case of tertiary syphilis was surely killing

THE DAILY REVIEW.

VOL. XIII. WILMINGTON, N. C., THURSDAY, MARCH 7, 1889. NO 57.

President Harrison is said to be already weary of the handshaking business and longing ardently for a rest.

Rev. Michael Baxter, of London, a Second Adventist, prophecies that Christ will come again, "in the air" on March 5, 1896, "to raise the deceased saints and translate 144,000 watchful living Christians to Heaven without dying." The number of the living who are to be saved is rather discouraging.

It is said to be a fact that Riddleberger was so drunk and obstreperous last Monday that he had to be carried out of the Senate Chamber bodily. Col. Canady and another official carrying him out between them. The Senate ordered the proceedings expunged from the *Record*, but they have been printed in the newspapers.

It is estimated that the present population of the United States is 64,000,000. The total increase is said to be 100,000 a month, exclusive of immigration, and last year the increase by immigration was 518,000. At this rate the next census, which is to be taken in July, 1890, will show about 67,000,000.

Miss Jennie Flood, daughter of Bonanza Flood, who died the other day at Heidelberg, is the heir to all his immense wealth, and is one of the richest women in the world. Miss Flood is about 25 years old and is said to be a modest, sensible girl, not at all affected by her wealth, which already amounted to several millions before her father's death.

The handsome residence for the Governor of this State, at Raleigh, is approaching completion, the cost of which is put down at \$58,843, of which the tax-payers will have to furnish only \$20,343, the remainder having been secured by the sale of the old mansion and some unimproved lots in Raleigh. This is certainly a modest sum to expend on a Governor's house, and the tax-payers have no cause for grumbling. Gov. Fowle will soon take up his residence in the new building.

Skeletons in the closets of royal families continue to rattle. The recent death of the young Emperor of Anam is now looked upon with suspicion. According to Dr. Lagrange, of Bordeaux, who was formerly employed in the Court of Hue, when the Regency Council resolve to get rid of an unsatisfactory Emperor they present him with three dishes, one of which there is a dagger, on the other a silken cord, and on the third poison. His Imperial Majesty has only to take his choice.

The naval commission authorized by Congress to select a site for a navy yard on the South Atlantic coast has been chosen. It is composed of Commodore W. P. McCann, president, in place of Capt. Ramsay, who was originally spoken of in that connection; Capt. Robert Boyd and Lieut. Commander Willard H. Brownson, with Lieut. Duncan Kennedy secretary. The commission proposes to leave Washington the latter part of the week for Charleston, S. C., where the light house tender in that district will be placed at their disposal. They will go first to Port Royal, S. C., and examine the site suggested there. From that point they will proceed down the coast and inspect the various locations proposed.

There is considerable talk in New York over the project of the wives of many rich clubmen for starting a club of their own. The name of the club is to be the Dorothy. The plan is this: Rooms will be reserved for members who wish to remain a few days in town. Ladies will be served with tea, coffee, chocolate and cold dishes. The sitting room for members will be provided with periodicals, daily papers, shopping directories, etc. Members will be allowed to purchase tickets for the admission of relatives or friends, for luncheon, or children and servants when accompanied by a member. It is proposed to open the house on or about the 15th of May.

For neuralgia, rheumatism, lumbago, stiff necks, swellings, burns, wounds, etc., the best remedy is Salvation Oil. Price 25 cents a bottle.

All kinds of School Books and School Supplies can be bought cheapest at Heinsberger's.

Gov. Fowle and some of his staff are expected here next week. The Governor comes to formally receive, on behalf of the State, the site at Summer's Rest, Wrightsville Sound, selected as a permanent encampment for the State Guard.

Officer Kunold, of the police force, who was discharged by the Mayor, was reinstated by the Police Committee yesterday. This committee consists of the Mayor, Alderman Fishplate and Alderman King. There is a good deal of talk about this matter and the facts ought to be given out for publication.

Death of Mrs. Willis.
We regret to learn of the death of Mrs. Elizabeth A. Willis, wife of Mr. W. B. Willis, formerly a compositor on the DAILY REVIEW. She died at the residence of her husband, 618 Queen street, yesterday afternoon, after a brief illness, having been taken sick only last Friday. She leaves three small children. The interment was made this afternoon, in Bellevue Cemetery.

United Democratic Club.
A called meeting of the United Democratic Club was held at the City Court Room last night, with Capt. W. P. Oldham, the President, in the chair.

The minutes of the preceding meeting were read and approved and then Mr. S. G. Hall was elected Corresponding Secretary.
A committee on employment was appointed, which consists of Messrs. J. H. Currie, A. D. Wessell, W. R. Barksdale, W. R. Morrison and S. G. Hall.

The names of Messrs. S. G. Hall, J. H. Currie and John J. King were added to the committee on Constitution and By-Laws. It was moved by Mr. J. H. Currie that one member from each of the Wards be appointed to urge the Democratic voters at the primaries to join the club and attend the next meeting, which will be held in April. This motion was adopted and the following gentlemen were appointed to represent the club: N. Jenkins, First Ward; W. R. Morrison, Second Ward; S. G. Hall, Third Ward; J. H. Currie, Fourth Ward; John J. King, Fifth Ward.

A Fast Trotter Dead.
Mr. George F. Tilley's bay mare *Fanny* died yesterday afternoon of lockjaw. She was 17 years old and Mr. Tilley paid \$315 for her when she was but a year and a half old. She was a splendid animal and is a great loss. She was well known on the turf and had a pedigree as long as your arm. Her record was 2:30.

The Truckers Will Note.
The New York *Herald* has editorially some encouragement for the truckers and farmers. It thinks that this will be a good month for them. This is what it says:

Since the severe "cold wave" of February 24th there has been no very marked fall of the mercury in the country, and the meteorological conditions are still favorable to a continuance of mild weather throughout the United States. Even in the far Northwest March "blizzards" have been lacking. Yesterday the temperature reached the maximum of 60 degrees in that region.

We may now anticipate a movement of this "warm wave" to the eastward. Though no settled spring weather is probable for some weeks, it is likely that the mean temperature of the month will be generally above the normal.

Farmers should take note of this and improve whatever fine weather they may have this month for pushing forward agricultural work. By so doing they will materially increase the chances of reaping good crops in the summer.

Prof. Tripp's Last Lecture.
The last of the series of lectures given by Prof. Tripp was delivered in the Luther Memorial Building last night. The audience was the largest which has yet gathered to hear the distinguished lecturer. At the conclusion of the lecture, at the suggestion of Rev. Mr. Peschau, a vote of thanks was tendered to the Professor for the excellent entertainment afforded, and this expression of appreciation was embodied in a resolution presented by Col. Jno. W. Atkinson, and adopted unanimously by the audience.
Prof. Tripp goes hence to Goldsboro, where he expects to deliver one or more lectures.

A Woman's Charms
soon leave her when she becomes a victim to any one of the various disorders and peculiar "weaknesses" that are peculiar to the fair sex. The condition of tens of thousands of women today is pitiable in the extreme; they are weak, bloodless creatures, a prey to mental anguish and bodily pain; in a word, "broken down" from any one of numerous causes. To this unhappy multitude we strongly urge the use of Dr. Pierce's Favorite Prescription, an infallible, world-famed remedy, for all "female" irregularities and "weaknesses," and which restores the worst sufferer to vigorous health and reinvests her with all the charms of figure, face and complexion, that receive such willing homage from man.

Rock Crystal Spectacles and Eyeglasses.
Advice to old and young: In selecting spectacles you should be cautious not to take more magnifying power than has been lost to the eye as in the same proportion that you pass that point of increase will cause you further injury to the eye. Use glasses of stronger power than is necessary is the daily cause of premature old age to the sight. You can get the best at Heinsberger's.

DIED.
WILLIS.—In this city, Wednesday, March 6, 1889, Mrs. ELIZABETH A. wife of W. B. Willis, in the 34th year of her age. Interment in Bellevue Cemetery this afternoon at 4 o'clock.
"Asleep in Jesus."

The Fire Last Night.

At 11:30 last night fire was discovered in the hold of the steamship *Gulf Stream*, of the New York and Wilmington Steamship Co.'s line, at the dock foot of Chestnut street. The ship was being loaded for New York at the time and had a large part of her cargo in her. The fire originated in the lower after hold, where about 500 bales of cotton had already been stowed. The cause of the fire seems to be a mystery. The alarm was promptly sounded and the entire fire department was called out. Soon there were five streams of water pouring into the ship from the hose of the five steamers and a sixth from that of the tug *Marie*, Capt. Edgar Williams, which had run up alongside and opened her batteries on the flames. At 1 o'clock the ship had sunk by the stern to such an extent that she was resting on the bottom of the river. It was thought then that the flames had been subdued but at 2 o'clock they burned up again fiercely. At 3:15, however, the "all out" signal was given.

At 2 o'clock this afternoon two fire steamers, the *Atlantic* and the *Cape Fear*, were detailed to pump the water from the ship. Until this is done no estimate as to the loss to either the vessel or the cargo can possibly be made. Whatever it may be, however, it is all covered by insurance. The cargo on board consisted of about 800 bales cotton, 274 casks spirits turpentine, 875 barrels tar, 365 barrels rosin, 50 barrels cotton seed oil, 161 barrels rice, 60 barrels wood acid, and 40 packages merchandise. The *Gulf Stream* was to have sailed for New York on Friday.

A Whale Near Wrightsville.
A whale, and a sperm whale at that, went ashore on Sunday last on the beach just North of Moore's Inlet and in front of the old Moore place on Middle Sound. It was dead, and showed no signs of having been harpooned and hence it was reasonable to suppose that it died somewhere at sea and floated up on the beach. It is 51 feet in length and about twelve feet through in the thickest part. It is being cut up now and the oil tried out by those who discovered it. The Seacoast R. R. ought to secure the skeleton. We are indebted for this information to Mr. W. F. Alexander, of Middle Sound, who is in the city to-day.

The adjourned meeting of the stockholders of the Wilmington Savings and Trust Company will be held at the office of the bank on Princess street at 1:30 o'clock tomorrow afternoon.

Nor barque *Theis Sundegaard*, Reinertsen, cleared to day for Liverpool, with 3,888 barrels rosin, valued at \$4,366, shipped by Messrs. Pater-son, Downing & Co.

There was but one case of any interest before the Mayor this morning. Joseph Williams, who was arraigned on suspicion of passing counterfeit money, was dismissed.

Turner's Almanac promises rain and snow for to-morrow. It will be mistaken this trip.

The receipts of cotton at this port to day foot up 280 bales.

For North Carolina, fair weather and warm.

The highest cash price will be paid at the Brooklyn Auction House on Fourth street, near the bridge, for all kinds of old, wornout and broken jewelry, gold and silver, spoons, forks, etc. See ad. in this issue.
