GEO. H. FRENCH & SONS—Visitors
CORNEAU'S BED BUG INTERCEPTOR
MRS. E. B. WIGGINS, Agt.—New Goods

We hear that fish are beginning to bite in the Sounds now.

The soda water racket has been worked to-day for all it is worth.

Best assortment of fishing tackle can be found at the N. Jacobi Hdw. Co.

Charleston is to have public bath houses this Summer. Cannot Wilmington have some too?

Comfort and economy are to be found in the use of oil stoves. Sold by the N. Jacobi Hdw. Co.

Canary and mocking bird cages. A full line of above are now being shown by the N. Jacobi Hdw. Co.

Boils, pimples, hives, ringworm, tetter and all other manifestations of impure blood are cured by Hood's Sarsaparilla.

You can buy two quarts of green peas in Charleston for five cents. They ask 10 to 15 cents a quart for them here.

The contract for making the summer uniforms for the police force was awarded last Saturday to Mr. A. David.

The electric street lights were all burning for a short time at about 12 o'clock to-day. But they made very little impression on the sunshine.

Ready mixed paints and stains, white lead, oil and varnishes. For low prices and good reliable goods go to the N. Jacobi Hdw. Co.

Make your house secure by putting burglar proof locks on your blinds and windows. For sale by the N. Jacobi Hdw. Co.

The pavers on the North side of Market street are now about half way between Front and Second. They will probably complete the job this week.

Yesterday's torrid heat drove lots of people out of town to seek comfort on the borders of the big pond. Five coaches full were taken down the Seacoast R. R. in the afternoon.

Charleston had peaches and cherries last Saturday. The former were from Florida and sold for 75 cents a dozen and the latter came from Aiken and brought 75 cents a quart. Take your choice.

Latest advices from New York are to the effect that strawberries are selling there at 30 cents a quart. There is a big demand for them and they are being rushed into market as fast as possible.

Still in the Field.

The Wilmington Shirt Factory, No. 123 Market st., has now on hand a full line of gent's heavy jean drawers, the very thing for the season, at 50 cents a pair, worth 75 cents.

J. ELSBACH, Prop'r.

We understand that the preliminary survey for the Burgaw and Onslow R. R. has been completed. On Saturday the line was within three miles of Jacksonville and of course they got there to-day.

Young's Cough Balm

is a remedy that is selling entirely upon its merits and is guaranteed to relieve and cure all chronic and acute Coughs, Asthma, Bronchitis and Consumption. For sale wholesale and retail by Munds Brothers.

Entitled to the Best.

All are entitled to the best that their money will buy, so every family should have, at once, a bottle of the best family remedy, Syrup of Figs, to cleanse the system when costive or bilious. For sale in 50c and \$1.00 bottles by all leading druggists.

\$500 Reward.

So confident are the manufacturers of Dr. Sage's Catarrh Remedy in their ability to cure nasal catarrh, no matter how bad or of how long standing, that they offer, in good faith, the above reward for a case which they cannot cure. Remedy sold by druggists at 50 cents.

It is the most beautiful season of the year now 'cause the girls have come out in their fresh white Summer uniforms.

Indications.

For North Carolina, fair, except in the Northern portion, local showers and cooler, except in the Eastern portion stationary temperature.

Reports from the country round about here are to the effect that rain is beginning to be needed. The crops are not yet suffering but they are feeling the want of rain.

The public schools in the city will close on Wednesday, the 23d, and at or about that time the pretty little opera house now in preparation will be given at the Opera House.

Mr. Geo. Z. French tells us that he will not take charge of the postoffice here until the first of July. He can be ready at an earlier date but prefers to wait until then.

Messrs. French Bros., at Rocky Point, have sold this season three times as much of their excellent fertilizers as were sold last season. We are glad to know this and also to learn that the lime they make for building purposes is steadily growing in favor.

The survivors of Co. I, 18th N. C. Regiment, are already talking of a big reunion on the Fourth of July, either at Carolina Beach or Wrightsville, when it is hoped that every member of the old command who has been spared will be present and take an active part.

Crops About Burgaw.

Mr. J. T. Collins, of Burgaw, was in the city to-day for a few hours and gave us a few minutes of his time. He says that while the crops in his neighborhood are not actually suffering for the want of rain yet they are now in need of it. He says also that the outlook at this time for both cereals and fruit is very promising. He has corn a foot high in his field.

City Court.

Mayor Fowler disposed of the following cases this morning:

Mag. Frederick, charged with disorderly conduct, was adjudged not guilty.

Lizzie Lane, for disorderly conduct, was fined \$5 and costs, amounting to \$8.55.

One case of disorderly conduct was left open.

The C. O. & C. Company.

It is now said that a settlement in the case of William Mahone and others against the Carolina Oil and Crosoote Company will probably be made without further proceedings in the Courts. Arrangements looking to a compromise have been progressing for some days, and with favorable results, it is said; and it is now believed that all the details have been agreed on, and in a manner satisfactory to all concerned.

Carolina Beach.

The new railroad track from the river to Carolina Beach has been completed and it is expected that the finishing touches will be put to the new pier to-morrow afternoon. Everything will be ready, therefore, to begin this week the regular Summer schedule to the Beach. There will be at least four round trips each day between the city and the Beach, and more if the necessities of travel demand it. It promises to be a very brilliant season at that popular seaside resort this Summer.

Peterson's Magazine.

"Peterson" for June comes among the earliest of the month's magazines, and a beautiful number it is. The steel engraving, "Across the Sands," is a lovely picture; and the full page wood illustration, "A Fishing Lesson," is a charming bit. The mammoth fashion plate is thoroughly artistic, and there are dozens of effective models for various articles for dress. The stories are all good; Howard Seely contributes one of his characteristic Southwestern sketches, "A Heartbreaker of Chinapin," and Miss Alice Bowman commences a serial which promises to be one of her best efforts. Amateur gardeners will find valuable information on "Rose Culture," and this month's installment of the "Talks by a Trained Nurse" ought to be in every woman's hands. Terms: Two Dollars a year. Address Peterson's Magazine, Philadelphia, Pa.

Mr. James H. Evans, of the Marion Index, will be in the city on Wednesday in the interest of his excellent paper. We will be glad to see him.

We notice in the Charleston News and Courier that a complimentary concert is to be given in that city to-morrow night to Prof. Ortmann, the accomplished young violinist. This gentleman is a nephew to Mr. F. W. Ortmann, of this city, and paid a visit here last Summer on his return from a course of musical studies at Leipzig, in Germany.

Passengers by the Yemassee.

The steamship Yemassee sailed hence for New York to-day with the following passengers from this port: Messrs. E. E. Davis, T. A. Radcliffe and wife, Ronie Williams, H. Doeker and John Herbert, white. The colored passengers were Charlotte Hall, M. Thompson, J. L. Brooks, J. T. Rivers, Mary Lane and Eliza Flemming.

Ashore Near Lookout.

British steamship Aberlady Day, McGregor, 1,188 tons, was reported late Saturday afternoon as being ashore off Beaufort, with her propeller broken. The tugs Blanche and Alex Jones were sent out from this port to her assistance. The latest information, received to-day, is to the effect that the two tugs are pulling on her but have not yet got her off.

Attempted Suicide.

Jacob Johnson, colored, living at No. 416 McRae street, between Walnut and Red Cross, made a desperate attempt at suicide to-day between 12 and 1 o'clock. He shot himself twice in the head. One of the balls struck the skull and glanced off but the other penetrated the side of his head, between the eye and the ear, and entering lodged just in the rear of the former organ. Drs. Lane and McDonald are in attendance on him and will not commit themselves as yet to a positive opinion as to his condition, only saying that they consider it to be very serious.

Johnson is about 40 years old and has a wife and five children. He was alone in his room when he made the attempt. The pistol was of .32 calibre. The cause of the rash attempt is unknown but he had been drinking for some days and it is said was under the influence of liquor at the time.

Weather Crop Bulletin.

The Second Weekly Weather Crop Bulletin of the North Carolina Weather Service makes a remarkably good exhibit of the condition of the crops throughout the entire State. We quote from it as follows:

Our reports for the week ending Saturday, May 11th, still indicate a favorable condition of the crops. The almost entire absence of rain in the State may have been somewhat injurious in a few localities, but owing to the excessive rains of the week ending May 4th, a great deal of dry weather was required. The temperature in all districts has been above the average and has been favorable to growing crops and the ripening of fruit. Cool weather and light frost occurred in the western portion of the State the first of the week, without injurious effect. A decidedly warm wave passed over the entire State during the latter part of the week, maximum temperature of over 90 degrees occurring in many places.

In the Eastern District there was a marked deficiency of rainfall, about an average temperature and a great deal of sunshine in this district, with a favorable effect upon crops. Planting and farm work generally progressing. Some injury to the potato crop on account of bugs is reported from Edgecombe county. Corn and cotton have been replanted to some extent.

In the Central District the rainfall has been decidedly below the average; the temperature and sunshine above the average, with favorable effect on the crops. The excessive heat of the latter part of the week has been very favorable to growing crops, cotton especially. An abundance of tobacco plants is generally reported. The season is well in advance and the outlook is encouraging. Light frosts occurred with slight injury. Fruit is doing well, with prospects for a fine yield. Small grain generally looking well.

No rain, an excess of sunshine and temperature in the Western district have been somewhat unfavorable to the growing crops, although there is no cause for serious complaint. Cotton has been retarded somewhat and wheat and oats are not doing well. The fruit crop is reported in excellent condition with probabilities of a large yield. Light frosts are reported without serious injury. Season generally in advance.

NEW ADVERTISEMENTS.

WE HAVE THEM!

YES, ALMOST ANYTHING
NEW AND NOVEL

and with all have not failed to have also the many STAPLES for EVERY DAY USE.

WHITE GOODS STOCK!

A complete assortment in all of the various textures.
