Alexander Graham Bell is spendcoast in a remarkable craft. It is an immense catamaran on which is rooms, bath rooms and kitchen, all arranged with modern conveniences. The boat is driven by two powerful screws, and can make twelve or fifteen miles an hour in good water.

The cigarette habit is increasing. The commissioners of the internal revenue collected taxes last yearupon 2.151,515,300, which is an increase fiscal year. The number taxed is a pretty good indication of the consumption. The number of cigars taxed during the last fiscal year was 3,867,385,640, an increase of 22,-658,990, showing that the consumption of cigarettes is increasing more rapidly than that of eigars.

The New York Times says: "Al discussions of the Behring Sea problem have treated it as an Anglo American quarrel, with the rest of the world impartially interested as owners of the undivided high seas. But Russia's position is worth con sidering. She sold us property for a tidy sum, and now the title is dis puted. To be sure, her conveyance was in the nature of a quitclaim, without warrantee, and, besides, the bargain is perhaps good enough without the sea to which our claim is disputed. But perhaps Russia, being high spirited and justice loving, might wish to prove her right to sell what she did sell, and, whether or not that be so, she has a selfish interest in the title to her half of the sea. It is impossible that our title should fail and Russia's endure. Behring Sea as an en tirety belongs to the world, or else in halves it belongs to Russia and to us. Thus Mr. Blaine has one obvious ally, who will be of use, at least, in helping him as to the terms upon which the matter may be settled. It is well to recall at this juncture that the Russian minister attended a recent conference upon this subject in London.
