TORPID LIVER known by these marked peculiarities: 1. A feeling of weariness and pains in the limbs. 2. Bad breath, bad taste in the mouth, and coated tongue. 3. Constipation, with occasional attacks of diarrhoea. 4. Headache, in the front of the head; nausea, dizziness, and yellowness of the face. 5. Heartburn, loss of appetite. 6. Distention of the stomach and bowels by wind. 7. Depression of spirits, and great melancholy, with lassitude and a disposition to leave everything for to-morrow. A natural flow of bile from the Liver is essential to good health. When this is obstructed it results in

BILIOUSNESS, which, if neglected, soon leads to serious diseases. Simmons' Liver Regulator exerts a most beneficial influence over every kind of biliousness. It restores the Liver to proper working order, regulates the secretion of bile and puts the digestive organs in such condition that they can do their best work. After taking this medicine no one will say, "I am bilious."

"I have been subject to severe spells of Constipation of the Liver, and have been in the habit of using from 15 to 20 grains of calomel which generally laid me up for three or four days. Lately I have been taking Simmons' Liver Regulator, which gives me relief without any interruption to business."—J. Hoag, Middleport, Ohio.

Full moon to-morrow afternoon at 53 minutes past 3 o'clock.

WireCloth for your windows and doors can be had at Jacobi's Hdw. Depot.

Burglars. You can be safe from them by using the Burglar Proof Blind Locks, sold at Jacobi's.

Do you suffer from scrofula, salt rheum, or other humors? Take Hood's Sarsaparilla, the great blood purifier. 100 doses one dollar.

Dog collars. Largest and finest assortment ever before brought to this city, to be had at Jacobi's Hdw. Depot.

Some of the members of the Rifle Team of the W. L. I. went down to the Sound last evening for practice.

Fishing Tackle. A full assortment of all kinds for both salt and fresh water fishing at Jacobi's Hdw. Depot.

The probability is that there will be a large crowd at the Hummock to-night. There will be dancing in the big pavilion. The train will leave here at 7:20 and will leave on the return at 11:30.

Mr. John F. Garrell has made special provision for to-morrow's market. He will have on hand then some very fine beef, lamb and mutton. Call early and see it.

Work on the hotel at the Hummocks is progressing rapidly, and the last piling for the bridge across the Banks Channel was driven this morning. Parties will be able to walk over to the beach in a few days.

Capt. Sasser, conductor on the Seacoast Railroad, informs us that he is annoyed considerably by persons trying to steal rides. Last night when the train stopped at Bradley's Creek two or three colored boys were found secreted on the trucks.

Bro. London, of the Chatham Record, who was here last week and took in Carolina Beach and the Sea side R. R., publishes in this week's issue of his paper a long and interesting account of his visit. He is enthusiastic over the advantages we have here for rapid transit to and from salt water and the facilities for enjoyment offered at our various Summer resorts.

Fire at Long Creek. The store of Mr. John A. Jones at Long Creek, Pender county, was destroyed by fire on Wednesday night. It was occupied by M. D. Croom, Esq., with a stock of goods of about \$500. The store building was worth about \$800, and is a severe loss upon Mr. Jones. The goods were insured, the building was not. The origin of the fire is a mystery.

New Music House. J. L. Stone, the popular music dealer of Raleigh, has established a branch house at Wilmington, on Dock street one door from Front, where may be found a number of the celebrated Emerson pianos, also other makes from \$190 upwards. Organs from \$45 upwards. Every one is invited to call and examine the instruments.

Campaign Equipments. Consisting of white beavers, bandana handkerchiefs, walking cane and torch, for prices and further particulars, address

I. SHRER, The Hatter, No. 20 N. Front St.

Sign of Big Hat. Orders from the country promptly attended to.

Rock Crystal Spectacles and Eyeglasses Advice to old and young: In selecting spectacles you should be cautious not to take more magnifying power than has been lost to the eye as in the same proportion that you pass that point of increase, will cause you further injury to the eye. Using glasses of stronger power than is necessary is the daily cause of premature old age to the sight. You can get the best at Heinsberger's.

City Court. Mayor Fowler disposed of the following cases this morning: Fred Bradley, unlicensed dog, judgment suspended.

C. E. Jevins, not complying with agreement, re-sentenced to serve the balance of term on the street. Henry Banks, unlicensed dog, fined \$3.

Two cases were continued.

The Germania Band Excursion. The Germania Cornet Band excursion yesterday, on the *Passport*, to the Rocks and the forts, was one of the most delightful we have had this season. There was a good attendance, a pleasant day, plenty to eat, good music and a lot of happy young folks who chased the happy hours with feet that kept time with the rhythm of the waltz. The Band played some of their best pieces and were highly complimented on the efficiency they had attained.

A Handsome Store. Messrs. Guthrie & Ruark have about completed the erection of a very handsome store building at Southport. Those who have seen it tell us it is one of the handsomest to be found in any town of the State of the size of Southport. These gentlemen are among the most enterprising citizens of the place, full of vim and energy. With other new buildings now being erected there and with the improvement to the Garrison, Southport will be easily able to maintain its reputation as one of the prettiest and most pleasant towns on the coast.

At the Rocks Yesterday. It was a delightfully pleasant day yesterday at the Rocks, but somehow the fish wouldn't bite and there were a number of amateur Isaac Waltons who were disappointed thereof. A number went outside, however, during the forenoon and they had good luck. The wind was from the East. Mrs. Mayo, however, gave her guests a delightful dinner and that compensated for the disappointment.

Others went down on the *Louise* yesterday afternoon to "try their luck" and we hope that they have been successful to-day.

We Hope to be There. We have received a charming letter from some of our little lady friends at Long Creek, Pender county. They are pupils of Mrs. Bryan's school and they ask us to attend their commencement, which we will surely do if circumstances will permit. We thank them for their courteous invitation, which is as follows:

LONG CREEK, June 21, 1888.
MR. EDITOR OF THE REVIEW:—We are little misses attending Mrs. Bryan's Seminary here, and specially desire that you attend our commencement on the 26th of June.

We hope you can come, and you shall have a nice time.

Lippincott's for July. *Lippincott's Magazine* for July opens with a novel of mystery and adventure called "The Yellow Snake," by Wm. Henry Bishop. The plot is exciting, the characters are well drawn, and the descriptions of interesting sights and scenes in Mexico, where the *locals* is laid, add piquancy and interest to the story.

Judge Tourgee's series of legal novelettes, "With Guage and Swallow," is continued by a thrilling story entitled "A Bill of Discovery." "My Experiences as an Adventurer" is a charming bit of gossip autobiography. "Our Friends and Foes among the Toadstools" will open the eyes of many readers to the virtues and uses of a despised and humble parasite. Louise Imogen Guiney has a little essay, "A Case of Weakness for the First Person Singular," full of her bright and breezy humor.

There are three poems, "Desire," by Ada Nichols Man, "Ultimate Failure," a sonnet, by Charles Henry Luders, and "Beauty in Love," by Charlotte Fiske Bates. The departments are as entertaining as usual.

Bathing Suits. Come down to Headquarters. 25 dozen Flannel Bathing Suits, in all sizes and colors, sold at the lowest manufacturing prices at the Wilmington Shirt Factory, 27 Market st., J. Elsbach, Prop. Look for the blue awning.

A Card from Justice. EDITOR REVIEW:—Fair play is our motto, and we admit there are two sides to every question, and in reply to Engineer Beery's card in your issue of the 18th inst., we desire to say that promptness is always to be commended in a fireman.

In a former article we made the charge "that the too prompt arrival of the water at the end of the Adrian hose prevented their putting on the pipe." This has been pronounced false by Mr. Beery, but does not alter the fact that the water was rushing out of an open butt and the firemen holding the same were making loud requests to have the water shut off. This was witnessed by a score of men and contradiction on the part of Mr. Beery will not disprove it, however harsh the language used.

Engineer Beery says: "I arrived on my engine just in time to have the water turned on through the hose."

This hydrant, as every fireman knows, is at Exchange Corner.

That Engineer Beery, however skilful and efficient he may be, could look up Front street, around the corner and 80 feet up the Parcell alley and see with a sufficient clearness what there took place to be able to call the statement of cool eye witnesses false is to us a remarkable evidence of foresight.

Now, in regard to the first stream: Engineer Beery is really the only person early at the fire, that we have heard of, who for a moment doubts that the Atlantic boys had on the first water, with true to spare. He really does not credit them with sufficient promptness when he assures the public that at least two minutes were required to lay hose from the hydrant, corner Front and Princess streets, to the fire. The allowance was liberal, but they only used one half of it. For instance, at the last alarm, of fire, June 18th, in 4 minutes and 20 seconds our hose cart had traveled eight blocks, laid 450 feet hose, extinguished the fire and the water was shut off at the hydrant. We believe however, there is no contest about this first stream.

We have no apology to offer for only using one line of hose. If all feel as Engineer Beery expresses himself, then we did sufficient damage with one stream.

We are happy to be able to say that the gentleman who was injured gets about the streets without the aid of crutch or cane, and as far as we are able to judge, if not already recovered, is in a very fair way to do so.

As to this charge Engineer Beery is not a member of the Howard Relief Company and cannot voice the sentiment of that company, unless such right is conferred on him by the company in regular meeting. Therefore, we consider his opinion, only as it should be, that of an individual.

There is no evidence that the injured man was struck by the Atlantic stream, except that of one of their own men, who was assisting behind the pipe, and being lower down could see the roof at times when the water cleared the smoke partially away, and he saw the man on the roof for a moment but did not know that he fell or was knocked off until it was reported to them, when he at once said that he thought our stream must have struck him.

Engineer Beery reflects (unintentionally, no doubt) on the Howard Relief Co., No. 1, when he says that they, or some of them, believe that this accident was caused by "pure carelessness on the part of the Atlantic men." He might see that if any of the members of the Howard Relief Co. felt as he quotes them they would at once have preferred charges against our company, and ere this we would have been convicted or exonerated of all blame. This is our opinion, and we think that we have sufficient knowledge of the material of which the volunteer fireman is made to say that whenever he thinks he is ill treated he seeks redress at once.

This was the opinion of the Foreman of the Atlantic for as soon as he saw by the reports of the morning papers that it was thought that our stream caused this much to be regretted accident, he at once addressed a communication to the Chief of the Fire Department, requesting that, if in his opinion or that of the H. R. F. Co. No. 1, our company was to blame, to please call a meeting of the necessary parties and investigate the matter and decide. This ends the case, so far as we are concerned.

Justice. The plan for the new house of worship of the Second Presbyterian Church has been submitted by the contractor, Mr. A. G. Bauer, of Raleigh, and has been approved. It is to be built in connection with the present edifice, which will be used as a lecture room. The new structure will be a handsome and imposing one. It will be of brick, 66x91 feet, and will seat 700. Work will probably be begun by August 1st.

The closing exercises of the Cape Fear Academy took place to-day but the report which had been prepared for this issue is necessarily postponed until to-morrow, when we will publish it.

Complimentary Concert. As mentioned by us yesterday the complimentary concert which has been tendered Miss Annie DeRosset will take place at the Opera House on Tuesday night. Miss DeRosset will be assisted in the entertainment by four of the finest voices in the State, with a male quartette.

Miss Annie is the daughter of Capt. Armand L. DeRosset, of this city. During the last few years she has developed a wonderfully fine voice. Last Fall she went to Washington City and her voice has been carefully trained. She received instruction at the same school and from the same masters as Miss Willard, the young lady protegee of Mrs. Cleveland. Some severe musical critics have pronounced her voice as wonderful and have prophesied for it a very successful career.

Two Warm Days. Yesterday and to-day have been warm days, the warmest of the season thus far. At 1 o'clock yesterday the thermometer in the signal office registered 89.8 degrees and at 3 o'clock 89.3. In this office at 1 o'clock it was 90 degrees. At the signal office, at noon to-day, it was 89.4 and in this office, at the same hour, it was 90.

The only case of prostration by heat hereabouts this season, that we have heard of, is that of a poor beast of burden, an ox, who was being driven in a cart and who dropped under his load to-day, about 1 o'clock, at the corner of Seventh and Dock streets.

Brig *Edith*, Foster, cleared to-day for Port au Prince with 179,000 feet lumber and 20 barrels naval stores, valued at \$2,346, shipped by Mr. E. Kidder's Son.

If you want to feel comfortable and well all you need is a good Hammock. You will find the largest assortment and cheapest at Heinsberger's.

This has been the hottest day of the season. At 3 o'clock in this office the thermometer this afternoon registered 92 degrees.

Fly Traps, best and cheapest, at Jacobi's Hdw. Depot.

I have not used all of one bottle yet. I suffered from catarrh for twelve years, experiencing the nauseating drooping in the throat peculiar to that disease, and nose bleed almost daily. I tried various remedies without benefit until last April, when I saw Ely's Cream Balm advertised in the Boston Budget. I procured a bottle, and since the first day's use have had no more bleeding—the soreness is entirely gone.—D. G. Davidson, with the Boston Budget, formerly with Boston Journal.
