It seems that the women of England are in a bad way as regards drink. We are loth to believe this, but Dr. Imlach has informed the British Medical Association that women drink to excess as much as men, and that in Liverpool it is the wives who drink, and not among the vicious classes alone. The use of opium, chloral and other narcot ics is much more prevalent among women than among men. Women, however, have a better excuse for their excesses than the other sex. They drink, as a rule, because they have some worrying ailment, and keep on until the habit is settled upon them. With narcotics the beginning of the abuse is generally traceable, says Dr. Imlach, to medical prescriptions. Miss Broadbent, the well known missionary of the Church Temperance Society, says a correspondent of the New York Sun, gives the interesting fact that tho' women often drink heavily, the most confirmed drunkards among them are seldom attacked with delirium tremens. She declares that she has not seen a single instance of this disease among women during the last twelve months, although she has visited many cases of drink ing women.

The San Francisco Examiner charges that the Yosemite Valley and the Mariposa Big Tree Grove, which were granted by Congress to the State of California on condition that they were kept in their natural state for the enjoyment of visitors, are in the hands of a "shameless ring," which it characterizes as a "band of plunderers." According to its account, the State Commission which has charge of this attractive domain is made up chiefly of nal. employes of the Southern Pacific Railroad Company and owners of the stage line that runs from the railroad station into the valley. It is charged that the stage route and the hotels, built at the State's expense, are leased to favorites of the ring and allowed to charge exorbitant tolls. Persons entering the valre in need of profitable work that can be done ley by other means than the com-while living at home should at once send their pany's stages, which charge \$50 for the trip, are compelled to pay such tolls, and are charged with such extras at the hotels and for the use of guides as to discourage all interference with the monopoly. One bill of these charges presented by the ing sketches of travel and adventure, serial stage company to a single party foremost problems of the period, and, in short, amounts to \$47. Competing hotels in the valley are frozen out, and the whole business is delivered over to the "ring." The alleged extortion it is acknowledged by the press and public to be the most popular and entertaining of the high-class monthlies. is not the work of private parties, such as used to be complained of at Niagara Falls, but of a monopoly authorized and sustained by a State Commission, of which the Governor is the head. These reports will not

A. revolution in Hayti is always in order, and it is a long time since an old-fashioned revolt has occurred. Recognizing this fact, the energetic and skilful old President baffled it by varying the ordinary rude method of dealing with malcontents by that of voluntary and paid exile. Their compatriots could hardly take umbrage at this liberal arrangement for foreign residence. Still, it is admitted that the present peace is only temporary. President Salomon, who was chosen in 1879 for seven years more, has been extraordinarily successful in keeping himself in power; but the burdens of taxation constantly prompt to re-
