CAUTION

Beware of Fraud, as my name and the price are stamped on the bottom of all my advertised shoes before leaving the factory, which protect the wearers against high prices and inferior goods. If a dealer offers W. L. Douglas shoes at a reduced price, or says he has them without my name stamped on the bottom, put him down as a fraud.

W. L. DOUGLAS \$3 SHOE, GENTLEMEN.

The only call for SEAMLESS shoe smooth inside. NO TACKS or WAX THREAD in the foot, easy as hand-sewed and WILL NOT RIP.

W. L. DOUGLAS \$4 SHOE, the original and only hand-sewed \$4 shoe. Equals custom-made shoes costing from \$8 to \$10.

W. L. DOUGLAS \$5.50 POLICE SHOE. Railroad Men and Letter Carriers all wear them. Made as a Hand-Sewed Shoe. No Tacks or Wax Thread to hurt the feet.

W. L. DOUGLAS \$2.50 SHOE is unequalled for heavy wear. Best Call Shoe for the price.

W. L. DOUGLAS \$1.75 WOMEN'S WORKING SHOE. The best in the world for a year's wear. One pair ought to wear a man a year.

W. L. DOUGLAS \$2 SHOE FOR BOYS. The best School shoe in the world.

W. L. DOUGLAS \$1.75 YOUTHS' School shoe gives the small boys a chance to wear the best made in the world.

All made in Congress, Button and Lace. If not sold by your dealer, write W. L. DOUGLAS, WILMINGTON, MASS.

The National Republican is to be revived as the official organ of the Administration of President Harrison.

The Topeka Capitol claims that Kansas has saved not less than \$12,000,000 since her Prohibition law went into effect.

The two handsomest chrysantheums at the prize show in Philadelphia were valued at \$1,500 and \$1,200 respectively. This for one plant.

A novelty exhibited at the New York horse show is the sulky sleigh intended for winter use. It is built in the same way as the ordinary racing sulky, light and having steel springs, but instead of the wheels a short pair of runners is substituted.

A novel method of driving machinery by ammonia vapor, which it is claimed will revolutionize marine engineering, is to be tried in a few days on the new Red Star tug Hercules, which is now being prepared for the experiment at Philadelphia.

There is a mine near Leadville in to which women are never admitted. If a woman were permitted to enter this mine I believe, says a writer in the Denver Tribune, every man on the premises would quit work. The mine has had an accident for every woman who has visited it. Immediately after a woman has been admitted some mishap, with damage to property or life, has followed. Hence the superstition of the miners.

New York gossips assert that Mrs. James G. Blaine, Jr., will return to the stage after she has recovered her health. Before her misalliance with her scapegrace husband she was a pupil of Modjeska, and was under contract for the entire season. A summer at Long Branch settled the question another way. She played lawn tennis with young Blaine, fell in love with him, and gave up her stage aspirations to become his wife. The understanding is that the young couple will not reunite.

A distinguished Democratic leader who recently talked with the President regarding the election quotes Mr. Cleveland as saying: "I am told that without the tariff issue in the last campaign we should have carried the country. That may be true, but the time had come when the issue between the two parties had to be made and the Democrats made it. I don't regret it. It is better to be defeated battling for an honest principle than to win by a cowardly subterfuge. Some of my friends say we ought to have gone before the country on the clean administration we have given the people. I differ from them. We needed a clean cut, well defined issue. We were defeated, it is true, but the principles of tariff reform will surely win in the end."

It is pretty well understood that the conductors of Harper's Magazine always intend to issue a Christmas Number which shall be not only complete in itself, but arranged on lines somewhat different from those followed during the rest of the year; and the articles in the Christmas Number for 1888 were selected, evidently, with this end in view. The result is an issue strong and novel. The originality of its pages is, perhaps, most striking in the short stories (the serial stories all ended in the November Number)—as in "The Christmas Story of a Little Church," by Grace King, "Sossus Dismal," by W. W. Archer, and "The Front Yard," by Miss Woolson—this last being a daring comparison of Italian and New England natures and ways. In poetry, too, the number is exceptionally good. Artistically, it has never been surpassed.

At the regular monthly meeting of the Medico-Legal Society, in New York, on Wednesday night, a report relative to executions by electricity was read, from which we extract the following: "After mature deliberation we recommend that the death current be administered to the criminal in the following manner:—A stout table covered with cloth, and having holes along its borders for binding, or a strong chair, should be procured. The prisoner, lying on his back or sitting, should be firmly bound upon this table or in the chair. One electrode should be so inserted into the table or into the back of the chair that it will impinge upon the spine between the shoulders. The head should be secured by means of a sort of helmet fastening to the table or back of the chair and to

this helmet the other pole should be so joined as to press firmly with its end upon the top of the head. We think a chair is preferable to a table. The rheophores can be led off to the dynamo through the floor to another room, and the instrument for closing the circuit can be attached to the wall.

"The electrodes should be of metal, not over one inch in diameter, somewhat ovoidal in shape, and covered with a thick layer of sponge or charnois skin. The poles and the skin and hair at the points of contact should be thoroughly wet with warm water. The hair should be cut short. A dynamo generating an electro motive force of at least 3,000 volts should be employed. Either a continuous or alternating current may be used, but preferably the latter. The current should be allowed to pass for thirty seconds."

"Smoke always tells the way the wind blows," that's true. And the happy woman, who was cured of chronic headache by using Salvation Oil, might be excused for telling the good news to the entire neighborhood.

Pleasant sunshine to day and to-morrow the dust will begin to rise from the streets again.

The worst feature about catarrh is its dangerous tendency to consumption. Hood's Sarsaparilla cures catarrh by purifying the blood.

Indications.

For North Carolina, fair and slightly colder weather.

The next entertainment booked for the Opera House is along in December, about three weeks from this time.

A nice line of breech and muzzle loading guns, pistols and rifles can be seen at Jacobi's Hdq. Depot. If you want the best goods at the lowest prices, Jacobi's is the place you are looking for.

The German barque *Toni* was cleared yesterday by Messrs. Pater-son, Downing & Co, and not by Messrs. E. G. Barker & Co, as we had it.

There are very few local happenings now worth chronicling and we have never before known such an absolute dearth of local news.

It might pay the Orton House and the Seacoast Railroad to keep men on the road all of the time, trying to induce travelers to stop over here.

There was a foolish report in Richmond when we were there that the Richmond and Danville people had bought the Wilmington and Weldon Railroad but of course nobody believed it.

City Court.

There was a small attendance at the City Court this morning and a docket that showed up two cases, which were disposed of as follows: Mary J. Lawrence, disorderly conduct, \$20 or 30 days.

Sam Larkins, assault and battery, case continued.

Rock Crystal Spectacles and Eyeglasses.

Advice to old and young in selecting spectacles you should be cautious not to take more magnifying power than has been lost to the eye as in the same proportion that you pass that point of increase, will cause you further injury to the eye. Using glasses of stronger power than is necessary is the daily cause of premature old age to the sight. You can get the best at Heinsberger's.

Spare the Mocking Birds.

Some are complaining of the fact that mocking birds are getting very scarce here now, due to the fact that the boys go hunting in the woods and shoot them. We do not think that there is any law against this but there ought to be and the boy that would shoot a mocking bird ought to be spanked and sent to bed without his supper.

A Baby Brigade.

The "Busy Bees" of St. James' Church hope to see at their Lawn Party to-morrow afternoon all the children in the city, with their mothers, grand-mothers, uncles, aunts and cousins (of course the grand papas will be on hand) to see all of the pretty babies in the city, and to get lots of good things to eat. There will be a lovely prize for the handsomest baby under five years of age. Two young ladies will act as judges. Fair weather and a good time promised to all. Entrance fee 5 cents only.

Peterson's for December.

Peterson's Magazine for December is a holiday gift in itself. Beautiful steel and wood engravings, effective fashion plates and handsome needle-work designs are given in abundance. The literary contents are excellent. "Out With Mosby's Men" is a Southern lady's reminiscence of war days, told in a delightful way. "Peterson's" stands at the head of family periodicals, its stories rank with those of any other magazine, its authors all being well known writers. The fashion, needlework and household departments cannot be surpassed. *Peterson's Magazine*, Philadelphia, Pa.

Closed With a Farce.

There was a large audience present at the Opera House last night to see "Zozo, the Magic Queen." It was probably the largest assembly seen there this season, and there were many ladies present. The company is a fine one and the performance was splendid, until towards the close, when all life seemed to drop out of the piece and it was abruptly cut short and hurried to a close. The equilibrist did not appear at all and the grand tableau, so called, at the close was a perfect farce. Why this should have been we are unable to say, as the troupe did not leave here until 12:05 o'clock for Norfolk, where they play to night and to-morrow night.

The Durham Failures.

Our report yesterday as to the failures in Durham was substantially correct. There were several names, however, that we did not give. The liabilities are about as we stated them. The Associated Press report is as follows: "The Bank of Durham made an assignment last night, but it was not made public till this forenoon. Several of the largest business establishments in Durham are involved. The list of failures is as follows: Bank of Durham—a State bank owned by W. P. Blackwell—liabilities estimated at \$400,000, with estimated assets of upwards of \$800,000. E. J. Parrish, warehouseman and manufacturer of smoking tobacco; liabilities \$190,000; estimated assets \$300,000. J. W. Blackwell, coal-dealer, contractor, etc.; liabilities \$110,000. W. F. Ellis, dry goods dealer, Muse & Shaw, dry goods dealers, \$10,000. Robbins & Stone, dry goods, \$8,000.

It is believed that in every instance the assets will more than cover the liabilities. The immediate cause of the assignment of the bank is the fact that the institution had a heavy line of discounts at the North which it could not get renewed. It is stated that Blackwell will be able to pay all his creditors in full. The doors of the bank remained closed this morning, notice being posted stating that all creditors would be paid dollar for dollar. There has been no run on the other Durham banks, all of which assure the public that they are ready to meet all demands. J. S. Carr is believed to have been affected very slightly, if at all, by the assignments. Raleigh is not affected in the least and not a single individual here will suffer. The assignment of the bank was the cause of the other assignments, all of which were made almost simultaneously. It is not supposed that the crash will prove particularly disastrous to Durham, as it is believed all the houses involved will be able to pay all their liabilities and leave a surplus remaining, and will resume business at once.

Finest line and largest assortment of seissors, pocket and table cutlery ever shown in this city, at Jacobi's Hdq. Depot. †

Schr. Luella A. Snow, Webster, cleared to-day for Cape Haytien with 140,000 feet lumber, valued at \$1,771.21, shipped by Messrs. S. & W. H. Northrop.

The Lecture To-Night.

The Y. M. C. A. and others who have availed themselves of the tickets to Rev. Mr. Strange's lecture to night are looking forward with great interest to it. It will be delivered at 8.15 in the rooms of the Association, just over the Bank of New Hanover. The subject is "Purity" and it is for men only.

A Home-Made Boat.

P. D. Robbins, of Hallsville, Duplin county, an enterprising and industrious colored man of that locality, is here with a new steamer which is to ply between this city and points on the North East Cape Fear. The boat was built by himself. He sawed the boards at a mill which he owns and put the boat together. He was twelve months in completing it, as he worked on it only at odd times. The little craft is 70 feet 10 inches long and 14 feet beam.—Her speed is calculated at about 7 miles an hour and she will draw but two feet when loaded. She is to be inspected here and will then be put regularly on the river.

Stole the Girl's Money.

Two of the men belonging to the Zozo troupe were arrested last night, after the performance, by Officer Turlington, and taken before the Mayor, charged with having stolen \$14 from one of the slim-limbed beauties of Zozo's court. One of the men was arrested at the Opera House and the other at the depot. The prosecutress appeared in court, backed up by one of her actress friends. The two defendants are the property men of the troupe and the money is alleged to have been stolen during the rehearsal yesterday afternoon. A sum equal to the missing amount was found on one of the men but as the complainant could not positively identify the bills the Mayor was reluctantly compelled to dismiss the case. There seemed but little doubt of the fellow's guilt but unfortunately it could not be proven.
