A PHYSICIAN'S OPINION. of despair as yet. The country that stood four years of Hayes and eight years of Grant will probably survive during Mr. Harrison's brief occupancy of the White House.

There is no doubt now that the Mayoralty contest in New York had much to do with Cleveland's loss of the State. But for Abram S. Hewitt the split would have been healed. Hewitt was a very big man a year ago but a very small one to-day. In sacrificing C'eveland to Hewitt he has also sacrificed Hewitt to Harrison.

We think that the Democrats have been left in control of the Honse of Representatives, although it has been a close shave. There will not be many to spare. The World claims six majority and the Herald gives us but two, with one labor vote. Nu merically the delegation from this State is unchanged. We have lost one and gained one.

The New York Herald has found a mare's nest. It cites numerous reasons for the Democratic defeat, some of which are very remotely connected with the case. Its most prowerful argument, however is on the tariff question and there we must confess that it carries a level The Democrats were beaten mainy because they undertook in aPresi dential year to spring a question on the people about which they had avoided instructing the people in the previous years. That was to drill their recruits in the face of the enemy. It was this against which the Herald took the liberty to warn them a year ago, and for this kindly warning we got only curses and impertinent rebuke.

Cleveland is, if possible, more glorious in defeat than he was in victory. He says, what is very true that the result of the election is not for him, a personal defeat. He said this to a Herald representative:

"You desire to learn, you say, to what cause I attribute our loss of New York. I answer frankly that I do not know. Ishould say"-and the President laughed quietly-"that it was mainly because the other party had the most votes. Your remark when you entered the room indicates that you regard me as indifferent to the result. I. am not indifferent. I look upon the situation from a practical and com mon sense standpoint. It is not a personal matter. It is not proper to speak of it either as my victory or as my defeat. It was a contest be tween two great parties battling for the supremacy of certain well defined principles. One party has won and the other has lost-that is all there is to it."

Mahone, it seems, figured in the recent election as the Burchard of New York and the Eaves of North Carolina. He said: "Never mind what the Richmond Dispatch says as to the powers and duties of supervisors-in effect that they have no right to supervise the canvass of the vote for electors. That is true, but the votes for candidates for Congress are cast by one and the same ticket, and it is the duty and right

McClammy's Majority.

Maj. McClammy has done nobly. His majority over his competitor, Mr. W. S. O'B. Robinson, who is probably the brainiest man the Republicans have in the Third District, is about 3,800.
