"It is a wonder people live as long as they do," said one of the leading physicians of New York while conversing with some newspaper Irlends recently. "Every breath that is taken contains poison. Millions of germs, so small that they cannot be seen by the naked eye, are drawn into the lungs, the throat, the stomach, and while many of them die thousands of them live and feed upon the body and cause what is called disease. Germs are the source of all disease; kill the germs and you cure the disease."

So interested were his listeners with the above remarks that the doctor continued:-"You naturally ask what will kill these germs? I am sorry to say only a few things. The surest safeguard against all germs is pure whiskey—pure, mind you. Germs do not thrive where it is used judiciously. Unfortunately there is but little pure whiskey to be had and I know of but one which I can absolutely recommend and that is Duffer. lutely recommend and that is Duffy's, I have analyzed it carefully and found no fusel oil, no impurities, and nothing that could harm even a child. Duffy's Pure Malt Whiskey is also recommended by such high medical authorities as Dr. Henry A. Mott, Prof. Wm. T. Cutter, Dr. Carnwell and others. Understand me, I advocate the use of whiskey only as a medicine and not as a beverage. As a medicine it is strengthening, restoring and beneficial, and is endorsed by priests and clergymen. Under no circumstances, even as a medicine, use any but the pure, and do not allow any druggist to persuade you to take any other."

The people of New Orleans recently voted down a proposed subscription of \$500,000 with which to commence work on an elaborate system of drainage, but the Times-Democrat expresses the hope that Mr. Lagan's suggestion will bring the drainage and anti-drainage people into a conference that will agree to some plan for going about the work. The costly experience which the people of New Orleans bave had with disease should certainly incline them to adopt all reasonable precautionary measures. A complete system of sewerage and drainage has made Memphis, Tenn., one of the healthiest cities in the country, and experts in engineering assert that New Orleans can be made just as healthy.

PEED'S Mill, Texas, June 20, 1888—The Swift Specific Company, Atlanta, Ga.—Gentlemen: One of my children was troubled with rheumatism and boils for about two years. We gave her various kinds of medicine, but without profit, and began to despair of curing her at all. I was persuaded to try your Swift's Specific. After she had used several bottles the diseases all disappeared, and she is now a hale, hearty and healthy girl twelve years old. We tried the prescriptions from several good doctors, but without any special benefit. We tried S. S. Swift Specific Co., Atlanta, Ga.—Gentlemen:
In 1886 I contracted blood poison, and at once
sought a physician, who treated me for several months. By his advice I went to Crab
Orchard Springs, Ky., where his course of
treatment was carefully observed. I recovered, as I thought, but the next spring pimples began to appear on my face and body.
These gradually increased to sores and running ulcers. I was advised to try S. S. S., and
immediately after taking it I commenced to
improve, slowly at first, but more rapidly
afterwards, and soon nothing remained to
tell of my trouble. My blood is now thoroughly cleansed, and my system free from
taint, and I owe my present condition—a
perfect cure—to your medicine. I cheerfully
give this statement that others who have
suffered as I have may reap the same benefit.

HOMER, LA., May 25, 1889—The Swift Specific Co., Atlanta, Ga.—Gentlemen: About two years ago my general health gave way entirely. I was so debilitated that I almost despaired of ever feeling well again. All that the physicians done for me brought no permanent relief. Friends insisted that I should give S. S. S. a fair trial, although I thought it would be throwing away money. After taking a thorough course, my health and strength returned, and I must say that S. S.
