The New York Arcade Railway is anxiously awaiting a decision by the Court of Appeals of its right to build an underground railway up Broadway. The money needed is pledged by a syndicate of French tie at Robert R. Bellamy's wholesale and German capitalists. The cost of the road is estimated at \$3,000,000 a mile, and the total cost at \$25,000,-000. This money was pledged long ago on condition that a favorable report should be made on the plans by foreign engineers, consisting of known of French engineers, Henri and Joseph de Montgolfier, of the French iron works of that name, and Baron Kampfer. An account says: These men came to this coun try last year and spent over a month in examining into plans, contracts, &c. Their report has lately been made to the syndicate, and it is entirely satisfactory, so that the money

will be forthcoming as soon as the contractors are ready to begin work. Contracts for the road have been signed, bonds have been furnished, and the only thing wanted now is the favorable decision of the Court of Appeals. Trains are to be running in three years.

As the result of much study and investigation of the subject, M. Jannsen, the eminent director of the observatory at Meudon, France, has come to the conclusion that evolution may be applied to the stars as well as to .terrestrial things-that they are not fixed and eternal, but are subject to change and time, having a beginning, a period of activity, a decline, and an end. By recent advances in the study of celestial physics, especially with the spectro scope, we are enabled, says Prof. Jannsen, to know something of the actual condition and relative age of some of the stars. It may therefore be assumed that the age of stars, other things being equal, will depend upon their temperature, and that their temperatures are higher in proportion as their spectra are richer in violet rays. Again, these investigations show that the major. ity of the stars which are visible to the naked eye are white or bluish, and consequently at a high temperature; but many are yellow or orange, like our sun, showing that they have passed their youth, while others are from dark orange to dark red, showing that their sidereal evolution is far advanced. These interesting views are elaborated at much length by M. Jannsen in L'As tronomie. The trade in firearms, which is now prohibited by decree of the Sultan of Zanzibar, has been a leading source of the troubles in East, Africa. The greed of traders made them quite indifferent what purpose the arms were to be applied to. It is doubtful even now whether the announcement of the British consul that he will aid in enforcing this decree will have much effect. Mean while such is the condition of affairs on the coast that the expedition of Capt. Wissmann will have to await a better opportunity of starting for the interior. His mission is undertaken principally with a view to German aggrandizement, in the restoration of authority over the lands claimed by the German East African Company, and the rebuilding of the score of stations burned by the natives. Yet it may also be considered a humane mission, since it will doubtless aim to rescue the whites. who are believed to have fled into the interior on being cut off from retreat to the coast. It will also re store the agricultural and other in dustries broken up by the uprising, and will set the caravans in motion

Electric Bitters.

This remedy is becoming so well known and so popular as to need no special mention All who have used Electric Bitters sing the same song of praise. Only a Smali Residue for Salvation.

Elder Martin, after preaching at the Poland campground on Sunday, was accosted by a drunken fellow who happened to be strolling about the grounds.

"Elder," said the fellow. "do you Rene Lefebvre, one of the best suppose you could get the devil out of me?" .

"If I should, my friend, I'm afraid there wouldn't be much left of you," was the Elder's quick retort.-Lewistown Journal.

Pills and Poetry.

There are men-who make a living by writing rhymes in which they extol the virtues of somebody's tooth wash, or consumption cure, or Purgative Pellets. It rather grates upon one's feelings to read a pathetic stanza of poetry and finish by learning that Dr. Pierce's Golden Medical Discovery is the sovereign remedy for consumption in its early stages, for deranged liver, disordered kidneys, impure or impoverished blood. Still this is absolutely true, and why should not the truth be told in poetry as well as prose.

Admiral Porter, in his annual report to the Navy Department, calls for more big guns.

----Advice to Mothers.

MRS. WINSLOW'S SOOTHING SYRUP should always be used when children are cutting teeth. It relieves the littie sufferer at once; it produces natural, quiet sleep by relieving the cnild from pain, and the little cherub awakes as "bright as button." It is very pleasant to taste. It soothes the child, softens the gums, allay all pain, relieves wind, regulates the bowels, and is the best known remely for diarrhea, whether arising from teething or other causes. Twenty five cents a bottle.

MISC ELLANEOUS.

and permanent cure. N. C. WAGGONER. RICH HILL, Mo., July 7, 1885—The Swift Specific Co., Atlanta, Ga.—Gentlemen : Our little girl when but three weeks old broke out with eczema. We tried the prescriptions from several good doctors, but without any special benefit. We tried S. S. S., and by the time one bottle was gone her head began to heal, and by the time she had taken six bottles she was completely cured. Now she has a full and heavy head of hair—a robust, hearty child. Ifeel it but my duty to make this statement. Respectfully, H. T. SHOBE. CHATTANOGA. TENN. June 27, 1885—The

CHATTANOOGA, TENN., June 27, 1888-The Swift Specific Co., Atlanta, Ga.-Gentlemen: In 1886 I contracted blood poison, and at once sought a physician, who treated me for sev-eral months. By his advice I went to Crab Orchard Springs, Ky., where his course of treatment was carefully observed. I recov-ered, as I thought, but the next spring pim-ples began to appear on my face and body. These gradually increased to sores and run. These gradually increased to sores and run ning ulcers. I was advised to try S. S. S., and immediately after taking it I commenced to improve, slowly at first, but more rapidly afterwards, and soon nothing remained to tell of my trouble. My blood is now thor-oughly cleansed, and my system free from taint, and I owe my present condition-a perfect cure-to your medicine. I cheerfully give this statement that others who have suffered as I have may reap the same benefit. HARDY M. BURT, 24 West Ninth St.

If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion, and preparation, curative power superior to any other article. A Boston lady who knew what she wanted, and whose example is worthy imitation, tells her experience below:

"In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me buy their own instead of Hood's; he told me their's would last longer; that I might take it on ten days' trial; that if I did not like it 1 need not pay anything, etc. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was. I had taken it, was satisfied with it, and did not want any other.

When I began taking Hood's Sarsaparilla I was feeling real miserable, suffering a great deal with dyspepsia, and so weak that at times I could hardly stand. I looked, and had for some time, like a person in consumption. Hood's Sarsaparilla did me so much good that I wonder at myself sometimes, and my friends frequently speak of it." MRS. ELLA A. GOFF, 61 Terrace Street, Boston.
