STATE NEWS.
Goldsboro *Argus*: Bishop J. C. Granberry was in the city yesterday en route from the District Conference at Morehead City to his home in St. Louis, Mo.

Charlotte *News*: Mr. W. B. Harry died at his residence in Hopewell this morning at 7 o'clock of a stroke of paralysis. He was about 58 years of age. Mr. Harry was one of the old Confederate veterans and served the South during the late war. His leg was shot off at the battle of Gettysburg.

Sanford *Express*: The mail train going South on the R. & A. L. road was behind schedule on Monday afternoon, and it ran at the rate of a mile a minute. While it was between Winder and Manly a buzzard flew up in front of the engine and was promptly run down and dispatched.

Asheville *Citizen*: Passengers arriving in the city on the afternoon train from Knoxville yesterday reported a heavy rain storm at Marshall during the morning. So great was the rainfall at that place that the roadbed and track of the W. N. C. R. R. was completely submerged, and transients encountered great trouble in making their regular runs on time. It was the heaviest rain ever known at Marshall.

St. Louis *Globe Democrat*: The story of the discovery of gold in North Carolina is somewhat curious. Near the close of the last century the child of a poor settler, while roaming along the banks of a small stream, discovered a bright yellow stone, which, with the help of his playmates, he picked up and brought home to his father. The old man, who had evidently no knowledge of the appearance of gold in its native state, saw nothing particularly remarkable in the stone, but, not to disappoint the child, bade him place it near the cabin door, which it would serve to keep open or shut at pleasure. As the stone was quite heavy, weighing nearly fifteen pounds, it was found of considerable use for that purpose. Several years elapsed before any one thought of the stone's being possibly a mineral of value, although the owner often showed it to his neighbors, bidding them mark its unusual weight. Finally he was induced by some one to take it to a goldsmith in the neighboring town of Fayetteville, who upon testing it at once pronounced it to be gold. So simple, however, and so ignorant of the value of the precious metal was the old farmer that he even then allowed the dishonest goldsmith to buy the nugget of him for the paltry sum of \$4. Its true value was ascertained to be not less than \$4,000, and the locality in which it was found soon became a rich field for gold hunters. This is claimed to have been the first discovery of gold ever made in the United States.

Poison the fountain and the stream is impure; poison the blood and its taint is carried through the entire system—those innumerable veins and arteries carry disease and death instead of life and vitality. As a result you have Headache, Scrofula, Dyspepsia, Kidney Disease, Liver Complaint and General Debility. An inactive liver means poisoned blood; Constipation means poisoned blood; Kidney disorder means poisoned blood. The great antidote for impure blood is Dr. Pierce's Golden Medical Discovery. Acting directly upon the affected organs, restores them to their normal condition. "A word to the wise is sufficient." The "Discovery" is guaranteed to cure in all cases for which it is recommended, or money paid for it will be promptly refunded.
