The Daily Review.

JOSH. T. JAMES, Editor & Prop'r. WILMINGTON, N. C.

TUESDAY, FEB. 19, 1889.

Entered at the Postoffice at Wilmington, N.C. as second-class matter.

Georgia's new capitol at Atlanta is nearly ready for occupancy, and the Legislature, which meets July 1st, will hold its sessions in it. The cost of the building was about one million dollars, and it is conceded to this wonderful Discovery free at be one of the handsomest and most commodious State capitols in the retail drug store. country. With the exception of \$33. 900 expended for stone in Indiana, nearly all the material was furnished from Georgia, the marble costing \$46,500. In all nearly \$700,000 was spent in Georgia, including \$400,000 and 24. for labor and superintendence. The building was erected under the di rection of a commission appointed by the State, and the expenditures were kept within the appropriation.

The Philadelphia Times says 'Curious stories come from the Ponce de Leon Hotel, in St. Augustine. Mr. Flagler's expenditure there now amounts to nearly \$6,000,000. Early in January there were only twelve guests in the hotel. Mr. Flag ler, however, does not seem discouraged. He has just bought the railroad running from St. Augustine to Palatka and from St. Augustine to Jacksonville. Last Sunday he changed both of these to broad gauge roads, and shortened the schedule more than one-half. He is going to build a bridge over the St. John's, so that the vestibule trains can run into St. Augustine from New York without transfer. He is building an opera house in St. Augustine at a cost of \$300,000, a magnificent church | couldn't be done. Ransom-Why and a union depot that will cost not? Smith-The mortgage would about \$200,000."

Prof. Pasteur is hard at work studying the diphtheria microbe. He claims to have discovered the germ and is now working to find its antidote. In an interview with the Paris correspondent of the New York World, he says: "We have found the deadly germ, but we have not as yet secured a prophylactic for its cure or prevention. My confrers are now at work solving the problem, and from their success so far in the original field of research I have but little doubt that the inoculating fluid will soon be forthcoming. We have the virus bottled and corked. We can give diphtheria to any number got two bars when some one hit him of rabbits and dogs and kill them as effectually as though they had caught it first hand in the regular course of events. I have not, how ever, succeeded yet in attenuating the virus, and so cannot innocu-

It is forty years since a new executive department of the Govern ment was created. The State Department and other departments of the Government in 1848 had become overburdened with public business The result of the war with Mexico was a large acquisition of territory. The discovery of gold in California opened up a new era in emigration to the West, and the land question was becoming a very important one. The business of the Patent Office was also increasing. The details of the census, the care of the Indians pension and bounty matters were multiplying details. All these were grouped under the new department, and the Act making it the Interior Department was approved March 3d, 1849. Naturally agricultural mat. ters aggregated under the Secretary of the Interior until 1862, when Congress created a department of agriculture, independent entirely of the Interior Department, but made its head only a commissioner. The new department which is now to take a part of the burdens of the interior under its care will be known as the Centennial Department of the Government. One hundred years ago the State, Treasury, War, Postoffice and Attorney General's office were created by Act of Congress, and these five Cabinet positions were filled that year by President Wash ington. The Navy Department did not begin until 1796. For fifty-two years thereafter these six departments had charge of the executive business of the Government, and the new department just now created completes the octette.

It is a Curious Fact That the body is now more suscep tible to benefit from medicine than at any other season. Hence the importance of taking Hood's Sarsaparilla now, when it will do you the most good. It is really wonderful for parifying, and enriching the blood, creating an appetite, and giving a healthy tone to the whole system. Be sure to get Hood's Sarsaparilla, which is peculiar to itself.

Ransom-I thought you said you were going to move your house, Smith? Smith-Well, I did think of it, but came to the conclusion it break the jacks.

Advice to Mothers.

MRS. WINSLOW'S SOOTHING SYRUP should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the cnild from pain, and the little cherub awakes as "bright as button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoa, whether arising from teething or other causes. Twenty five cents a bottle. july 6 deod&w1y

"Did you hear about the burglar who was arrested this morning?' No; what for?" "For breaking into song." "Is that so?" "Yes; he with a stave."

Consumption Surely Cured.

TO THE EDITOR-Please inform your readers that I have a positive remedy for the above named disease. By its timely use thousands of hopeless cases have been permanently cured. I shall be glad to send two bottles of my remedy FREE to any of your readers who have consumption if they will send me their express and post office address. Respectfully. T. A. SLOCUM, M.C., 181 Pearl st., New York.

"Move up there!" roared the railroad brakeman. "Passengers are not allowed to stand on the platform." "We're not standing!" gasped'a suffocating victim. "We're behg 'stood up'!"

PROMPTNESS.

First a cold, then a cough, then consumption, then death. "I took Dr. Acker's English Remedy for Consumption the moment I began to cough and I believe it saved my life."-WALTER N. WALLACE, Wash Munds Bros., druggists

WHATIS

SCROFULA

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which developes ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "humors;" which fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it

How Can CIDED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla.

"Every spring my wife and children have been troubled with scrofula, sores breaking out on them in various places. My little boy, three years old, has been a terrible sufferer. Last spring he was one mass of seres from head to feet. I was advised to use Hood's Sarsaparilla, and we have all taken it. The result is that all have been cured of the scrofula, my little boy being entirely free from sores, and all four of my children look bright and healthy." W. B. ATHERTON, Passaic City, N. J.
