THE DAILY REVIEW.

VOL. XII. WILMINGTON, N. C., SATURDAY, AUGUST 25, 1888. NO 172.

PLEASE NOTICE We will be glad to receive communications from our friends on any and all subjects of general interest, but The name of the writer must always be furnished to the Editor. Communications must be written only on one side of the paper. Personalities must be avoided. And it is especially and particularly understood that the Editor does not always endorse the views of correspondents unless so stated in the editorial columns.

SIMMONS' LIVER REGULATOR

Its peculiar efficacy is due to its skill in compounding the ingredients themselves. Take it in time. It checks disease in the onset, or if they be advanced will prove a potent cure. No Home should be without it.

FOR WHOSE BENEFIT
Biliousness, Headache, Biliousness, Piles and Mental Depression. No loss of time, no interference with business while taking. For children it is most innocuous and harmless. No danger from exposure after taking. Cures Colic, Diarrhea, Bowel Complaints, Feverishness and Feverish Colds. Invalids and delicate persons will find it the mildest and most effective tonic they can use. A little taken at night insures refreshing sleep and a natural evacuation of the bowels. A little taken in the morning sharpens the appetite, cleanses the stomach and sweetens the breath.

A PHYSICIAN'S OPINION.
"I have been practicing medicine for twenty years and have never been able to put up a vegetable compound that would so effectively move the liver to action, and at the same time aid (instead of weakening) the digestive and assimilative powers of the system."
L. M. HINSON, M. D., Washington, Ark.

Marks of Genuine: Look for the red Trade-Mark on front of Wrapper, and the Seal and Signature of J. H. ZELLIN & CO., in red, on the side. Take no other.

Judge Thurman's progress through the West is a continual ovation. He was to have spoken to day at a big barbecue near Chicago and expected to address 20,000 people. His health is excellent.

President Cleveland's message on the fisheries question, sent in yesterday to Congress, has made the bald eagle scream. The partisan Senate has rejected the proposed treaty, simply because it was the measure of a Democratic president, and Mr. Cleveland intimates that a retaliation on the Canadians is the only resource left. The situation looks grave.

Chairman Brice has been to Washington City to see the President. He gave him some cheering news, according to the New York Herald correspondent, who says:

The most cordial understanding exists between them, and the President is perfectly satisfied with the manner in which Mr. Brice is doing the work of the campaign. He feels satisfied that the committee is splendidly organized and is working in the most efficient manner. He gave the President the most encouraging reports from New York, New Jersey, Indiana, Illinois, Michigan and California. He considers Indiana safe for Cleveland from present indications, and thinks Illinois is likely to swing over to him under the pulse of tariff reform movement. The only danger is that Indiana will be plastered with Republican money before election, as it was in 1880. The money is not pouring very fast into Republican coffers, however, and the Democrats seem to be fully as well supplied as their opponents. They are sending out documents and speakers wherever they are called for.

The favorable indications from Jacksonville have given place to more doleful news than ever. It is plain now that the unfortunate people of that State have a fight on hand that will last until the disease is stamped out by the frost, which may not be before November. From the Herald's report of Thursday, published yesterday, we extract the following:

The larger increase of new cases reported last night does not seem to point to a speedy stamping out of the yellow fever. It is the largest report made any day since the epidemic began, a fortnight ago. This may be due to a certain extent to the fact that the physicians are reporting their cases more promptly and that the present crop is now rapidly coming out. It will be remembered that during the last crop little effort was made at isolation and persons were permitted to go and come at will.

Under the present system of isolation, with the perfect sanitary condition of the city and the free use of powerful disinfectants, it is believed that the next crop will show a marked decrease. The citizens continue hopeful and believe their efforts will terminate in arresting the progress of the disease. All the new cases that have developed have been isolated, as well as those who have come in contact with them, and more reliable guards have been appointed, so that now it is expected that the work of isolation will be more perfect than ever.

The general cleaning up of the city is still going on, and though there are not as many men employed as there were last week there is a sufficient number kept at work to keep the city clean. Lime is again to be sprinkled throughout the city. The whitewash gang is giving every tree trunk, post, hydrant, curbing and sidewalk edge another thick coat of lime, to which some of the bichloride of mercury will probably be added for further use.

Do you suffer from scrofula, salt rheum, or other humors? Take Hood's Sarsaparilla, the great blood purifier. 100 doses one dollar.

The Grand Lodge of Masons of North Carolina will convene at Southport on Tuesday, the 4th of September, for the purpose of laying the corner stone of the new Methodist Church at that place. The ladies of the M. E. Church there, after the exercises are over, will have a festival for the benefit of their church building fund.

A Shot-Gun Tournament.

An event of much interest for next week will be a shooting contest at the Hummocks, to take place on Thursday next. A handsome breech-loader will be the first prize and a silver cup the second. It is said that the shooting is to be with shot guns and if this is the case we believe that there will be a large number of entries.

A Peculiar Freak of Nature.

Mr. Jno. R. Melton has a sow at his butcher pen, near the city, that gave birth recently to a number of pigs, among them being two of very peculiar proportions. One of the pigs had two heads, which were perfect in every particular, the eyes, nose, ears and mouth being well formed. The other pig had but one head, but sported two bodies, both of which were perfect in development. Mr. Melton brought one of them to the city yesterday evening and it was viewed by hundreds of our citizens. Unfortunately, both of these freaks of nature are dead.

Three Trains To-Morrow.

In accordance with a resolution of the board of directors of the Wilmington Seacoast R. R., unanimously adopted, the order discontinuing all trains on that road on Sunday has been repealed and hereafter there will be a partial service over the road on that day. There will be three trains to-morrow, leaving here at 9:15 a. m., 3:00 p. m. and 7:55 p. m., as per notice published elsewhere.

City Court.

Mayor Fowler disposed of the following cases this morning:

Jno. Young, disorderly conduct, \$10 and costs or 20 days.

Jack Williams, assault with a deadly weapon, bound over to the next term of Criminal Court in the sum of \$50.

Victoria Bryant, disorderly conduct, case continued.

Victoria Collins, larceny, discharged.

S. A. Johnson, violating the city ordinance, discharged.

Hide in the Kitchen.

Some one effected an entrance into the premises of Mrs. L. A. Thompson, on Eighth, between Dock and Orange streets, on Thursday night, evidently with the intention of lying concealed until everybody had gone to bed and then cleaning out the family larder. Mrs. Thompson's little girl went into the kitchen to look for some article on the night in question and in the dark stumbled against a man, who was hid in the chimney corner. He grabbed her by the ankle and when she screamed he fled quickly through the back door. The neighborhood was aroused but the rascal got off clear.

Fireworks and Dancing.

One of the most delightful seaside events on record took place last night at the Island Beach Hotel. A large crowd assembled there early in the evening and others went down on the 7 and 9 o'clock trains. There were two great events on the programme as arranged by Mr. Bryan, the courteous host of the occasion. These were a grand pyrotechnic display in advance of the rising of the moon and the other was a german, which took place later on. The letting off of the fireworks was successfully accomplished, to the delight of all present, and then came the german, opened by Mr. E. P. Boatwright, and with nearly forty couples on the floor. The dance took place in the large and elegant dining room at the hotel and later on a most appetizing lunch was spread, to which ample justice was done by all. The evening was voted a complete success in every particular and there have been many hopes expressed of an early repetition.

Lippincott's Magazine.

The September number of Lippincott's makes an interesting departure from conventional magazine-ruts in the publication of "Herod and Marianne," a tragedy, by Amelie Rives, the brilliant young authoress who has set all America talking. "Herod and Marianne" is based upon the story of Herod the Great as told by Josephus, and follows it very closely, though informing it with a lurid and passionate energy and a splendor of diction that carries the reader breathlessly to the end. The tragedy will take a high place in American literature. Edgar Fawcett says some judicious things in his critical essay, "More Words on Amelie Rives," which takes up and discusses the question as to the moral and literary worth of the "Quick or the Dead"—a question that also affords the editor, in his "Book-Talk," an opportunity for some thoughts on the value of contemporary criticism. "Famous Hoaxes" is full of curious and amusing stories. "The Temperance Reform Movement" discusses a timely question; "With Gauge & Swallow" is continued. A great deal of interesting and valuable information is contained in the answers to a dozen of the "Prize Questions" lately propounded to magazine readers. Curtis Hall and Langdon Elwyn Mitchell contribute short poems. The old departments maintain their interest, while a new department, "Every Day's Record," gives a succinct yet adequate account of the several events that have made memorable each day in the month.

Headquarters for Bass Balls, Bats, Masks, Gloves, Belts &c., is at Helmsberger's.

The Sylvan Grove carried down a large crowd to Carolina Beach this afternoon.

The excursion season has more than a month yet to run. September is the most pleasant month of the year on the seacoast.

The atmosphere has been decidedly pleasant to day, the thermometer having stopped in its upward climb at 83 degrees.

Personal.

Rev. Father Moore returned to the city this morning from the Western part of the State much improved in health. He was accompanied by Rev. Fathers Price and Burns.

Capt. A. A. Moseley, of the Little River section, is in the city to-day.

Col. Jno. W. Atkinson returned to the city this morning from Raleigh.

Ex-Mayor Fishplate returned to the city last night from the North.

Capt. J. H. Sharp, of the Carolina Central, returned here this morning from Williamsboro, Vance county, with his daughter.

Crops in the Interior.

We (the Editor) returned this morning from a short visit to the interior, and found excellent crops along the line of the Carolina Central R. R. to Hamlet, and on the Raleigh & Augusta Air Line from Hamlet nearly to Sanford, in Moore county. From this point to near Cary, in Wake county, eight miles West of Raleigh, they are very bad—so bad, in fact, that they can hardly be worse. In some sections of Chatham and Moore counties there will be hardly a bushel of corn raised to the acre and we heard of one man who works a three-horse crop of corn who will not make a bushel of corn this year. There hasn't been rain enough in those localities since June to wet the ground and as a consequence the crops are all parched and shriveled. Early corn will do better than late plantings but this will not yield on an average more than a fourth of a crop. Cotton and tobacco look much better than corn, but these crops are also suffering severely from the drouth and if rain does not come soon they too will be almost worthless. To make the matter still worse in those sections only about one-half of a wheat crop was raised this year. Fruit is, however, plentiful, although somewhat defective as a result of the long dry spell. A gentleman who traveled from Sanford to Mt. Airy, on the C. F. & Y. V. R. R., a few days ago, told us that the same deplorable state of affairs exists all along the line of the road as far as Greensboro, but that beyond Greensboro the crops are generally good. The outlook in these sections is deplorable and distressing in the extreme.

The Campaign Organ.

The numerous newspapers of the State have put on their war paint and settled down to business. We may expect some lively music before November. The best campaign organ and one we can recommend is sold by J. L. Stone. Polite and attentive salesmen will take pleasure in showing instruments and giving prices.

GUARD AGAINST THE STRIKE.

And always have a bottle of Acker's English Remedy in the house. You cannot tell how soon Crony may strike your Htine, or a cold or cough may fasten itself upon you. One dose is a preventive and a few doses a positive cure. All Throat and Lung troubles yield to its treatment. A sample bottle is given you free and the Remedy guaranteed by Munds Bros., Druggists.

Official.

Passed at a Meeting of New Hanover County Board of Health, Aug. 23, 1888.

IT BEING THE UNANIMOUS AND DECIDED opinion of the members of the Board of Health, that any and all digging and opening of the surface of the earth and excavations, within the city limits, during the summer, are exceedingly detrimental to health, and liable to produce and breed disease; therefore, be it Resolved, That the Mayor of the city do, and he is hereby earnestly requested to use every effort in his power to prevent any and all such digging and excavations, and to diligently prosecute all persons who have violated, or who shall in the future violate, the City Ordinance on that subject.

Resolved, That in the opinion of New Hanover County Board of Health the City Pound, in its present condition, is a nuisance and a detriment to the public health.

F. W. POTTER, Secretary and Supt. Health.

City Ordinance Relating to The Public Health and Quarantine.

SECTION 7, ARTICLE IV.
It shall not be lawful to dig up, open or disturb the surface of the earth, within the limits of the city, to prevent any and all such digging and excavations, in each and every year, for the purpose of paving the streets, or excavating for drains, or laying down gas or other pipes, or carrying on any other public improvements, without the permission of the Superintendent of Health; any person or persons, or incorporate bodies or companies so offending, shall be fined not exceeding Fifty Dollars, for each and every offence.
