There was a game of base ball played yesterday afternoon between a nine from Capt. Manning's place, Atlantic view, and a nine composed of fishermen, which was won by the former in a score of 23 to 17.

The kitchen of the hotel at Carolina Beach caught on fire last night, and a lively blaze was the result, but the hotel employees soon had it under control. It was a hard worked kitchen yesterday and it was on a strike.

Mr. Darden, Superintendent of Bladen Street M. E. Sunday School, tells us that they all had a fine time yesterday at the picnic at Carolina Beach, notwithstanding the unfavorable weather. There was a large crowd and all had a pleasant day.

To Dispel Colds. Headaches and Fevers, to cleanse the system effectually, yet gently, when costive or bilious, or when the blood is impure or sluggish, to permanently cure habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, use Syrup of Figs.

The Fruit Market.
Fruits are getting cheaper. Cooking apples were offering this morning at 15 cents a peck and cooking pears at 20 cents a peck. A lot of nice Duchess pears were offered at 75 cents a peck. There were some nice native watermelons in, about the first really good ones of the season, and the best sold for 25 to 30 cents each. Canteloupes retailed at from 2 to 10 cents each.

Not Much Enterprise.
The local article published by us on Tuesday last, headed "The Exodus Movement," was gobbled up by the New York Herald reporter in Raleigh and telegraphed to that paper word for word, just as it appeared in the REVIEW. The Herald published it yesterday. It could have published it twenty-four hours earlier by slipping it from the columns of the REVIEW on Wednesday afternoon.

Visiting Firemen.
The Neptune Steam Fire Engine Company of Charlotte arrived here this morning at 8.45 o'clock, with an excursion party from that city. There were four coaches, making in all about 250 people, all colored. The Neptunes are a fine looking body of men. They have their reel with them, a band, and a base ball team which will meet the Mutuals of this city at the Seaside grounds this afternoon. They are the guests while here of Cape Fear Steam Fire Engine Company and were met this morning by a committee from that company, in full uniform, with music. They expect to return to Charlotte on Monday night.

The Planets in August.
Jupiter is evening star and stands first on the list during August. He is receding from the earth, and is low in August, but is the most brilliant of all the stars visible in the evening sky. He makes his transit on the last day of the month soon after 7 o'clock in the evening.

Venus is morning star. She is retracting her steps towards the sun and her luster grows dim, but she is still the peerless gem of the morning sky, pursuing her radiant course for about three hours before sunrise.

Saturn is evening star until the 16th, and then a change occurs. He completes a synodic revolution and comes into line with the sun and the earth, our planet being in the middle. This is called his conjunction with the sun, and takes place on the 16th, at 9 a. m. Saturn passing to the sun's western side and becoming morning star.

Mercury is morning star until the 7th, and after that time evening star. He is in superior conjunction with the sun on 7th at 2.47 p. m. when he passes to the sun's eastern side and commences his swift course as evening star.

Mercury, Uranus and Jupiter are evening stars at the close of the month. Neptune, Venus, Mars and Saturn are morning stars.

"A Word to the Wise is Sufficient."
Catarrh is not simply an inconvenience, unpleasant to the sufferer and disgusting to others—it is an advanced outpost of approaching disease of worse type. Do not neglect its warning; it brings deadly evil in its train. Before it is too late, use Dr. Sage's Catarrh Remedy. It reaches the seat of the ailment, and is the only thing that will. You may dose yourself with quack medicines till it is too late—till the streamlet becomes a resistless torrent. It is the matured invention of a scientific physician. "A word to the wise is sufficient."

The Band at the Beach.
The Germania Cornet Band played to a large crowd yesterday afternoon. Notwithstanding the bad weather here the boats carried down good lists of passengers on each trip and as far as can be ascertained there were about 900 people at the Beach during the day. The concert by the band was greatly enjoyed and every piece was received with hearty plaudits.

Belford's Magazine.
The August number of Belford's Magazine is at hand with its usual excellent and attractive table of contents. The novel for the month is "The Partial Veil," by James Franklin Pitts. "Have we Abolished Slavery?" by John F. Mume, the leading article, is a hard blow at hydra-headed monopoly; "Joyce Mott: A Seaside Surprise," is by Mrs. E. D. E. N. Southworth, and is delightful reading for the season; Gen. Lew Wallace and others discuss the "Favorite Novels of American Authors"; "The New and the Old in the South," by Joshua W. Caldwell, shows up some of the many remarkable changes which have taken place in this section; "Kisghli, the Greek," is a pleasant story; and "A Glimpse of the Under World" will well repay perusal. The editorial department is, as usual, one of the most interesting features of this magazine, and there are several fine poems in the issue, among them one by Edgar Fawcett, whose muse has in this instance singled out Grover Cleveland as its theme. Belford, Clarke & Co., Chicago, New York and San Francisco.

American History.
The August Magazine of American History is a model of elegance, and as usual the number is well filled with admirably written and valuable papers. "Earliest American People" touches upon a theme dear to every antiquarian reader, "England's Struggle with American Colonies," is one of the prominent features of the number. Hon. J. O. Dykman concludes his series of papers of "The Last Twelve Days of Major Andre." J. P. Dunn, Jr., contributes "The Founding of Post Vincennes," and Mr. William S. Pelletreau writes of "The Philippe Patent in the Highlands." Mrs. Lamb's opening article is a vigorous pen picture of the "Career of a Beneficent Enterprise,"—now one hundred and four years old—"The General Society of Mechanics and Tradesmen," and this delightful paper is profusely illustrated. A portion of the brilliant address of President Gates of Rutgers College, to the class of 1886, appears in these pages, and there is a beautiful "Tribute to Mrs. R. B. Hayes," from the Editor. The frontispiece of the number is an excellent portrait of Alexander Hamilton. "The Wit and Wisdom of Keokuk, Chief of the Sac and Foxes," is one of the short articles; and an unpublished Washington letter is given to the reader in Original Documents. All the minor departments—Notes, Queries, Replies, Historic and Social Jottings, and Book Notices—are crowded with important facts and choice reading. Price, \$5.00 a year. Published at 743 Broadway, New York City.

The Mattress Factory.
(From Messenger Encampment Issue.)
One of our young men, Mr. W. M. Cumming, is in a business that ought to be encouraged, for it is not only a home industry, but one that adds to our city's health and our citizen's comfort. It is the manufacture and renovating of mattresses, and includes such other articles in that line as springs, pillows, cushions, bolsters, etc. An old mattress is often both uncomfortable and unhealthy, and to have it renovated and remade becomes both a duty and a pleasure, especially when the work can be done and well done, in one day, as Mr. Cumming is prepared to do. The factory is situated on Princess street (No. 17), and is fully equipped with the newest patented machinery to do all kinds of work. The hair picking machine is especially well adapted to do this important branch of the work.

Our friends in the country would find it to their advantage to write to Mr. Cumming if they desire their old hair (or moss, or other) mattresses made over at small cost.

When our readers consider that "one third of their lives is spent in bed," and that in all times of weakness, and weariness and of sickness they seek the bed for recuperation and rest, they will doubtless correspond with Mr. W. M. Cumming with regard to buying a good set of springs and a nice hair mattress, or having the old ones made over.

There has been but one interment this week in Oakdale and none in Bellvue.

Mr. James H. Chadborn, Jr., Superintendent of the W. C. & C. R. R., is in the city.

The Register of Deeds has issued marriage license this week to five couples, one white and four colored.

Ger. barque *Johann Daniels*, Leithgens, cleared to-day for Steetm, with 3,049 barrels rosin, valued at \$3,200, shipped by Messrs. E. Peshau & Westermann.

Headquarters for Sash, Doors and Builders' Supplies is the N. Jacobi Hdq. Co. They sell the best goods at prices that you pay for those of an inferior quality.

The moon completes its first quarter at 8:13 to-morrow morning. There may be a change of weather then, but we think that the rain will not let up until the full of the moon, which takes place next Saturday night, at nearly midnight.

Stoves. We have a very large line, made by the best factories, of the latest and most improved styles, which we guarantee to bake and cook well and to give general satisfaction. Our low prices will astonish and our Stoves please you. N. Jacobi Hdq. Co.

Shirts, we have got them by the million, made by good and skilful hand; come and see us, we can save you over fifty five per cent. We'll not charge you fancy prices, treat you well, don't be afraid, therefore come and patronize; us money saved is money made, at the Wilmington Shirt Factory, 122 Market street. Sign of the blue awning.

No Seed This Year.
We understand that there will be no seed for distribution to the farmers this Fall. It is said that Commissioner Colman exhausted the appropriation and that Secretary Rusk will have no money to spend for this purpose until another appropriation is made. Maj. McClammy and Col. Rowland will therefore have no seed to distribute to their constituents this year.

Excursionists from Conway.
We are glad to see a large crowd of excursionists from Conway and stations on the W. C. & C. R. R. in the city today. The party numbers 316. Among them is Mr. Joshua Souls, President of the Farmers' Alliance at Mount Tabor, N. C. Mr. Souls is doing a good work among the farmers. He is an advocate of a diversity of crops and advises the farmers of his section to go largely into the raising of truck, strawberries, peas, melons, etc.

City Court.
Before the Mayor to-day: Pat Willis, charged with forfeiting his recognizance, was found guilty, but judgment was suspended. Joseph Grady was found guilty of receiving money under false pretense, and was bound over to the next term of the Criminal Court. Phillis Moore, receiving money under false pretenses, not guilty and discharged.

Charles Burnett, disorderly conduct, fined \$10.
Thomas Spooner, same offense, \$10.
Two cases were continued.

Fay's Automatic Fan Attachment.
This grand invention for keeping cool, and the flies off at the same time, is just being introduced, and will have an enormous sale during the hot months. It can be attached to any Rocking Chair made, and will fan the occupant of the chair while he rocks himself. It can be attached to Cribbs or Cradles, and will fan the sleeper. It is a comfort to the sick and invalids, who will require less care from the nurse. It is invaluable in every household. It is cheap, ornamental and useful, and will last for many years. The Company wish to secure an Agent at once in every county. It is a bonanza for Agents during the hot months. Over one thousand sold in Pittsburgh in two weeks. Pays one hundred per cent profit. Sample complete, handsomely nickel plated, sent on receipt of \$2.00. Circulars and terms to Agents sent to all.

Advice to Mothers.
MRS. WINSLOW'S SOOTHING SYRUP should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty five cents a bottle. July 6 d&wly
