We'll not charge you fancy prices, treat you well, don't be afraid, therefore come and patronize; us money saved is money made, at the Wilmington Shirt Factory, 123 Market street. Sign of the blue awning. †  
The grade of the pavements on the South side of Market street, from Taylor's Bazaar to Second street, should be raised at once. It is lower than the curbing and whenever it rains hard there is a clear sheet of water on the sidewalk. This is a matter which should be attended to at once.  
Progress.  
It is very important in this age of vast material progress that a remedy be pleasing to the taste and to the eye, easily taken, acceptable to the stomach and healthy in its nature and effects. Possession these qualities, Syrup of Figs is the one perfect laxative and most gentle diuretic known. †

Special constables should be appointed for Wrightsville and Wrightsville Beach during the Summer months. Not that the regular denizens of these localities need oversight but for their protection and for peace. With big crowds from everywhere on hand a glimpse of the majesty of the law is oftentimes effectual. There have been occasions already where their services were needed.

**Scribner's for July.**  
The July issue of *Scribner's Magazine* is a midsummer fiction number, containing seven complete short stories, four of them richly illustrated, and an unusually exciting installment of "The Master of Ballantrae." There are also included the second article in the new Electrical Series, and interesting poems. "How the Derby was Won" is a Kentucky story. "The Rock of Beranger" is a story of comedy and sentiment. "The Governor" is full of sentiment and deep feeling. There is a striking railway sketch, entitled "The Story of a Lost Car," which is ingenious in construction. In a quieter vein is "Copeland Collection," a story of Newport out of season. There is also a bright comedietta, "From Four to Six," and a short story sketch, called "The Two Mollies." The Electric Series is continued, with "The Telegraph of Today," which is the leading article, containing very rich illustrations, showing views of the great Western Union operating room, the Commercial Cable offices, and many of the wonderful inventions of modern telegraphy. The poems of the issue are contributed by Graham R. Tomson, Charles Edwin Markham, D. C. Scott, R. H. Stoddard, E. S. Martin, and H. P. Kimball.

## The Musicales To-Morrow Night.

If present indications may be relied upon then there will be a large attendance to-morrow night at the Opera House at the grand musicale to be given for the benefit of Grace M. E. Church. The tickets are selling well. An excellent programme will be presented and some of our best vocalists will take part. It will be an event of much interest.  
**Five Prizes in All.**  
Five prizes are to be shot for at Carolina Beach to-morrow, on the excursion to be given by Howard Relief Fire Engine Co. No. 1. There are four prizes for gentlemen and one for ladies. The former consist of two handsome gold headed walking canes, and two silver headed canes, and the lady's prize is a solid silver pocket knife. The contest will not take place until after the arrival of the afternoon train at the Beach.  
**A Healthy City.**  
Physicians report that the town is almost "distressingly healthy" now. The recent epidemic of dysentery seems to have entirely passed away and there is but little sickness otherwise than is incidental to the season. We are fast approaching the healthiest season of the year, July and August. It is a fact that these two months, right here on the seashore, are the healthiest of the entire year, a fact which we beg our up country friends to make a note of.  
**A Three Story Jump.**  
Mr. Wm. Bonitz has a pet dog which has a decided opinion of his own in most matters. In fact, he not only has opinions but he dares maintain them. Yesterday he was accidentally shut up in a room on the third story of the hotel and not being able to crawl through the keyhole he concluded to leap for liberty through an open window. This he did and alighted on the awning above Messrs. Everitt & Clarke's store, on the ground floor, and from thence came safely to the pavement below.  
**A Big Cotton Press.**  
The new press for the Champion Compress and Warehouse Company has arrived and the work of putting it in position will be at once proceeded with. It is a mammoth affair and it is calculated is of power sufficient to compress a bale of cotton to a thickness (or a thinness) of only five inches. This, of course, will not be done, but it is only mentioned to show the power of the press. The foundations are all ready. They are built on 300 piles, driven close together, and on these there is a structure in which 100,000 brick were used. The weight of the press is said to be 160 tons, or 320,000 pounds, and it took eight cars to bring it here. The cylinder is 7 1/2 feet in diameter.  
**Onslow Items.**  
A correspondent at Catherine Lake, Onslow county, sends us a number of news scraps, which we collate as follows:  
There have been excellent seasons thus far in this section; the crops are very fine and the farmers are jubilant over the prospects.  
Mr. Fonvons Pedrick, of Kinston, is visiting relatives in the village.  
Mr. Manger Jones, killed near Catherine Lake on Saturday last a large rattlesnake with 14 rattles.  
Misses Lucy Taylor and Katie Boggs have returned from the Kinsey School and Miss Mollie Duffy has returned from Clinton High School.  
We have just heard of the sad death of little Willie, son of Mr. Mack Marshburn, now of Wilmington.  
Our Farmers' Alliance met last Saturday in the school building at this place and Miss Lizzie A. Marshburn delivered a very fine oration on that occasion.  
Mr. John Barker caught in the lake 17 perch with one bait. Who can beat this?  
The old Lake is on a boom now and we are all listening intently to hear the screech of the locomotive.  
Mr. L. B. Pedrick will leave for Wilmington this (Tuesday) morning, with a fine lot of country produce for you town folks to eat.  
We have been assured here that the railroad from Wilmington to Jacksonville, via Sneed's Ferry, will be completed by the 7th of next December. In that event we will all call to see you. In fact, the Lake will empty itself into Wilmington, a prospect over which you need not be unduly alarmed.  
**Refreshing and Invigorating**  
Delicious Soda Water as drawn from Munds Brothers' magnificent new soda fountain at a temperature of 34°. Purest Fruit Syrup, Milk Shakes and Natural Mineral Water.

### Forecasts.

For North Carolina, rain and slightly warmer.

Get ready for the Fourth. It is due just one week from to-morrow.

Mr. and Mrs. J. W. Miller, of Charlotte, are at the Island Beach Hotel.

Dr. R. J. Brevard and family and Mr. B. D. Springs, of Charlotte, are at Capt. Manning's.

The street sweeping machine is here and is to be tested on the streets to night. It can be worked with either one or two horses.

The city is now in a good sanitary condition. We speak by authority. There are no epidemics, or rumors of epidemics anywhere, and we hope that there will be none this Summer.

Mr. Wade H. Harris, of the Charlotte News, passed through the city to-day on his return to Charlotte from a visit to his family at Atlantic View.

There is a lot of yellow water in the river now, coming down from the upper Cape Fear, but Capt. Tomlinson reports that there is not much of a freshet, only four or five feet water on the shoals.

The theatrical season will open here about the middle of September. There are quite a number of engagements already booked and the season promises to be a lively one, provided the railroad schedules for the Winter are favorable.

The Sunday School of the First Presbyterian Church will give a grand family excursion to Carolina Beach on Friday next. One of the most pleasant excursions of the season is expected. There will be three round trips between this city and the Beach during that day.

We can make you comfortable for \$1.00 by supplying you with the Ironclad Oil Stove. N. Jacobi Hdw Co.
