

LACK OF LIFE.

When the pulse beats feebly; when the energy is gone; when the appetite is weak and sleep uncertain, the body is in a condition of actual "low life".

The Daily Review.

JOSH. T. JAMES, Editor & Prop'r. WILMINGTON, N. C. FRIDAY, JUNE 7, 1890.

An American traveler in Trinidad, the island that Columbus reached and christened after his long and anxious journey of 1498, says the asphaltum lake there that supplies the world covers 99 acres and contains millions of tons of pitch, which is renewed as fast as taken out.

Prof. Thurston, of Cornell University, in an article in the North American Review on the steam engine, thinks that this invention is still capable of vast improvement. He believes that the next generation will see the American continent spanned by flying trains in two days; that ships of twenty thousand tons will be propelled at the rate of forty miles an hour; and that with cheap and swift transportation between distant points the general average of living will be vastly improved.

The surveys for a railroad in the Congo country around the cataracts have been completed. The total length of the road will be about 264 miles. There are few engineering difficulties in the way, and it is expected that it can be finished in four years, at a cost for construction and equipment of \$5,000,000.

Harold P. Brown, the electrician who is in charge of the arrangements for carrying out the law for the execution of the death penalty by electricity in New York, is a slender, blonde young man, with a very pleasing expression of countenance and an almost perpetual smile.

The value of industrial education has been well illustrated at the Hampton (Va.) Normal and Agricultural Institute. A fundamental principle of the institution is the instruction of pupils in ways of earning their own living.

"The tetter-board of life goes up. The tetter-board of life goes down." Up and down, up and down—one day a millionaire, next day "dead broke"—one day buoyant in spirits, next day gloomy as a fog—one day in seeming perfect health, next day "laid out" with a bilious attack or your stomach "on a strike." This is the way the world wags now-a-days.

Marie Van Zandt is coming to America next season in Italian opera. It is a Curious Fact That the body is now more susceptible to benefit from medicine than at any other season.

The Duchess of Cambridge left \$1,500, the composer, an annuity of \$1,500. TERRIBLE FOREWARNINGS. Cough in the morning, hurried or difficult breathing, raising of phlegm, tightness in the chest, quickened pulse, chilliness in the evening or sweats at night, all or any of these things are the first stages of consumption.

Is Consumption Incurable?

Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with Abscess of Lungs, and friends and physicians pronounced me an incurable Consumptive. Began taking Dr. King's New Discovery for Consumption, and now on my third bottle, am able to oversee the work on my farm. It is the finest medicine ever made."

Fond mother—Doctor, what seems to be the cause of Willie's trouble? Doctor—Some foreign substance in the stomach, I should say. Fond mother—Oh, yes, those dreadful Irish potatoes! I will tell our grocer to-morrow that he positively must bring us some American potatoes.

Jack was waiting patiently for his wife to get ready to go out, and impatiently cried: "For goodness sake Mary why do you have six buttons on your gloves? It takes you for ever to get started. Wouldn't two buttons do just as well?"

Waiter (handing menu card to a countryman in a fashionable uptown restaurant, briskly, "Now then, sir, what will it be? Country man—Well, the fust thing I want to say is that you've got your sign spelled wrong outside. 'Cafe' don't spell coffee by a long sight. If you should start a shop down to the Corners you'd git the grand laugh.

An important feature—Politician—What sort of a watch is that? Jeweler—It is a repeater, sir. Politician—I'll take it. While counting his money the customer starts, stops short, turns pale and anxiously inquires:—"Say, mister, is the Republican or Democrat?"

"Miss Squawker," said he, gently, as the last notes of her song died upon the air, "I hope you will not be offended at what I am about to say. It has been on my mind for some time, and—"

PROMPTNESS. First a cold, then a cough, then consumption, then death. "I took Dr. Acker's English Remedy for Consumption the moment I began to cough and I believe it saved my life."

Take Hood's Sarsaparilla 100 Doses One Dollar. The Chief Reason for the great success of Hood's Sarsaparilla is found in the article itself. It is merit that wins, and the fact that Hood's Sarsaparilla actually accomplishes what is claimed for it, is what has given to this medicine a popularity and sale greater than that of any other sarsaparilla or blood purifier before the public.

CHATTANOOGA, TENN., June 27, 1888—Swift's Specific Co., Atlanta, Ga.—Gentlemen: I was a great sufferer from muscular rheumatism for two years. I could get no permanent relief from any medicine prescribed by my physician. I took over a dozen bottles of your S. S., and now I am as well as I ever was in my life.

WACO, TEXAS, May 9, 1888—Gentlemen: The wife of one of my customers was terribly afflicted with a loathsome skin disease, that covered her whole body. She was confined to her bed for several years by this affliction, and could not help herself at all. Her husband did not sleep from a violent itching and stinging of the skin. The disease baffled the skill of the physicians who treated it. Her husband began finally giving her Swift's Specific, and she commenced to improve almost immediately, and in a few weeks she was apparently well. She is now a hearty fine-looking lady, with no trace of the affliction left. Yours very truly, J. E. SEARS, Wholesale Druggist, Austin Avenue.
