

THE DAILY REVIEW.

VOL. XIII. WILMINGTON, N. C., WEDNESDAY, JULY 31, 1889. NO. 179.

Prof. J. W. Howell, a well known educator of Rutledge, Tenn., is dying of hydrophobia. He was bitten thirteen years ago by a black and tan terrier.

During a storm in Chicago, Saturday night, an unfinished building was blown down upon a frame cottage, completely demolishing it and killing eight persons and wounding four others very badly.

Two hundred men of Wilson county, Tenn., have banded together for the purpose of driving from the county Mormon elders and converts who have interrupted religious meetings and used insulting language.

Fourteen out of the twenty two patent leather manufacturers of Newark, N. J., have signed options to sell to English syndicates on cash terms, but an option to take one third in stocks is given. There is a stipulation that no manufacturer who sells shall re-engage in the business within five years. The combination is formed to maintain prices, as the margin is now small.

John F. Scanlan, a friend of the late Dr. P. H. Cronin, of Chicago, is quoted as saying that he believes Clan-an-Gael men are gathering at Winnipeg, Manitoba, prepared to assassinate Martin Burke in the event of his extradition in order to prevent his return to Chicago, in the belief that he would make a confession of the plot to murder Dr. Cronin if he should fall into the hands of the Chicago authorities.

W. W. Holden is out in a card defending his appointment of Grissom as Superintendent of the Insane Asylum. He says: "The three best appointments I ever made were Hon. R. R. Bridges, in 1865, as President of the Wilmington and Weldon Railroad, Hon. W. A. Smith, as President of the North Carolina Road, and Dr. Eugene Grissom, Superintendent of the Asylum in 1868. Mr. Bridges, it is well known, was a Democrat."

The residents of Swoyer's Hill, a few miles above Wilkesbarre, Pa., were greatly alarmed Saturday morning by the settling of a large area over the workings of Enterprise Colliery. A considerable number of dwellings are located on the distributed tract, but so far the only dwellings injured are those of George Eioke, Peter Newman and Michael Welsh. The cause of the settling of surface is supposed to be the removal of too large a proportion of coal.

A New York morning paper prints a sensational story alleging that the notorious Madame Restelle, who was arrested at her palatial home, Fifth avenue and Fifty-second street, New York city, April 8th, 1878, on a charge of malpractice, and who was supposed to have committed suicide by cutting her throat in her bathroom, is now living in the suburbs of Paris, the body upon which the coroner's jury found its verdict having been one of the woman's victims.

The Charlotte Chronicle says that the contract for the grading of 80 miles of the Georgia, Carolina and Northern Railroad was given out in Chester Saturday. The work was let in small sections, and quite a number of contractors are interested.

To Dispel Colds.
Headaches and Fevers, to cleanse the system effectually, yet gently, when costive or bilious, or when the blood is impure or sluggish, to permanently cure habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, use Syrup of Figs.

The Lottery Law.
The following are included under the head of Lotteries in section 15, schedule B, of an act to "Raise Revenue," laws of 1889. "Every gift enterprise, or any person, or establishment offering any article for sale and proposing to present purchasers with any gift or prize as an inducement to purchase, fifty dollars. On any lottery, whether known as a beneficial association, gift concert or otherwise, one thousand dollars on every itinerant dealer in prize photographs, or prizes of any kind, one hundred dollars in each county in which the business is conducted."

The Mattress Factory.
(From Messenger Encampment Issue.)
One of our young men, Mr. W. M. Cumming, is in a business that ought to be encouraged, for it is not only a home industry, but one that adds to our city's health and our citizen's comfort. It is the manufacture and renovating of mattresses, and includes such other articles in that line as springs, pillows, cushions, bolsters, etc. An old mattress is often both uncomfortable and unhealthy, and to have it renovated and remade becomes both a duty and a pleasure, especially when the work can be done and well done, in one day, as Mr. Cumming is prepared to do. The factory is situated on Princess street (No. 17), and is fully equipped with the newest patented machinery to do all kinds of work. The hair picking machine is especially well adapted to do this important branch of the work.

Our friends in the country would find it to their advantage to write to Mr. Cumming if they desire their old hair (or moss, or other) mattresses made over at small cost. When our readers consider that "one third of their lives is spent in bed," and that in all times of weakness, of weariness and of sickness they seek the bed for recuperation and rest, they will doubtless correspond with Mr. W. M. Cumming with regard to buying a good set of springs and a nice hair mattress, or having the old ones made over.

Excursion from Mt. Olive.
There is an excursion party here to day from Mt. Olive. The party numbers in all about 300, about two thirds of whom are colored. Some of these went down on the Seacoast Railroad, and others to Carolina Beach, while still others remained in the city.

Crops About Burgaw.
Mr. J. T. Collins, of Burgaw, arrived here this morning and went down to Wrightsville to spend the day. In a brief interview he informed us that the crops are looking well in his section but that he fears the rains will injure the cotton. They have already hurt the fruit crop.

A Fine Country.
A gentleman in this city, who paid a visit yesterday to the upper part of Brunswick county, says that the crops all along the line of the road he traversed are truly magnificent. Cotton, corn, peas and potatoes are all in splendid condition, notwithstanding the heavy rains. He says also that it appears to be a perfect paradise for sportsmen. There are lots of young partridges in the woods and fields and some of the prettiest fresh water streams for fishing he has ever seen. The drawback, however, lies in the fact that it is an almost inaccessible country. There are two ferries to cross to get there and our friend had to pay \$1.75, going and coming, for a horse and buggy to cross these.

Very Pleasant and Very Appropriate.
One of the most interesting incidents known in the history of Cape Fear Lodge, No. 2, I. O. O. F., took place in the Lodge room last night. It was the presentation to Mr. R. J. Jones, Past Grand Master, of an elegant jewel.

Mr. Jones is the ranking member of the Order in North Carolina, having been initiated into Cape Fear Lodge on the 8th day of July, 1845, and continuing an active member since that time, he has filled all the offices in the subordinate Lodge, been Grand Master of the Order in the State, Representative to the Sovereign Grand Lodge of the United States, and for a number of years has been Treasurer of the Grand Lodge of North Carolina. In token of their appreciation of these facts and the esteem in which Mr. Jones is held, his fellow members of the Lodge presented him last night with a handsome testimonial—a P. G. M. Jewel, of solid silver lined with gold. The presentation was made by P. G. John D. Bellamy, Jr., in behalf of the brethren, very handsomely and in a little speech that was a real gem. Mr. Jones, although taken by surprise, responded happily and feelingly. After the presentation some very fine music was rendered by a quartette of members—Messrs. Jos. D. Smith, J. W. Fleet, John Grant and Wm. Register, with Mr. E. P. Boatwright at the organ.

The jewel presented Mr. Jones is of gold and silver, in form emblematic of the order, and is engraved on one side with the words, "R. J. Jones, P. G. M.," and on the other, "From members of Cape Fear Lodge No. 2, I. O. O. F., in recognition of 44 years active service, July 8th, 1845."

Fay's Automatic Fan Attachment.
This grand invention for keeping cool, and the flies off at the same time, is just being introduced, and will have an enormous sale during the hot months. It can be attached to any Rocking Chair made, and will fan the occupant of the chair while he rocks himself. It can be attached to cribs or Cradles, and will fan the sleeping child. It is a comfort to the sick and invalids, who will require less care from the nurse. It is invaluable in every household. It is cheap, ornamental and useful, and will last for many years. The Company wish to secure an Agent at once in every county. It is a bona fide invention, and is being sold in Pittsburgh in two weeks. Pays one hundred per cent. profit. Sample complete, handsomely illustrated, sent on receipt of \$3.00. Circulars and terms to Agents sent to all. Address

Work on the new school building on Fifth street, near Chestnut, is progressing slowly on account of the rain. Mr. Post says that he is working "between showers," but that he will get there all the same and that the building will be ready at the specified time.

Mr. S. S. Satchwell, Jr., who has been for some years past in Mr. Kenly's office, A. C. Line, in this city, left here last night for Savannah, where he will fill a position in the office of the G. P. & F. A. of the S. F. & W. R. R. He has many friends here who wish him a prosperous career in his new home.

Base Ball.
Be sure to see the game to-morrow afternoon at 4.30, between the Clarendon and Excelsior clubs. Johnson, from Cleveland, Ohio, will pitch for the Clarendons. The battery for the Excelsior is fine. Street cars will run to and from the grounds. The management of the clubs have issued 50 complimentary tickets to ladies. Admission 25 cents, children 10 cents.

City Court.
Before the Mayor this morning William Northan was charged with disorderly conduct, but the case was continued.

Robert Johnson, disorderly, was fined \$20 or 30 days.
Charles Walker, abandonment, was found not guilty.
Rachel Smith, disorderly conduct, case continued to-morrow.
Two parties were arraigned for keeping unlicensed dogs.

Lippincott's Magazine.
The complete novel in *Lippincott's* for August, "An Invention of the Enemy," is furnished by W. H. Babcock. The plot hinges upon the legal fight between two inventors for the same patent, and works up to a powerful denouement. Mr. George W. Childs presents the third instalment of his very interesting "Recollections." Another article dealing with reminiscences is Jas. M. Scovel's "Recollections of Abraham Lincoln." The short stories in this number are supplied by Rolfe Ogden and Albion W. Tourgee. "A Literary Boarder" by the former is very amusing and clever. A very timely article is "Floods and their Causes." "Why I Deny Evolution," is a startling and original plea for creation and a personal creator. Miss J. K. Wetherill presents an original plea for dreamers and illusions in "Magicians and Feather Dusters." "Where is Mr. Stevenson?" has some clever things to say. A bright skit is contributed by Julius Hawthorne entitled "French Propriety." "About Foot Lights," tells in an entertaining manner the story of the origin and evolution of these necessary appendages to the stage. Poems are contributed by Daniel Dawson, Walter Leonard, and Dora Read Goodale. The various departments are up to their usual standard of excellence.

"A Word to the Wise is Sufficient."
Catarrh is not simply an inconvenience, unpleasant to the sufferer and disgusting to others—it is an advanced outpost of approaching disease of worse type. Do not neglect its warning; it brings deadly evils in its train. Before it is too late, use Dr. Sage's Catarrh Remedy. It reaches the seat of the ailment, and is the only thing that will. You may dose yourself with quack medicines till it is too late—till the streamlet becomes a resistless torrent. It is the matured invention of a scientific physician. "A word to the wise is sufficient."

Forecast.
For North Carolina fair in western part, showers in eastern portion, and stationary temperature. For Wilmington showers.
