"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until it is strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortifled with pure blood and a properly nourished frame."—Civil Service Gazette. Included in the mineral resources of Utah, apart from its precious metals, are deposits of alum, some recently discovered veins of which are eighteen inches thick and several hundred feet in length, of dazzling whiteness and great purity. Beds of nitre are also found suffi ciently pure to readily fuse when thrown on hot coals. As is now well known, the Great Salt Lake is an immense, limitless magazine of salt, that can be readily obtained in any desired quantity by the simple process of evaporation. From this lake vast quantities of sulphate of soda are also secured, blown on shore at certain temperatures by the winds, where hundreds of tons are often piled up in a single night, that can be utilized in the cheap production of sal soda and carbonate of

The Plymouth monument is nearly completed, and will probably be finished in a few days. There are two statues, "Freedom" and "Law." The former is fifteen and a half feet high, and represents a young man of muscular frame seated. A Ro man helmet is on his head; he wears a coat of mail, and a lion skin is thrown over one shoulder. Resting on the right arm is a short sword, and in the left hand are links of a fast beneath the left foot. "Law" is also a huge seated figure. It is covered with a mantle, and the left for the monument are four in number, and are cut in relief from marble slabs. They represent "The Departure," "The Signing of the Contract," "The Landing," and "The Signing of the Treaty with Massa-

Favorable reports were made upon all these trials, that of the ord_ nance board being especially elaborate in its description of the trial at Sandy Hook. Our Government is not very apt, however, to lav out upon the patent rights of an invention of this kind a sum like the \$500,000 which France is said to have paid for the Graydon shell. The ability to use safely dynamite as the explosive charge of projectiles in powder guns is greatly desired. In the experiments at Sandy Hook a steel projectile weighing 122 lbs., discharged from a 7-inch wrought iron rifle, contained less than three pounds of dynamite. This is a very small charge compared with that which is used in the projectiles of the pneumatic gun. Still it was propelled by twenty-three pounds of powder, and was fired point blank 15th. at the target, thus securing a horizontal shell firing which the pneumatic gun does not give. One of its shells also fell at sea at a distance estimated to be over four miles. The use of the invention by its French owners will be watched with

Disease fastened its clutches upon her and for seven years she withstood its severests tests, but her vital organs were undermined and Dec. 10th. death seemed imminent. To the D mocratic Voters OF THE

UNITED STATES:

THE Graphic Publishing Company two Democratic newspapers—the DATLY GRAPHIC and the WEEKLY GRAPHIC. They are recognized throughout the United States as most loyal and consistent supporters of the Democratic party. Both papers are strong supporters of the National and State Administrations. The DAILY and WEEKLY GRAPHIC circulates in every State and Territory of the Union. The DAILY GRAPHIC is published at \$9.00 per aunum, and the Weekly is published at \$2.50 per annum.

The recently issued address of the National Democratic Committee to the people of the United States sets forth in plain language its pressing need of funds for the legitimate expenses of this campaign Never has money been subscribed more liberally, but never has there been such a demand for tariff documents Millions of these have been printed and circu lated at great expense. Millions more mus be raised.

In view of the urgent need for campaign funds the publi-hers of the GRAPHIC have de cided to make the following offer to the Democratic voters of the United States: To every subscriber to the WREKLX GRAPHIC between now and November 6 the paper wil not only be mailed for one year, but ONE HALF of the subscription price (\$1,25) will be

immediately sent to the National Democratic

Committee, and acknowledged by it. Now, then, how does this strike you? You receive the Weekly Edition of the best Demo cratic, as well as the best Daily Illustrated paper in the country at its regular subscrip tion price for one year, dating from October 1 1888, and you help your party perpetuate the principles of Democracy and Tariff Reform.
