A SADWOMAN

The Daily Review.

The Secret Cause of Most Ladles' Tron-bles Explained and some Sensible Ad-vice given.

It is safe to say that not one woman in ten sand lives a single week in which she does ther cry or feel like crying. The cares of disappointments, and, more than all else, knesses and pains make all wohien more or less miserable. This is all wrong. Women re made for happiness, not for misery.-Her body, her mind and all her faculties and as must be put in a healthy condition, or she cannot secure strength. Nature is al-ways ready to do this, but nature almost always requires assistance, and the question herefore is, "How can we best assist nature?"

The finest physicians in the medical profes sion have agreed that nothing so surely and easily does this as pure whiskey taken in moderation, either before meals or between meals. The effect is to gently and healthily stimulate all the faculties to vigorous action, and thus nature is assisted and strength is given. There are hundreds of thousands of ladies in America, to-day, who are growing stronger, healthter and more attractive in appearance by the licious use of Duffy's Pure Malt Whiskey. lany of these ladies are the wives of ministemperance women. They realize that Duffy's men and polities." This informaters and professors, and hundreds of them are Pure Malt Whiskey is a medicine, not a drink. and that it furnishes the best and only posttive help to weakened bodies that has ever cised, however, to secure only the genuine, vices at Washington on account es- on you and bugs at the same time!" which is absolutely pure, for there are many so-called whiskies in the market that are a positive injury to anyone who uses them. We venture to assert, however, that not one wo-man in five hundred who will carefully use this great aid to health in moderation will continue to suffer from weaknesses, but, on the contrary, will find a renewal not only of youthful vigor, but of color, brightness, and all those qualities which indicate the presence of perfect health.

ago, stipulated in his will that the income from his money should be devoted to the education of the orphan children of the county. The provisions of his will have been carried out by the Court of Ordinary; but, judging from the last report, there are few orphans in Morgan county, for the expenditures for the last year for the tuition of orphans were but \$790. The income from increase of the capital stock is over \$1,000, and the fund has increased from \$33,000 to \$50,000. What to do with the Braswell fund is a problem

that vexes Morgan county. It is said that Senator T. P. Gibbs will present to the State Senate the question of having the fund appropriated for building schools for orphans.

Epoch.

The transition from long, linger ing and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health to the use of the Great Alterative and

pains in my feet, knees and hands. So severe the attack that I took my bed immediately, and in two or three days my joints were swollen to almost double their natural size, and sleep was driven from me. After suffer-ing the most excruciating pain for a week, using liniments and various other remedies, a friend who sympathized with my helpless condition, said to me: "Why don't you get Swift's Specific and use it. I will guarantee a cure, and if it does not the medicine shall cost you nothing." I at once secured the S. S. S. and after using it the first day, had a quiet night and refreshing sleep. In a week I felt greatly bottles I was out and able to go to business. Since then I have been regularly at my post of duty, and stand on my feet from nine to ten hours a day, and am entirely free from pain. for service under the requirements of her contract has been all the more gratifying from the fact that of late some of the new foreign war vessels have failed to come up to ex pectations. The Yorktown has exceeded the horse power guaranteed and will earn a premium for her contractors. The Vesuvius has greatly exceeded the speed stipulated, and has become famous throughout the world. These two vessels are the only ones yet tested of those designed under the late secretary's administration, and their success is full of promise for all the

others, most of which are to have speed ranging between that of the Yorktown and that of the Vesuvius. These two are from the same builders, however, and accordingly much interest will be felt to learn the results in the case of the Petrel, built at Baltimore, and the Charleston, built at San Francisco. If these turn out all right, there need be little doubt as to any of the unarmor ed cruisers now under construction.

A new corporation at Buffalo is hard at work converting Niagara Falls into a giant motor. Its presi dent, ex Judge Hamilton, in speaking of it, said: "We are harnessing Niagara as a business enterprise. The great cataract hourly produces or consumes 60,000,000 horse power, and we want some of it. We are making chambers underneath the fall and behind the water, where we have huge standpipes connected with turbine wheels. These supply motive power to a regiment of dynamos, which will send an unlimited amount of the electric current, in any direction. In five years we will offer to 'run every horse car, elevator and engine within one hundred miles of the Falls. We will begin with Buffalo, which we will supply with 40,000 norse power daily before next fall. That accomplished, we will extend the wires to other cities, abroad, and provide them with as much has horse power as they want. We are going to deliver electricity just as the milkman does the morning milk.
