as second-class matter. The difficulty encountered in pushing the work of naval construction is sho · n by the repeated instances in which of late the time for receiv ing bids for work and material on new vessels has been extended. This is true of the Maine, the coastdefence vessel and the submarine boat, and it will undoubtedly be true of the Texas, as it has been of others proceding. With all the energy of Secretary Whitney he has been unable to have a single vessel ready at the time agreed, and some of them have been very greatly delayed. The postponements in the case of the Roach cruisers are also well remembered. All this has now come to be taken almost as a matter of course. Indeed, it is not strange, in view of the lack of experience of our country, until of late, in the art of building modern ships of war, coupled with the habit of making almost every new vessel an advance on its predecessors of the same type, so that there is always an element of is that those who are counting on the vessels that have been authorized, as if they were already "available for war," are reckoning unwisely. Not even the earliest of the

vessels designed under the present

Administration is ready for sea.

But, says the Radical, all these sums only amount to 1,100,-000 francs. Whence comes the rewon't tell.

inquiry concerning farm mortgages in one county of Nebraska. The investigation was made by a gentleman connected with that journal who "believes in the merits of the Western farm mortgage business," but cannot commend the course pursued in the county under examina tion. He procured a complete re cord of all the mortgages in force in Phelps county, Neb., on December 1st, 1888. It appears that while the Munds Bros., druggists. number of farms in the county, at the beginning of the year 1888, was 1,459, the number of mortgages on December 1st was 2,051. An Important Announcement

About six weeks ago, while at business, I
was suddenly attacked with exeruciating
pains in my feet, knees and hands. So severe
the attack that I took my bed immediately,
and in two or three days my joints were
swollen to almost double their natural size,
and sleep was driven from me. After suffering the most excruciating pain for a week,
using liniments and various other remedies,
a friend who sympathized with my helpless
condition, said to me:

"Why don't you get Swift's Specific and
use it. I will guarantee a cure, and if it does
not the medicine shall cost you nothing."

I at once secured the S. S. S., and after
using it the first day, had a quiet night and
refreshing sleep. In a week I felt greatly
benefitted. In three weeks I could sit up and
walk about the room, and after using six
bottles I was out and able to go to business.
Since then I have been regularly at my post
of duty, and stand on my feet from nine to
ten hours a day, and am entirely free from
pain. These are the plain and simple facts
