Information comes from London that the proper dog now is the greyhound. Greyhound pups have recently fetched as high as 850 guineas, that price having been paid at a London auction for the puppy "Fullerton." Sixty to seventy guineas is said to be a common price for young dogs with any claim to blood.

It means that when it bursts-and burst it will assurely as the sun will rise to-morrow - it means not, as in former days, a contest between two highly trained ar mies, but a war of extinction, of devastation, between great armed nations whose populations are armed and trained to fight:"

The chair in which President Cleveland has sat for four years is one that he had made to order and paid for himself. A Happy and a Prosperous New Year

We thank one and all of our patrons and friends for their liberal patronage during the year just closed, and assure them that no pains on our part will be spared to still further merit their confidence.

We are constantly adding the latest production from the Type Founders, but have not thought it necessary to speak of every new font of Type we buy, preferring to let our competitors, who occasionally make a small investment for new material, do the blowing; they invariably copy our styles, and endeaver in every way to duplicate us, becoming mere imitators.

We purpose increasing our facilities during the year, and can safely handle any work offered us.
