**Pimples, Sores, Aches and Pains.** When a hundred bottles of sarsaparilla or other pretentious specifics fail to eradicate inborn scrofula or contagious blood poison, remember that B. B. B. (Bottanlo Blood Balm) has gained many thousand victories, in as many seemingly incurable instances. send to the Hood Balm Co., Atlanta, Ga., for Book of Wonders, and be convinced. It is the only TRUE BLOOD PURIFIER. G. W. Messer, Howell's X Roads, Ga., writes: "I was afflicted nine years with sores. All the medicine I could take did me no good. I then tried B. B. B. and 8 bottles cured me sound."

Mrs. S. M. Wilson, Round Mountain, Texas, writes: "A lady friend of mine was troubled with bumps and pimples on her face and neck. She took three bottles of B. B. B., and her skin got soft and smooth, pimples disappeared and her health improved greatly." Jas. L. Bosworth, Atlanta, Ga., writes: "Some years ago I contracted blood poison. I had no appetite, my digestion was ruined, emaciation drew up my limbs so I could hardly walk, my throat was constricted, my eyes, hot springs gave me no benefit, and my life was one of torture until I gave B. B. B. a trial, and, surprising as it may seem, the use of five bottles cured me." nov 19 1888 dawley

**News and Observer:** Our table of members of the Legislature, revised to the hour at which we write, shows that there will be in the Senate 37 Democrats and 13 Republicans; in the House 83 Democrats, 35 Republicans and 2 Independents.

**News and Observer:** We need the official votes of the counties of Dare, Gates, Martin, Surry, Brunswick, Richmond, Alleghany and Haywood, to make our table of the State vote complete. Without these the actual official figures for the State give Fowle a majority of 13,010.

W. W. Dudley is to be indicted in Indiana and we hope that Eaves will be indicted also in North Carolina. They are a precious pair. A dispatch from Indianapolis in the New York Star says:

The Federal Grand Jury have returned two indictments against violators of the Election laws, and adjourned till December. The Federal Election laws do not provide for punishment for cases of attempted bribery, and some two hundred cases that have been reported under this head will be sent back to be tried in the State courts, which will result in the escape of many who are no doubt guilty.

Among the first cases to be investigated when the Grand Jury reconvenes is that of W. W. Dudley, treasurer of the National Republican Committee. It is claimed that additional evidence has been received showing that each county chairman in the State received such a letter as that published.

Even the Republicans have ceased to defend Dudley, and the instructions of Judge Woods to the Grand Jury have convinced every one that he believes Dudley guilty, and the Republicans generally have settled down to the same opinion.

In mining districts where men have been burned or bruised by carelessness, Salvation Oil has been used to great advantage. It is now sold by all druggists at twenty-five cents a bottle.

Buy the Jacobi Axe. Best made. Every one warranted at Jacobi's Hdw. Depot.

Ger. barque Adolph, Westerdorf, sailed from Buenos Ayres, Oct. 11th for this port.

Those who have studied the goose bone very carefully say that it promises us a hard winter.

Col. W. P. Canaday, Sergeant at Arms of the United States Senate, was in the city to-day.

There is economy in using a good heating stove and in buying same from Jacobi's Hdw. Depot.

All kinds of School Books and School Supplies can be bought cheapest at Heinseberger's.

Catarrrh originates in serofulous taint. Hood's Sarsaparilla purifies the blood and this permanently cures catarrrh.

If you want a picture framed go to Heinseberger's. He has a large assortment of Mountings to select from.

Finest line and largest assortment of scissors, pocket and table cutlery ever shown in this city, at Jacobi's Hdw. Depot.

There is good sport now at the Sound shooting ducks. There were thousands in the water at Wrightsville yesterday and they came in close to the shore.

Indications. For North Carolina, threatening weather and rain and stationary temperature, except in the extreme east portion, which will be colder.

Increasing winds were expected last night and the cautionary signal was ordered up here and at Morehead yesterday. They were lowered this morning.

Richmond is a famous meat market yet in a stroll through one of the markets in that city a few days ago we found no better beef there than is sold here by Mr. Garrell. There is one thing we found, however, and that is that the prices for beef there are much higher than is charged here.

**Rock Crystal Spectacles and Eyeglasses.** Advice to old and young: In selecting spectacles you should be cautious not to take more magnifying power than has been lost to the eyes in the same proportion that you pass that point of increase, will cause you further injury to the eye. Using glasses of stronger power than is necessary is the daily cause of premature old age to the sight. You can get the best at Heinseberger's.

**City Exam.** There was a small crowd assembled at the City Court this morning and the following cases were disposed of:

Obadiah Jenkins, disorderly conduct, \$20 or 30 days. James Davis, disorderly conduct, \$5 or 10 days.

Ellis Patrick, horse running at large, judgment suspended.

The success of the Republican party seems to have made an ardent fool out of a consummate rogue. His name is Quay. Having bought enough Democrats in New York to elect Hallison, Quay is now trying to bulldoze the Democrats into allowing him to steal the next House. Bah! Quay is an ass. Anybody but a born idiot can see the long ears sticking out under the lion's skin.

**The Baby Show.** Saturday was a bad day for the babies and yet there were lots of little folks out at the Busy Bee Festival at Mrs. Houston's residence. The first prize in the baby show was awarded to Eddie Bailey and the second to Eddie Garriss. The girls got left but the prizes were gold rings and if the rings will only grow up with the boys the girls will get the prizes eventually.

**First Grand Ball.** The first grand ball of the season will be given by Howard Relief Fire Engine Company No. 1, in Adrian Hall on Wednesday evening, Messrs. J. H. Grotgen, C. E. Hall, W. H. Bloom, J. G. W. Tinkon, H. H. Gieschen and J. W. Duls are on the committee of arrangements and their names are a sufficient guarantee of the fact that no pains will be spared to make it a notable and enjoyable occasion.

**Death of Mrs. Geo. Walsh.** We regret to learn of the death, in this city, yesterday morning, of Mrs. Laura Walsh, wife of Mr. George C. Walsh. She had been sick for several weeks and her death was not unexpected, although every step of the insidious disease was fought with all of the skill and persistency that could be commanded. Mrs. Walsh was in the bloom of youth, and had been married but four short years and her death is a terrible blow to her afflicted husband and the many dear friends whom she had won here, as well as to the mourning parents and relatives in her childhood's home in Marion, where she was born and wooed and wedded. She leaves two small children. The remains were taken to Marion last night for interment and the casket was literally buried beneath the mass of flowers which the kind hands of many loving friends had reverently placed there.

## Cape Fear River and Bar.

Work on the improvement of Cape Fear River and Bar will be resumed in a few weeks. Capt. W. H. Bixby, U. S. Engineer in charge has issued a number of "Information circulars, as to each of the Rivers and Harbors in North Carolina," and one of these is now before us. Capt. Bixby gives the commercial statistics of each department on one page and a history of operations on the other, and from this latter we quote as follows:

The Cape Fear River, emptying into the Atlantic Ocean at Cape Fear, has, from its mouth up to its headwaters in the mountains, a total length of about 425 miles and a drainage area of 9,115 square miles. The two main branches of this river meet at Wilmington, bringing with them an average fresh water discharge of 14,000 cubic feet per second. Below Wilmington the river is a tidal basin, with about 26 miles length, 350 square miles drainage area, 37 square miles water surface, 3.5 feet average rise of tide (2.5 at Wilmington, 4.5 at the ocean), and an average discharge during ebb of 160,000 cubic feet per second, the ocean bar being 5 miles seaward of the river mouth.

When placed under improvement in 1829, this stream had three bar entrances, with least depths as follows: about 9 feet at the Baldhead Channel, 9 feet at the Rip Channel, and 10 feet at New Inlet Channel, these bars being respectively, 0.6 and 2 miles below the point which was then the head of the river's delta. From the head of the delta, 20 miles up to Wilmington, there were several shoals with a least depth of 7.5 feet at low water. The commerce in 1827 was about \$13,500,000, of which \$1,500,000 was foreign export.

The original project of 1827 to 1847 proposed to improve the upper 20 miles by dredging and by jetty contraction of the channel; \$203,294.59 were spent during this time in increasing the depth upon the shoals to 9.5 feet at low water, equal to that at the bar entrances. At or about this time the shore at Fort Caswell, opposite Baldhead Point, was protected by stone jetties, under an appropriation for the Preservaton of Fortifications.

The projects of 1852 to 1857 proposed to deepen the water at the main entrance by jetties at Baldhead Point, and by jetty and dike obstructions between Zeke's Island, and Smith Island, near New Inlet, and suggested the possible future necessity of closing New Inlet; \$136,296.26 was spent during this time upon these works, never fully completed for want of funds.

The project of 1870 proposed a crib closure of the space (4,403 feet long) between Smith's and Zeke's Island (finished in 1873) to prevent further widening of New Inlet. The projects of 1870 to 1872 proposed the complete closure of New Inlet (begun in 1875 and finished in 1881), in order to deepen the water at the main (Baldhead) entrance. The projects of 1872 to 1883, as continued the project, proposed the extension of the New Inlet Dam 2 miles further down the stream, to prevent the further erosion of Smith's Island at the Swashes. The project of 1875, as continued to date, proposed the occasional use of dredging upon the outer bar to assist the tidal currents in gradually localizing, straightening, deepening and fixing the bar entrances; to obtain first, a 12 foot depth at low water, and then a 14 foot depth. The projects of 1874 to 1881 for the 20 miles above New Inlet, as continued to date, proposed dredging and occasional diking wherever necessary across shoals, so as to secure first a 12 foot channel 200 feet wide, and afterward, a 16 foot channel 270 feet wide at low water, over this whole length.

The total final cost of this work under the projects of 1872 to 1885 was estimated in 1886 at \$2,110,000. On account of inadequate yearly appropriations and their consequent loss for damage to unfinished work, care of property, extra superintendence, and deterioration of plant, extra surveys, etc., these estimates are now (1888) raised to \$2,125,000.

The aggregate amount appropriated for the existing projects of 1872 to 1882, up to June 30, 1888, is \$1,860,000.

Up to the 30th June, 1888, a total of \$1,851,001.74 has been expended in all upon the proposed improvement of 1870 to 1885, with great success, obtaining a 14.0 to 14.5 feet least depth of water at the main bar entrance, and completing a channel of 16 feet depth and at least 185 feet width, 28 miles farther to Wilmington. This depth, combined with the average rise of tide of 4.5 feet at the bar and 2.5 at Wilmington, is such that, at present, vessels loaded to 16 feet draught (9.5 feet more than in 1871) can readily go from Wilmington to the ocean in a single tide any day of the year.

The total commerce, exports and imports, foreign and coastwise, has increased from about \$13,500,000 of transported goods in 1870 up to about \$20,000,000 in 1887, and its foreign exports alone, from about \$1,500,000 in 1871 to about \$3,000,000 in 1887, showing that each dollar once spent on this improvement has already been accompanied by the development of about \$3.30 of annual foreign commerce, although the last

increase of 2 feet in draught in the channel is too recent to have produced its natural effect on such development.

The navigation of this river below Wilmington is not obstructed by bridges of any sort. It is recommended: That the above improvements be carried on by completing the unfinished dike south of Zeke's Island so as to thoroughly secure Smith's Island from further erosion by the ocean, and by widening and deepening the existing river channels to their full dimensions of 270 feet width and 16 feet least depth at low water, and by straightening, deepening the bar entrance; at a total expense of \$255,000, in addition to the funds available June 30, 1888, this whole amount to be appropriated in one sum during the next fiscal year.

Smaller yearly appropriations involving the alternate disorganization and reorganization of working parties, damage to unfinished work, deterioration of plant, and extra superintendence may increase the cost of the work by from \$6,000 to \$20,000 per appropriation. So far as can be seen, at present, the above will complete all existing projects for this improvement.

After this improvement is finished its proper maintenance may cost from \$5,000 to \$15,000 per year for a few years, but the improvement should be fairly permanent.

## The Wedding Bells.

Our young friend, Mr. Robert R. Beilamy, of this city, was happily married at the residence of the bride's father, in Vance county, on the 14th inst., to Miss Lilly, youngest daughter of Col. John Hargrove. The happy couple left soon after the wedding for a tour of some of the Northern cities and will arrive here in a few days. We tender them our most sincere wishes for a long life of happiness and prosperity.

Br. steamship Fernland, Sellers, from West Hartlepool, England, arrived here yesterday, and Br. steamship Enfield, Vasey, from Hamburg arrived here to-day.

The receipts of cotton at this port to-day foot up 1,881 bales.
