One of the brightest and most readable of the magazines is The Cosmopolitan, which has recently adopted the new feature of colored illustrations. Mr. Paul J. Schlicht, the founder | Entered at the Postoffice at Wilmington, N.C. of the magazine, gives some interesting experlence. He says:

"I conceived the idea of colored illustrations while in Europe. At that time I gave some attention to literature and art matters, although, to tell the truth, I was so nearly dead from malaria that at times I could scarcely hold up my head. It seemed to me that I would never be able to do business again or take any real interest in life, and so, to make a long story short, I returned to America. The day I laned in New York, a friend invited me to his home odinner. He saw my wretched condition, and eclared that he had something he was certain would positively cure it. More to please my friend than anything else, I took some of his remedy, and to my surprise I slept well that night. You can well imagine that I continued to take it the next day, and in brief, within one month from that time I was entirely cured of malaria in its worst form, wholly by the use of Duffy's Pure Malt Whiskey—no quinine, no drugs. During all this time I was encouraged to continue its use by my wife, who is a firm believer in temperance, as indeed I am myself, and, in fact, my wife purchased it by the dozen for me. When I recovered I felt like a new man. and I have persuaded numbers of my friends to try the same means for restoring their health, and the results have invariably been valuable." Mr. Schlicht is a gentleman whose word is above question, and the statement he makes should prove a valuable suggestion to all sufferers from malaria.

FEDERAL RADICALISM. Another reckless statement made by Colonel Dockery in his letter of

acceptance is That while reducing the public debt the Kepublican party during the same period reduced taxation also.

Towards the close of the war when money was greatly depreciated heavy taxes were laid. These brought in revenue for the year beginning July 1st, 1865, \$519,949,000 in currency, equal to about \$350,000,000 at par. The next year, beginning July 1, 1866, they yielded \$462,846,-000 in currency, equal to about \$325,-000,000 at par. In 1867 the taxes were \$357,180,000, equal to about \$250,000,000 at par. In the year beginning July 1, 1869, the taxes were \$395,000,000, equal to about \$320,000,-000 at par. The income tax and the taxes on some other favorites of the Republican party were shortly af terwards repealed, and the receipts fell off until in 1878 they reached the lowest limit, \$258,000,000. The next

year they took \$272,000,000; the next

year \$333,000,000; the next year \$360,-

which is \$100,000,000 more than ten you good. years ago, and there is no use for that except to buy bonds at a premium. A queer sort of reduction

But let us look a little further into this so-called reduction. In 1868 the income tax was laid on all incomes greater than \$1,000. All under \$1,000 were entirely exempt. Out of a population of 400,000,000 only 250,000 people paid an income tax and these had incomes aggregating \$800,000,000. These men had incomes averaging more than \$3,000 each, and yet when all the people, amounting to 40,000,000, were borne down by the enormous taxation, the Republican party, instead of relieving them, struck off the income tax from these 250,000, some of whose incomes were so enormous that the entire average was \$3,000. In 1870 the exemption was increased to A particle is applied into each nostril and is agreeable. Price 50 cents at druggists; by mail, registered, 60 cents. ELY BROTHERS.

The tax on incomes of \$5,000 and over yieided in 1886 \$34,500,000, and yet that tax was allowed to go. But taxes were continued on clothing, on salt, on necessaries of all kinds, even on matches! The poor were taxed to death; the rich rolling in their

It is a Peculiar Market street, which has been thoroughly overhauled, repaired and refurnished. With first class workmen, sharp razors and polite at par. And yet Colonel Dockery attention he hopes to continue to merit the patronage of the public. duced taxes, when the truth is, that while the income and some other

axes have been stopped the amount of taxes paid this year is greater

But the fault is not with the Democrats, however, for they have ever been pressing for revenue tax reduction. Four years ago, as soon as Mr. Cleveland came in, he recommended tax reduction, first on general principles, because unnecessary taxation was unjust taxation; and secondly, because he foresaw and seighbor to avoid the first or general taxation. The district of wished to avoid the financial trouble of having money piled up in the treasury that could not be gotten back into the channels of trade and into the pockets of the people except by buying bonds at a tremendous bonus. Accordingly Mr. Morrison, a Democrat, introduced a bill to cut down taxes one tenth. The Republicans defeated this measure, and not content with that, sent wished to avoid the financial trouble and not content with that, sent much money into Mr. Morrison's district and made it a point to de-feat him for re-election. They pun ished him personally for having introduced that bill. Two years afterwards Mr. Cleve-

land sent in his celebrated message, saying not one word about anything but excessive taxation; and Mr. Mills introduced his bill into the House of Representatives to lower customs duties and repeal the tobacco tax. The Republicans fought it at every step, and on its passage, of the 149 votes against it all were Radicals, including Mr. Nichols, except four, and of the 162 who voted for and passed the bill all were Democrats except three, one of whom was an Independent with Radical leanings.

And so Colonel Dockery is in error in saying his party has reduced Federal taxation.
