The Daily Review.
TUESDAY, JULY 23, 1889.
STATE NEWS.

Greensboro Workman: The C. C. & A. R. R. claims to have the tallest conductor in the United States, Capt. Ficklin, who is so tall that when he goes through the train he has to frequently duck his head to keep it from interfering with the bell cord. He is seven feet high.

Durham Sun: Two young men of our sister town of Henderson lost their lives this week, while bathing. Sunday night Samuel White, eldest son of Capt. J. B. White, was drowned in the James river. Wednesday evening W. Capers Harris, eldest son of the late Col. Harrell Harris, was drowned in the Nansemond river at Suffolk. The latter young man was a most affectionate and devoted son and brother, a young man of spotless Christian character, a member of the Baptist Church, and was a ministerial student at Wake Forest College, N. C. He was about 19 years of age.

Goldsboro Mercury: At the meeting of the Farmer's Alliance, of Wayne, held yesterday, Mr. John W. Bryan was elected to represent the Alliance at the State Alliance, to be held in Fayetteville, August 13th next. Sam Cohn & Son, who purchased two fine steers on the 18th, from Mr. D. W. Watson, had one killed yesterday, which was for sale this morning at the city market. It weighed 1,005 pounds after being dressed. This is the largest and finest on record. Mrs. Sarah Everett arrived here from Beatrice, Nebraska, last night. She made the trip alone, all that long journey, without a traveling companion. Mrs. Everett is here to stay, and says that there is no amount of money that would induce her to stay in that country.

Newton Enterprise: The farmers on the South Fork who had their corn crops almost entirely destroyed by freshets week before last are not the kind to sit down and mourn over their misfortune. On Thursday the water reached its highest mark, on Friday the sun came out, on Saturday they put seed corn to soak, on Monday they planted it and in four days it was up, and is now ready for the plow and hoe. Unless another freshet comes along good crops will yet be matured before frost. There is but one report about the crops in this county. They promise to be the best for many years. Cotton and upland corn beat anything ever known in this county, and all kinds of garden vegetables are extraordinary. The fruit trees are loaded as they never were before. Wheat is turning out from the threshers so as to meet the expectation of the most sanguine. This verily promises to be a bountiful year in every particular, for which the farmers and everybody else feel grateful.

Newbern Journal: There are in Newbern and vicinity about twenty saw mills, several planing mills and and dry kilns, with an annual output of about 80,000,000 feet of lumber, valued at over half a million dollars. Other industries include grist mills, cotton seed oil mill, cotton ginning, oyster canning, guano factory, wood plate and wood pulp mills, ice factory, marble yard, buggy works, also furniture factories, candy, cigar, clothing, and box factories, with products worth nearly half a million dollars. The trucking embraces about 1,500 acres, and requires over a million feet of lumber for shipping boxes annually. Cotton shipments from the port of Newbern about 40,000 bales, of which 15,000 bales are sold by the producers at the Newbern Cotton and Grain Exchange. The fish and oyster business amounts to over \$200,000. The banking business of Newbern and the eight counties adjoining is transacted by the National Bank of Newbern, where capital is \$100,000, surplus \$70,000 and by the private bank of Green, Foy & Co.

\$500, or a Cure.
For many years the manufacturers of Dr. Sage's Catarrh Remedy, who are thoroughly responsible financially, as any one can easily ascertain by enquiry, have offered, through nearly every newspaper in the land, a standing reward of \$500 for a case of chronic nasal catarrh, no matter how bad, or of how long standing, which they cannot cure. The Remedy is mild, soothing, cleansing, antiseptic, and healing. Sold by all druggists, at 50 cents.

Why not rely upon yourself a while and thus get in the way of success?

The coming year promises to be crowded with stirring events. In the United States the entrance of new issues into the political arena has been followed by a change of Administration. But the great economic question on which the campaign turned is still unsettled, and its solution is now committed to a Congress almost equally divided between the two great parties. Europe is a vast camp. Army corps patrol the frontiers, and millions of men await the signal for the most gigantic war the world has ever seen.
The HERALD'S news-gathering machinery is unequalled. Its correspondents dot the habitable globe. Nothing can escape their vigilance, and no expense is spared in spreading the results of their efforts before the HERALD'S readers.

Scribner's Magazine
For 1889.
The publishers of SCRIBNER'S MAGAZINE aim to make it the most popular and enterprising of periodicals, while at all times preserving its high literary character. 25,000 new readers have been drawn to it during the past six months by the increased excellence of its contents (notably the Railway articles), and it crosses its second year with a new impetus and an assured success. The illustrations will show some new effects, and nothing to make SCRIBNER'S MAGAZINE attractive and interesting will be neglected.
THE RAILWAY ARTICLES will be continued by several very striking papers; one especially interesting by Ex-Postmaster General Thomas L. James on "The Railway Postal Service."
MR. ROBERT LOUIS STEVENSON'S serial novel "The Master of Ballantrae," will run through the greater part of the year.
A CORRESPONDENCE and collection of manuscript memoirs relating to J. F. Millet and a famous group of modern French Painters will furnish the substance of several articles.
The brief end papers written last year by Robert Louis Stevenson, will be replaced by equally interesting contributions by several famous authors. Mr. Thomas Bailey Aldrich will write the first of them for the January number.
Many valuable LITERARY ARTICLES will appear in paper on Walter Scott's Method of Work, illustrated from original MSS., a second "Sheaf of Old Books," by Mrs. James T. Fields, and many other articles equally noteworthy.
Articles on ART SUBJECTS will be a feature. Papers are arranged to appear by Clarence Cook, E. H. Blandford, Austin Dobson and many others.
FISHING ARTICLES describing sport in the best fishing grounds will appear. Salmon, Winnish, Bass and Tarpon are the subjects arranged. The authors are well known sportsmen.
ILLUSTRATED ARTICLES of great variety, touching upon all manner of subjects, travel, geography, description, etc., will appear, but not of the conventional commonplace sort.
Among the most interesting in the list of recently published for the year will be a remarkable article by Prof. John Frowbridge, upon the most recent developments and uses of PHOTOGRAPHY. Illustrated.
A class of articles which has proved of special interest will be continued by a group of papers upon ELECTRICITY in its most recent applications, by eminent authorities; a remarkable paper on DEEP MINING, and other interesting papers. Illustrated.
A SPECIAL OFFER to cover last year's numbers, which include all the Railway Articles, as follows:
A year's subscription (1889) and the numbers for 1888..... \$4.50
A year's subscription (1889) and the numbers for 1888, bound in cloth..... 6.00
\$3 a year; 25 cents a number.
