"He was a splendid racer once but is all broken down now," was the remark of a genleman who saw a well-known horse hobble by. The horse had been overtaxed and "broke The man of business strains his energies and breaks down. The wife, mother or working woman goes beyond her strength and breaks down. The aged man or woman who was once strong is now broken down. The world seems filled with broken down people. and unfortunately, it generally seems to be their own fault. When Nature begins to give way assist her. Do it gently, and do it sensibly. Stimulate her weakening powers with pure whistey taken as a medicine and not as a beverage. Nine times out of ten the break-

ing down will cease and health will return. It is absolutely necessary, however, that only pure and medicinal whiskey be used, and doctors and chemists all agree that Duffy's Pure Malt Whiskey is the only pure and reliable preparation in America. It has the enmedicinal qualities. It is used in hospitals, in cases of fever and where a reliable stimuant is required, but its great power is in restoring the broken down, building up the weakened and debilitated, and giving new life to the aged. Be sure and secure only the gennine. Do not permit any dealer to sell you a Duffy's. For years this whiskey has been used than ever before. The wonderful results from its use prove its merit and its best friends are those who have used it the longest. It is the only medicinal whiskey before the public.

MONDAY, JULY 1, 1889.

Entered at the Postoffice at Wilmington, N.C. as second-class matter.

The Federation of Labor has, within the past two years, gained enormously in strength, and is now probably the most powerful organization of workingmen in the United States, with a larger membership than the Knights of Labor. Its president is Mr. Sainuel Gompers, a cigar maker of about 45 years of age, dorsement of clergymen owing to its great who may be seen daily at the na tional headquarters of the Federation in Clinton place, New York. He is a quiet and courteous man of business habits, who has not yet worthless article, claiming it is as good as broken down under his heavy daily as a medicine, and it is more ropular to-day mail and the trying duties of his office. His face and figure bear a striking resemblance to those o Gen. Phil. Sheridan in his prime.

> The refusal of the Royal Yacht Squadron to accept the conditions for the next races for the America's cup does not indicate any great anx iety for a test of the Valkyrie's ability to compete with American yachts. The contest would have made our yachting season particularly lively, and, owing to the delay, we should have had no choice but to put in the Volunteer, which no well informed yachtsman, British or American, doubts can beat the Valkyrie with ease, barring acci dents. The indifference of the Brit ish yachtsmen about the races, in these circumstances, is natural enough, especially considering that the Valkyrie does not now seem to be as good as she appeared in her cle Renb—Dat's a picked chick'n, first races.

lish pheasants on the island of I, 'Chick'n, you ain't safe,' 'n' I put Jekyl, Ga., has been very success The shooting club there from twenty-eight birds raised 1,000, which were turned out, and, finding plenty of good food, thrived wonderfully. The club has sent to England for 100 more hen birds, and hopes to raise 5,000 pheasants this season. The eggs are set under common barnyard fowls, the pheasant being a proverbially improvident mother. The island bids fair to be the finest game preserve in the United States. The California quail turned out there have increased wonderfully, and so have deer and wild turkey. Indeed, deer have become so numerous as to injure the crops raised on the island.

The recent speeches of Mr. Gladstone in his tour through Wales are regarded by the London Spectator as committing him unqualifiedly to the policy of federation for the British Empire. They certainly involve the approval by him of a very large concession to Wales and Scotland of the powers now exercised by Parliament and the creation of representative bodies in those two countries through which the powers thus conceded can be exercised. For instance, Mr. Gladstone dis. tinctly referred to the disestablishment of the Church in both these countries as a matter that each should be allowed to deal with in its own way, and referred to disestablishment in England as something which the next generation was very likely, if not entirely sure, to take up and carry through. It is plain that for purposes of this large import Scotland and Wales would require a legislative agency and its complement, an independent executive, that by their very existence would modify most seriously the British Constitution, and which might lead to an ultimate disintes gration of the Empire. But, on the other hand, it can no longer be denied that Parliament finds its work too heavy for it; that much of that work is badly done, and much more is left undone. If something in the nature of federation will not bring relief, the opponents of that measure will be compelled to find another remedy. The present system is believed by a large number of the most acute and loyal observers in THE NEXT SESSION BE JINS AUGUST England to be getting intolerable.

"Tis better not to be, than be unhappy,". and no one can be happy whose system is deranged by poisonous secretions. Nearly all ills that flesh is heir to arise from torpid liver and derangement of the digestive organs. Dr. Pierce's Pleasant Purgative Pellets correct irregularities of the liver, prevent constipation and promote good health. Buy them of your druggist.

TERRIBLE FOREWARNINGS. Cough in the morning, hurried or

difficult breathing, raising of phlegm, tightness in the chest, quickened pulse, chilliness in the quickened pulse, chilliness in the evening or sweats at night, all or any of these things are the first stages of consumption. Dr. Acker's English Remedy for Consumption will cure these fearful symptoms, and is sold under a positive guarantee by Munds Bros., druggists.

I could get no permanent relief from any medicine prescribed by my physician. I took over a dozen bottles of your S. S. S., and now I am as well as I ever was in my life. WACO, TEXAS, May 9, 1888—Gentlemen | The wife of one of my customers was terribly afflicted with a loathsome skin disease, that afflicted with a loathsome skin disease, that covered her whole body. She was confined to her bed for several years by this affliction, and could not help herself at all. She could not sleep from a violent itching and stinging of the skin. The disease baffled the skill of the physicians who treated it. Her husband began finally giving his wife Swift's Specific, and she commenced to improve almost immediately, and in a few weeks she was apparently well. She is now a hearty fine-looking lady, with no trace of the affliction left. Yours very truly, J. E. SEARS, Wholesale Druggist, Austin Avenue.
