

THE DAILY REVIEW.

VOL. XIII. WILMINGTON, N. C. WEDNESDAY, MARCH 27, 1889. NO 74.

Democratic Nominations.

FOR ALDERMEN:
FIRST WARD—George L. Morton.
SECOND WARD—Oscar Pearsall and Joseph D. Smith.
THIRD WARD—William C. Craft and James F. Post, Jr.
FOURTH WARD—John J. Fowler and Rufus W. Hicks.
FIFTH WARD—George Gafford and F. A. Montgomery.
Election, Thursday, March 28th.

LOCAL NEWS.

INDEX TO NEW ADVERTISEMENTS
BOARDS WANTED—
FESTIVAL—At City Hall
W. C. MURPHY—Public Sale
MUNDS BROS.—Pharmacists
W. M. CUMMINS—Mattresses
B. F. PENNY—Fine Clothing
HEINSBERGER—Roller Skates
CORNEAU'S BED BUG INTERCEPT
F. C. MILLER—Drugs and Chemicals

Roe had sold yesterday afternoon at 50 cents a pair.

North Carolina hams were held at 12 cents a pound this morning, from carts.

A few gentlemen can be accommodated with table board at No. 224 North Third street.

All kinds of School Books and School Supplies can be bought cheapest at Heinsberger's.

Oil stoves of all kinds, for heating and cooking, guaranteed to give satisfaction. N. Jacobi Hdw. Co. †

Farmers, see the latest improvement in back band hooks and rein snaps sold by the N. Jacobi Hdw. Co.

Blind tenants for repairing broken slats in your blinds, can be used by the most inexperienced. N. Jacobi Hdw. Co. †

There will be preaching at the Seaman's Bethel this (Wednesday) evening at 8 o'clock. All are invited to attend.

George Sanders, colored, was before Justice Mills this morning. Charged with breach of promise to Mary Cheek. He was discharged.

The popular blood purifier, Hood's Sarsaparilla, is having a tremendous sale this season. Nearly everybody takes it. Try it yourself.

If you want a picture framed go to Heinsberger's. He has a large assortment of Mouldings to select from.

Indications.
For North Carolina, fair and warmer weather, followed in the western portion by cooler.

Adjutant General Glenn announces that the State Encampment this year will open at Wrightsville Sound on Tuesday, July 9th, and continue ten days. This is about a week earlier than the opening last year.

We have the largest assortment of cook stoves to be found in the State to select from and at factory prices. We guarantee every stove to bake and cook well and to give general satisfaction. N. Jacobi Hdw. Co. †

The ladies of Fifth Street M. E. Church will give a festival to morrow night, at the City Hall. The best of refreshments will be served and those who attend may be sure of a pleasant evening.

After all, the vote will not be much behind that of two years ago. There is not enough of a contest to arouse any particular interest and to-morrow promises to be a very quiet day at the polls.

A Pleasing Sense
Of health and strength renewed and of ease and comfort follows the use of Syrup of Figs, as it acts in harmony with nature to effectually cleanse the system when constive or bilious. For sale in 50c. and \$1.00 bottles by all leading druggists.

This Morning's Fire.
The alarm of fire this morning at 3 o'clock, sent in from box 31, was caused by the burning of a one story frame building on Bladen, between Fourth and Fifth streets, owned and occupied by Mr. Cason Courtjohn. The building and furniture were a total loss. There was insurance on the former for \$500, in the Phoenix, and \$200 on the furniture in the Hibernia Insurance Company, represented here by Messrs. Atkinson & Manning.

The best people attend the Indian Exhibitions, corner Fifth and Chestnut streets. It

Dr. W. C. Murphy, of South Washington, having rented his farming interests, will offer for sale at Burgaw, on Monday next, a lot of horses and oxen, suitable for farm work, agricultural implements and a farm bell.

Pure gold has its base imitation. It is worth its weight in gold to all sufferers from rheumatism, neuralgia, or gout. It kills pain every time. See that you get the genuine. Price twenty five cents a bottle.

A meeting of the Produce Exchange will be held at noon on Friday next, March 29th, to consult as to complaints of the adulteration of spirits of turpentine. And while they are about it they might say something about the adulteration of food, which is making invalids of many and hurrying so many others to the grave.

A Handsome Testimonial.
Capt. Geo. W. Gates, who was for many years Master Machinist in the W. N. C. R. R. shops at Salisbury, but who resigned that position to return to Wilmington, received on Sunday last a beautiful souvenir from his old friends and associates. It is in the shape of an elegant gold watch and chain, one of the handsomest and most beautifully finished watches we ever saw. Pendent to the chain is also a gold locket, gemmed with a diamond and a ruby. The watch has Capt. Gates' monogram on the front and the following legend is inscribed on the inside of the case: "Presented to Geo. W. Gates, M. M., by the Employees of the W. N. C. R. R., March 1st, 1889."

Capt. Gates is not only proud of this handsome testimonial but he is also deeply gratified at this marked evidence of the esteem and regard in which he is held by those among whom he has passed so many years of his life.

Very Cleverly Said.
Hon. C. W. McClammy, Representative in Congress from our neighboring district, the Third, has been but two years in Congress and yet he has already taken a high stand there. Evidences of this fact continually multiply. The Alexandria (Va.) Progress, published within nine miles of the Capital, has something very pleasant to say about him, in speaking about the agricultural committees of the Senate and House, and we make no apology for reproducing here its remarks. It says:

Among the quiet but active members of the House you will find Hon. Charles W. McClammy, of the Third N. C. District. He is a graduate of the University of his State and although possessed of a high order of mental endowments and a fluent and ready debater, he is seldom heard in a speech on the floor in the House, but is of that number of active members who get in most of their work in committee.

He is very popular on both sides of the House, and therefore when anything is up affecting the welfare of his constituents, he may be seen moving actively about, and on each side of the House, mixing up with the members generally, and when a vote is reached the result is seen in the success of the side he takes. At times, however, he enters the debates and then his clear ringing voice is heard all over the hall. His constituents have cause to be proud of his record. Although a classically educated man, he did not seek any of the professions, but on retiring from the University, after teaching awhile, he settled down to be a farmer and his untiring energy and push in this pursuit opened the path of success. On the breaking out of the war, he early volunteered, was engaged in most of the hard fought battles, being promoted by General Lee for gallantry and surrendered at Appomattox.

He was mainly instrumental in preventing the striking out of the appropriation for the purchase of seed in the Agricultural Appropriation Bill, making the point of order against the motion, following in an effective speech; his point of order was sustained by the presiding officer, thus securing the appropriation. He has introduced many bills, among them one securing appropriations for experiments in the cure of hog cholera and several for widening and deepening the channels of the rivers which flow through his district. He has been especially active in improving the mail service of his district, in establishing new routes, opening new offices and in every way giving attention to this important matter for the people. He is a general favorite, is very popular in the House as well as at home among his constituents and is taking a high rank as a legislator in the Congress of the United States.

City Court.
There was only one case before the Mayor this morning that of Beverly Scott, who was arraigned on the charge of violating the sanitary ordinance of the city. His case was removed to Justice John Cowan.

The School Fund.
The apportionment of the school fund for New Hanover county this year is \$1.50 for each child of school age. The total number of children is 7,246, of which number 2,735 are white and 4,511 are colored. The total amount appropriated is \$10,869, of which the white children will receive \$4,102.50, and the colored children \$6,766.50. In other words, the county will expend \$2,664 more on the colored schools than it will expend on the white schools.

Does it Pay to Advertise.
It certainly does pay to advertise in the DAILY REVIEW, as a few facts which we are able to narrate will amply attest.

Yesterday afternoon Mr. J. E. Black, of Mecklenburg, advertised in our columns for sale eleven fine milk cows, and this morning he had sold six of them.

Dr. W. J. Love advertised in the same issue for the return of a dog which had been lost, and it was returned to him this morning.

And in the same issue Messrs. McCormick & West advertised the Indian exhibition near the corner of Chestnut and Fifth streets and last night they had by far the largest crowd they have yet had at any exhibition.

All of these advertisements appeared exclusively in the DAILY REVIEW.

A New Depot Building.
Among the contemplated enterprises to be established in this city at an early day is one now in projection by the Robert Portner Brewing Co. of Alexandria, Va. At least street rumor is to this effect and Mr. Kuhblank, the agent here, does not deny it. It is said that they contemplate the purchase of an eligible piece of property somewhere in the business part of the city and will erect thereon a new and handsome brick building, to be used as a beer depot and cooling house, with large brick stables attached. The plans do not yet seem to be fully formulated but will probably be made known in a few weeks, on the arrival here of a member of the firm. Wilmington is next to the largest market in the sale of the Tivoli and Vienna beer and the Portner Company will show their appreciation of this fact in the handsome and commodious building they will erect.

A Few Pertinent Queries.
There is a diversity of opinion as to the effect which would be produced upon the State at large by the reported exodus of the colored people to the South and Northwestern States. It is clearly against all true policy to oppose their departure, because if kept here unwillingly, they will become morose, unreliable and unprofitable labor. Hence to those who desire to remain in the home of their fathers and work for the good of themselves and as a consequence for the benefit of the whole people, we should offer all necessary encouragement, but to those dissatisfied, we should bid them God's speed. While on this subject we are led into a train of thought. How shall we fill the places of the labor which leaves us? It is manifest that white labor will eventually take its place. The next question is: What race of people would come nearer satisfying the demand of the South? The answer to that query is easily given. The Scandinavian. Tramp steamers could readily bring in a lot of these immigrants to our port. The question next for consideration is: What would you do with them on arrival?

Now the railroads are ever alert to develop the country through which they pass and they have need for a large number of hands for sectioned forces. Should the railroads fill up their ranks on their lines with Scandinavians they would drift into farming on the lines and would gradually induce their fellows to come and settle with them, they would not be long among us before they would be owning land and increasing in volume the freights on the lines, thus compensating the roads for the introduction of them. Farmers would be unwilling to take

A lot of green hands to cultivate crops, whereas these people are adepts with the spade and shovel and could be utilized at once on the roads.

Is not this a question which our Chamber of Industry could examine into with profit to the railroads, to the farmers and to the State at large?

To morrow the public school at Greenville Sound will break up for the season, with an entertainment at night, to be given in the school house. Miss Mamie Bonitz, the teacher, is held in the highest esteem by all of her scholars and those that know her.

The Manufacturing Measure.
If the friends of the bill passed by the legislature for the encouragement of manufactures here will but rally to its support, and go to the polls to morrow and vote for it, there can be no doubt of its success. The bill nominally makes an appropriation but it does not draw any money from the city treasury. It merely proposes to release from taxation for ten years those who may establish new manufacturing enterprises in our midst. We think that the measure will be carried by a handsome majority of the registered vote.

Accident to a Child.
A distressing accident happened early this forenoon to Tommy, the little three-year old son of Mr. Thomas Rowell. He was playing on the piazza of his father's residence, corner Eighth and Dock streets, where he climbed into a chair and got on the railing, when he lost his balance and fell to the ground, a distance of about eight feet. When picked up it was found that his right leg was broken, just above the ankle. A physician was called in and the broken leg splinted and at 2 o'clock the little sufferer was resting as comfortably as could be expected.

\$500 Reward.
The former proprietor of Dr. Sage's Catarrh Remedy, for years made a standing, public offer in all American newspapers of \$500 reward for a case of catarrh that he couldn't cure. The present proprietors have renewed this offer. All the druggists sell this Remedy, together with the "Donche," and all other appliances advised to be used in connection with it. No catarrh patient is longer able to say "I cannot be cured." You get \$500 in case of failure.

Rock Crystal Spectacles and Eyeglasses.
Advice to old and young: In selecting spectacles you should be cautious not to take more magnifying power than has been lost to the eye as in the same proportion that you pass that point of increase, will cause you further injury to the eye. Using glasses of stronger power than is necessary is the daily cause of premature old age to the sight. You can get the best at Heinsberger's.

Gold, silver and copper bronzes are sold by the N. Jacobi Hdw. Co. †

NEW ADVERTISEMENTS.
Table Board.
A FEW GENTLEMEN CAN BE ACCOMMODATED with Table Board on application at

The Women Praise B. E. E.
The suffering of women truly awakens sympathy of every true philanthropist. Their best friend, however, is B. E. E. (Bosch's Blood Balm). Send to Blood Balm Co., Atlanta, Ga., for proofs.

W. L. Cassidy, Kennesaw, Ga., writes:— "I have bottles of B. E. E. cured my wife of rheumatism."

Mrs. R. M. Laws, Zalaba, Fla., writes:— "I never used anything to equal B. E. E. My wife, Mrs. H. G. Rocky Mott, N. C., writes:— "For a day for 15 years was free from headache. B. E. E. entirely relieved me. I feel like another person."

W. Lancaster, Hawkinsville, Ga., writes:— "My wife was in bad health for eight years. Five doctors and many patent medicines had done her no good. Six bottles of B. E. E. cured her."

Miss S. Tomlinson, Atlanta, Ga., says:— "For years I suffered with rheumatism, caused by indigestion and indigestion. I also was in bad health. B. E. E. relieved me at once, although several other medicines had failed."

Dr. J. M. Richardson, Clarkston, Ark., writes:— "My wife suffered twelve years with rheumatism and female complaint. A lady member of my church had been cured by B. E. E. She persuaded my wife to try it, who now there is nothing like B. E. E. as it quickens her relief."
