WILMINGTON, N. C., MONDAY, JULY 30, 1888.

NO 159

The Puritan, destined for the Fall River line, was launched at Chester, Pa., last week. She is the largest steamboat in the world, being 420 feet overall, 52 feet beam and 203 depth of hold. The engines are of 7,500 horse power and she is expect ed to make 21 knots an hour. She has 220 staterooms and will cost \$1,-500,000.

The steamship Etruria arrived at New York on Saturday, having made the second fastest passage on record. She left Queenstown on Sunday, the 22d, at 2:15 p. m. and passed Sandy Hook Saturday last at 12:30 o'clock, making the voyage in six days, three hours and fifteen minutes. This is just eighty minutes behind the fastest passage on record, which was made by the same vessel in June last. The greatest distance made in a single day was Saturday, 496 knots, and the shortest, 468 knots, was made Fri-

There is said to be a fayorable outlook in Michigan and the Democrats have hopes of carrying that State. The New York Star says:

That Michigan is a doubtful State in the coming campaign has been often claimed by the Democratic morning and night able and instruct than a mile. It is expected that five politicians, and apparently with tive sermons. The congregation boats will enter and a stirring race Virginia, 4; District of Columbia, 5; good reasons. Mr. Palmer is the straightest Republican in the State with the Prohibition vote, and would have prevented, in a long degree, by remaining in the race, the falling away of the Republican party by reason of their policy toward whisky. The Prohibitionists number considerably above 20,000, and since the Republicans only carried the State in the last Presidential election by a plurality of between 3,000 and 4,000 over the Democratic fusion ticket, the importance of this temperance vote will be at once seen.

A CHILD KILLED.

Another child killed by the use of opiates given in the form of Soothing syrup. Why mothers give their children such deadly poison is surprising when they can relieve the child of its peculiar troubles by using Acker's Baby Soother. It contains no Opium or Morphine Sold by Munds Bros., druggists.

Big Rains Yesterday.

It does seem as though "it never rains but it pours" in Wilmington. Yesterday, while everybody was at church, there was a heavy downpour which lasted for an hour or Sound: more and for some time after the services had closed it was impossible to venture out in the storm. The rain seems to have been pretty general in this section, extending over a large part of this State and South Carolina. Here the rainfall was 1.46, at Lumberton it was 2.90 and at Charleston it was 1.28. To-day our streets are almost dry, so rapidly and freely does the soil here absorb the moisture.

Pleasant Reading.

We find in the Goldsboro Argus of last Saturday's date its regular cor respondence from the encampment, from which we clip the following indisputable testimony as to the healthfulness and salubrity of the site selected for the camp:

The success of the Wilmington parade, on Tuesday, as a military movement; the pleasure it gave to thousands of spectators, assembled for the purpose of witnessing it; and the gratification which it afforded to the officers, line and staff, and the rank and file of the Guard, was well rounded off and completed by the fact that not a single casualty was reported, nor one name added to the sick list, as resulting from it. Considering the great heat during

part of the period of encampment, the health of the troops has been remarkably good. At no one time have there been more than six men in the hospital, and two or three of those were cases of accident, producing merely tem-porary disability. This most excellent sanitary condition may be attributed to several causes, such as the cool sea breeze, which hardly ever fails, at some time of the day, to temper the heat; the copiousness of the supply, and the excellence of the quality of fresh water on the camp ground; the ample facilities for sea bathing, and generally the

But there is yet another cause, in the absence of which all these favorable conditions could not have defended the troops from illness-that is the sobriety, self-control and personal good conduct of the men. No evidence could be more indica-

tive of the temperance and cleanli-hess of the camp than this remarka-ble healthfulness. Jacobi's Hdw. Depot.
