St. Louis, where the Democratic National Convention was held, went Republican. Chicago, where the Republican National Convention was held, went Democratic.

The vote of Massachusetts shows an increase of 24 per cent, in the Democratic column in the last four years, and of 25 per cent. in the Republican column.

The export of diamonds from South Africa for 1887 was 3,598,930 carats, worth £4,240,000, against 3, 135,000 carats, worth £3,500,000, for the previous year.

Judge Sawyer, of San Francisco, has decided Chinamen born in the United States to be American citizens, and Judge Deady, of Oregon, in a similar case, has gone a step farther and decided that a Chinese woman born in this country, visiting China, and then returning to the United States, is still a citizen and has a right to land here.

Republicans from Virginia in Washington, according to the correspondent of the Alexandria Gazette, say that General Mahone not only defeated Langston, but Yost also; that Mr. Harrison has been kept advised of his course during the whole of the campaign; and that they are certain the General will be accorded no favors by the new Ad ministration.

The New York correspondent of the Philadelphia Times says: "Chairman Brice has won the admiration of all his associates by hisnerve and grit. He contributed largely to the campaign fund of his party, and I am reliably informed that he has taken upon himself all outstanding bills and that not a penny discount will be asked upon one of them."

The London police appear to have been baffled in their attempts to solve the mystery which surrounds the horrible series of murders in other pretentious specifics fall to eradicate in- that city. That one man's devilish tern scrotnla or contagious blood potson, re- cunning should prevail against the trained intelligence and experience of a whole force of detectives is almost incredible, and there is little wonder that the matter should have been made the subject of inquiry in Parliament.

The pauper figures in London are nteresting. The last week in Sep tember showed 92,528 paupers re ceiving indoor and qutdoor relief This, out of an enumerated popula tion in 1881 of 3,815,000, shows an increase of 2.295 over the correspond theumatism drew up my limbs so I could nard- ing week in 1887, of 4,924 more than in 1886, and 6.609 more than in 1885 This steady increase in pauperism means painful social conditions, and suggests the reflection that it would be well for England to devote some of the energy given to South African, Burmese and other questionable experiments to civilizing savage and starving London.

Willie Hill, colored, disorderly conduct, pleaded former conviction and was discharged.

Wm. Gordon, drunk and down. Judgment suspended, with the assurance that if found drunk again he would be fined \$20.

A young man, whose name we surpress on account of his respectable connections, was arraigned on the charge of larceny of a pistol from the store of Mr. H. L. Fennell. The charge was sustained and the defendant was required to give a justified bond in the sum of \$100 for his appearance at the next term of the Criminal Court.

Southern Tourists.

The Atlantic Coast Line, and in fact all the other great lines of travel leading to the South, have made every preparation to accommodate the demands of travellers and tourists to Florida during the season that is now rapidly approaching This shows business sagacity and good judgment, but the questravel so far South will be so great as it has been during the last few years or not. Railroad officials sented. In short the entire per know, better than any other class of people, what the outlook is and what may reasonably be expected so far as travel is concerned, and, while it seems to us that the fearful now raging in Florida, would deter a great many from venturing to that State, there is not the shadow of doubt that the Southern travel previous year, with a strong probability that it may be larger. But we imagine it will be diverted the coming season from the course it that a great many tourists have in past seasons spent their Winters in Florida, will find other places for the present season in which the fear of epidemic does not exist. It is now that the superior advantages of this city as a Winter and health resort should be heralded to the travelling public; that the salubrity of our climate should be made known, and that MR. MOUNTJOY WALKER, our many attractions for hunting, fishing and other delightful sports and recreations should be thoroughly advertised.
