The skies are bright, very bright indeed. The longer the campaign lasts, the brighter they really become. Read the following special from Washington City, which we clip from the New York Star:

Senator Gorman, who is accepted everywhere as an astute and clear-headed political manager, spent to-day in town. He is just back from New York, where he has been assisting at Democratic National Headquarters, and where he enjoyed exceptional facilities for examining into the political situation.

Mr. Gorman, in company with several other distinguished Democrats, spoke in Maryland yesterday, and, among other things, said that he would stake his political reputation upon the prediction that Mr. Cleveland would be re-elected. He reiterated this declaration upon his return here, in an interview, and added, as evidence of the faith that was in him, that the situation in New York to-day is 25 per cent. better for the Democracy than it was at this stage of the National campaign in 1884.

Mr. Gorman does not believe that the promised triangular fight for Mayor in New York city will be or can be turned to the disadvantage of the Democratic national ticket.

Mr. Gorman thinks the estimate of 280,000 votes for New York city not too large, and he expects that the Democracy will poll 25,000 more votes there than it did your years ago.

Who says Michigan will not go Democratic? or Kansas? or Illinois? Just read this from yesterday's Herald:

It is barely possible that New York may not be the pivotal State after all. The Democratic National Committee held a conference yesterday and all the members said they were satisfied that Michigan is already sure for Cleveland and Thurman. They are not altogether doubtful of success in Illinois. There are thirteen electoral votes to be cast by Michigan and Illinois has 23. These votes are enough with the 15 votes of Indiana to make with the 153 electoral ballots of the sure Democratic States enough to give Cleveland the victory.

All the gentlemen were satisfied with the prospect of success, with out even taking New York into consideration, although no doubts are entertained about the Empire State going for Cleveland and Thurman.

Ex-Senator Barnum gave a synopsis of the outlook and progress of the campaign in Connecticut, and assured his fellow members that the Nutmeg State was safe for Cleveland.

Dr. Neely, who represented Kansas, is the Mayor of Leavenworth, and he told the committee that while Kansas is a Republican State, the plurality would be cut down. Dr. Neely also said that the labor candidate for Governor in that State is very popular, and he will draw many votes from the Republicans, and that Streeter, the labor candidate for President, may get from sixty thousand to seventy five thousand votes. If it amounts to 75,000, Dr. Neely says Kansas must go Democratic.

The recent cyclones in the South and West have done terrible damage to life and property, but there's one comfort left—the people clamor for Dr. Bull's Cough Syrup.

**A Pleasant Event.**

The large audience which assembled last night in the Luther Memorial Building to attend an entertainment given for the benefit of the Sunday School Organ Fund were delighted and pleased with everything. The performance was an excellent one and arranged with great care. There were a number of fine tableaux and vocal and instrumental music as also tables loaded with all kinds of seasonable refreshments. We are glad to know that quite a handsome sum was realized.

**A Home Enterprise.**

It is only about one month since Messrs. W. A. Martin & Co. began the manufacture in this city of ready mixed paints, of all colors, and already their enterprise has met with a marked degree of success. Orders have been pouring in upon them of late and the more they have sold the greater becomes the demand. This is one of the home industries that is destined to do much in upbuilding our city for we are firmly convinced that it is to manufacturing that we must look largely in the future for our prosperity. Messrs. Martin & Co.'s works are located on the West side of the river, on Eagle's Island, and the offices are at No. 111 North Water street, where specimens of the paints may be seen. They also manufacture Venice and ink turpentine, lubricating oils, leather dressing oils, &c.

All In.

Mr. S. H. Fishplate, the King Clothier, has his Fall stock ready for inspection. He always purchases early so as to obtain the choicest styles. Merchants buying their stocks this season of the year have to take the "oullings" or what is left, that other merchants would not have. Mr. Fishplate's stock is composed entirely of first class goods and tailor made—equal to custom make. He employs no women at 25 cents a day and work them 10 hours each day to make pants and Cheap John goods to palm off on the public. His stores are well lighted day and night, which is very essential for buyers of clothing. We advise our readers to beware of a dark store and Cheap John goods.

**THE SUGAR PROBLEM.**

JARVIS, N. C., Oct. 10, '88.

MR. EDITOR—I've been watching with some little interest the solution of "Bertha's" sugar problem published in the REVIEW of the 25th of September and allowing 15¢ to the pound in the gain, in the transaction "A. G. P." is right. The correct solution is \$4.00 3-10.

**Rock Crystal Spectacles and Eyeglasses.**

Advice to old and young: In selecting spectacles you should be cautious not to take more magnifying power than has been lost to the eye as in the same proportion that you pass that point of increase, will cause you further injury to the eye. Using glasses of stronger power than is necessary is the daily cause of premature old age to the sight. You can get the best at Heinsberger's.

**WHY WOMEN FADE.**

Women lose their beauty because colds undermine their life. Dr. Acker's English Remedy for Consumption is an absolute cure for colds. Mund's Bros, druggists.

**Carolina and Virginia.**

Our clever young friend, Mr. O. O. Vollers, was happily married at Staunton, Va., on Wednesday last, to Miss Emma P. Prufer, of that place. The ceremony was performed by Rev. P. H. Miller, of Westminster, Md. Mr. Vollers and his charming young bride arrived here last night on the fast mail from the North and to-day went up Black River, to Point Caswell, on a visit to the bridegroom's father, Mr. L. Vollers, at whose house a reception will be held to-night. On Monday night they will return to the city and on Tuesday will leave for Laurinburg, their future home.

**The Shooting Scrape Heard.**

Charles Bryant was before the Mayor this morning charged with an assault with a deadly weapon on Missouri Bowden. The Court Room was thronged with spectators.

Missouri Bowden testified as follows: The night before the shooting took place she was at a dance hall and Charlie Bryant, the defendant, called for her and she refused to go with him; then he became indignant and a quarrel ensued and they both agreed to break friendship and shook hands upon it. The next day, while at home, Missouri received a message that some one wanted to see her. She asked who it was and was informed that it was Charlie Bryant, but he had said not to let her know who it was. She then came down stairs and went out on the piazza to meet him; while going out her mother instructed her to go to the store and make a purchase for her. She met Charlie Bryant in front of the house and he followed her as she was going to the store and when she reached an alley he confronted her and said: "Missouri, did you mean what you said last night?" She replied, "I did," whereupon he ran his hand into his coat pocket and said: "I'll fix you." He immediately drew a pistol and fired. She then said to him: "Charlie, you have shot me," and seeing that he still held the pistol upon her, she turned and fled in the direction of her home. As she turned the pistol was again fired. She soon reached the gate and then heard the pistol fire the third time, and, finding the gate fastened, she feared to delay long enough to open it and fled a few feet beyond the gate, when she felt a pain in her side, which caused her to fall.

Maggie Self, a State's witness, testified that she was present when the message came from Bryant and saw Missouri when she went out to meet him.

Bryant was committed for trial at the next term of the Criminal Court in default of bond of \$100 for his appearance.

Why in thunder don't you go and register your name at once, and be done with it and save us all of this worry and talk in reminding you of it?

Mr. Chas. H. Robinson, Collector of the Port, returned to the city last night, with Mrs. Robinson, from a month's visit to friends and relatives at the North.

Here is a Problem for You.

MR. EDITOR—I should get the REVIEW every morning at 9 o'clock as the mail goes West, but I more frequently get it at 6 p. m., mail going East, it being retained in the mail 9 hours late. Why is this? Why not discharge it, as the mail goes West in the morning with the other mail? Very truly,

**Programme for the Parade.**

The following arrangements have been made by the Young Men's Democratic Club for the grand demonstration to take place in this city on Friday night, the 13th inst:

The members of the Young Men's Democratic Club in full uniform are requested to meet at Linder's Hall, corner of Front and Orange streets, at 7:30 p. m., and report for duty to their division marshals as soon thereafter as practicable.

The first division will form in front of the Market House, with the right resting up Front street, and the second, third and fourth divisions will form successively on the first division. The band will take the usual place on the right of the line, and will meet as prescribed for members. The procession will start at 8 o'clock sharp and move up Front street in the following order:

Chief Marshal and Staff (mounted).  
Germania Cornet Band.  
First Division Y. M. D. C., under supervision of Division Marshal G. L. Morton.  
Second Division Y. M. D. C., under supervision of Division Marshal L. H. Meares.  
Third Division Y. M. D. C., under supervision of Division Marshal Martin Newman.  
Fourth Division Y. M. D. C., under supervision of Division Marshal Geo. Branch.  
Citizens from various wards in the city.

A halt will be made at the Orton House, during which time the speakers for the occasion and the various committees in carriages will join the procession on the left.

**THE LINE OF MARCH**

Will then be resumed as follows: Up Front street to Chestnut, up Chestnut to Fourth, down Fourth to Princess, and thence to the Opera House.

Owing to sickness in the neighborhood of the Democratic stand on the corner of Dock and Third streets, the speaking will take place from the steps of the Opera House, the use of the same having been kindly offered and accepted. Seats for ladies will be placed in the City Hall Park.

We now have 213 lamps, which will be given to the members, and it is hoped that those who have been spoken to in reference to transparencies will furnish them for this occasion.

Each division marshal should supply himself with a transparency, with his division number on each side, so that the members can easily find their division.

The marshals and assistant marshals will report to the chief marshal promptly at 7:30 o'clock.

Those who have not secured beavers and bandanas should do so at once.

A place in line will be reserved for those who have not as yet secured a uniform, but it is hoped that each Democrat will see the necessity of coming out in full regalia.

J. C. MORRISON, Chief Marshal.  
J. T. MEDDLIN, 2d Ass't Marshal.

**Explanatory.**

There were some inaccuracies in our report yesterday of the grounding of the *Ravensdale* on the cut which should be corrected. In the first place the ship was not towed down by the *Marie*, she was not in a dangerous position (we did not say that she was) and she did not have to discharge any of her cargo. The steamship draws 15½ feet. She touched but lightly on the edge of the channel, and she went to sea to-day. Our information was derived from a party who passed up the river yesterday and saw the ship ashore, and we saw no reason then to doubt that our information was correct. With proper management it seems to us that the *Ravensdale*, drawing only 15½ feet, should have easily floated clear from the city to the sea.
