. Larger tracts \$5 per acre, in monthly payments of \$10. This land adjoins the "Southern Pine", a recently established health resort (or sanitarium), and is especially adapted for Fruit Culture, as well as all the cereals. A number of New England people have bought lots in the town of "Southern Pine", and it is the desire of the owners of this land to induce small farmers, mechanics and others from the New England and Middle States, as well as elsewhere, to locate here. So State in the Union offers greater inducements to settlers than North Carolina. Nowhere can better farming country or as fine a climate be found. This is the opinion of Northern men who have settled in North Carolina. This is bona fide offer, and is limited.

The Acme MANUFACTURING CO.
MANUFACTURERS OF

Fertilizers, Pine Fibre and

Pine Fibre Matting.

WILMINGTON, N. C.

THE REPUTATION OF OUR FERTILIZERS the ACME and GEM, is now established, and the results of three years' use in the hands of the best farmers of this and other States attest their value as a high grade manure.

The MATTING, made from the leaves of native pine, is conceded to be equal to any wool carpet for comfort and durability. It has a demand for it is daily increasing. It has not been found in any other fabric.

THE FIBRE or WOOL is extensively used in upholstering purposes, and as a filling for mattresses is almost equal to hair, being lighter, elastic and proof against insects.

Certificates from reliable parties using goods can be seen at our office, or will be sent upon application.
