One of the brightest and most readable of the magazines is The Cosmopolitan, which has recently adopted the new feature of colored illustrations. Mr. Paul J. Schlicht, the founder of the magazine, gives some interesting experence. He says:

"I conceived the idea of colored illustrations while in Europe. At that time I gave some attention to literature and art matters, although, to tell the truth, I was so nearly dead from malaria that at times I could scarcely hold up my head. It seemed to me that I would never be able to do business again or take any real interest in life, and so, to make a long story hort, I returned to America. The day I laned in New York, a friend invited me to his home o dinner. He saw my wretched condition, and eclared that he had something he was certain would positively cure it. More to please my friend than anything else, I took some of his remedy, and to my surprise I slept well that night. You can well imagine that I continued to take it the next day, and in brief, within one month from that time I was entirely cured of malaria in its worst form, wholly by the use of Duffy's Pure Malt Whiskey—no quinine, no trugs. During all this time I was encouraged ntinue its use by my wife, who is a firm ver in temperance, as indeed I am myself, ad, in fact, my wife purchased it by the dozen of me. When I recovered I felt like a new man, ad I have persuaded numbers of my friends to y the same means for restoring their health. It. Schiicht is a gentleman whose word is ove question, and the statement he makes prove a valuable suggestion to all suf-rom-malaria.

BOODLE VS. THE PROPLE,

It is interesting to note what our Democratic friends in Washington City think of the nominations made at Chicago. The New York Herald publishes a great many interviews and all point the same way. It will not by any means be a difficult matter to beat the ticket. The big monopolists are, it is true, with the Republicans but they are always there and there is one source of rey enue, at all events, that is not available for campaign funds this year. They can't tax the office-holders. Boodle vs. the People may in real ity be the big issue of this campaign and if it is no one need fear for the result. The New York Herald publishes editorially some extracts on this part of the subject, from the interviews had with Speaker Carlisle and Senators Gorman and Kenna

In 1880 Indiana was carried by the Republicans by the judicious dis-'new two dollar bills." It was the worse."-New York Sun. same year in which General Garfield tored by the use of an entirely new asked Jay Hubbell "How are the departments doing?" Mr. Hubbell Are quickly given to every part of being the man who went about extorting campaign funds from poor That tired feeling is entirely overgovernment clerks.

That game is played out. Smaker Carlisle said shrewdly to Herald

"In my judgment the percentage of voters who can be bought is very small. I think the Republicans have uniformly controlled this class in the past. If they control them again this year it seems to me they will only be holding their own with out making any substantial gains."

When a party takes to buying voters it has to buy the same men at every recurring election, and the reputation of dispensing boodle is, as some wealthy Congressmen know, after eating, sour stomach, sick headache. very costly and in results worse heartburn, loss of appetite, a faint, "all gone" than valueless. Senator Gorman feeling, bad taste, coated tongue, and irregusaid concerning the Republican

I have had a long experience in politics, and I give it as my firm conviction that no State or Presidential elections removes the sympathat it is only in rare instances. I have organs, regulates the digestion, creates a

Mr. Gorman added: "No more erroneous opinion exists than that the poorer classes of our people sell their right of suf-frage to the highest bidder. My experience is that there is more inherent honesty and devotion to party principle among them than among what are commonly called 'the

higher classes." The Democrats won the last election fairly, and with only sufficient money to meet their legitimate campaign expenses. This every party must have. I have no doubt we shall secure all we need for this purpose, and if so it matters, but little to us how overflowing the 'barrel' of our opponents may be. The agitation of the tariff question may lose us a district here and there, where some special industry is af-fected by the Mills bill, but I think

that every one we lose will be offset by a gain in some other district." Senator Kenna said:

If they fail to put wealthy men at the head of the ticket they will find difficulty in getting enough money for actual campaign expenses.
"You ask why the manufacturers

won't contribute. I answer, because all the manufacturers, I freely be-lieve, are satisfied with the Mills bill. The woollen men are, I know, but they dare not say so. The iron men have nothing to complain of, neither have the plate glass men, nor the heads of many other great interests. They will not contribute because it is not to their advantage to do so. You ask me if we will retain our hold on the House in the next Congress. I answer candidly when I say that not only will we retain our present majority, but we will increase it largely."

Boodle will not work, as these two shrewd political managers, Ser.ators Gorman and Kenna, know. The coming canvass is to be fought out in politics, and the attempt to carry it by bribery on a vast scale is hopeless. The combination of protected monopolies, corporations, trusts and capitalist manufacturers! against the people will fail, if for no other reason because the people will resent the dictation of those who 15th. want to be their masters and begin by organizing to buy them like sheep.

Merit Wins.

We desire to say to our citizens that for years we have been selling Dr. King's New Discovery for Con sumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as rell, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. Wm. H. Green, Drug-

Imparities in the blood produce diseases. Bodily and mental health depend upon a healthy condition of the blood. The blood, particularly in the spring and during the hot sammer mentles, becomes clogged with impurities, which poison it and generate discase. A harmless blood purifler, without a particle of mineral potton in it, such as merenry or potash, is necessary to remove these Impurities and to restore the healthy tone of mind and body. The best purifier and tonic known to the world is SwMi's Specific (S.S.S.). In regard to its wonderful purifying and tonic powers we give a few testimonials as

In February last I suffered great pain and inconvenience from boils, all over my neck; I could not turn my head without acute pain and my blood was in poor condition. After trying all the usual remedies in such cases, and finding no re lef, by the persuasion of Mr. J. W. Fears, Hanager of your New York Office, I used one bottle S. S. S, and I improved rapidly and very soon I was entirely relieved of my "Job's Comforte:s." Now not a sign of my affliction can be seen. I feel strong and cheerful. S. S. S. is a fine tonic as proved in my case. I sleep soundly and my appetite is good.

Dr. J. N. Cheney, a well-known physician writes from Ellaville, Georgia: "I use S. S. S. in convalescent fever cases with the best results. It will, in my judgment, prevent summer dysentery, if one will take a few bottles in the spring, thus preparing the bowels for the strains of summer." Mrs. Scott Listen, 119 Zane street (Island).
